PRINCE2 P3O Foundation Project Office 2013 Exam Sample Questions (Q31-Q36):

NEW QUESTION # 31

Which is a functional area within a P3O model?

- A. COE functions or services
- B. Flexible resource pool
- C. Virtual Office
- D. Hub Portfolio Office connected by spokes

Answer: A

Explanation:

COE (Centre of Excellence) functions or services are a functional area within a P3O model, per the P3O Foundation (2013) manual. Section 5.3.4 states, "The Centre of Excellence provides a functional area within the P3O, offering standards, guidance, and best practices to support PPM maturity." This contrasts with Hub Portfolio Offices (A), which are structural models, Virtual Offices

(C), which are temporary setups, and Flexible Resource Pools (D), which are resource mechanisms. The 2013 edition highlights the COE's role in standardizing processes, making it a core P3O component. This ensures consistent support across the organization. Reference: P3O Foundation (2013) manual, Section 5.3.4, AXELOS.

NEW QUESTION # 32

Which is a responsibility of the P3O Sponsor role?

- A. Ensure the portfolio delivers the required strategy
- B. Recruit the Portfolio Office staff members
- C. Secure the investment required to set up the P3O
- D. Recommend an appropriate mix of programmes and projects

Answer: C

Explanation:

The P3O Foundation (2013) manual identifies securing investment as a key responsibility of the P3O Sponsor. Section 3.5.1 states, "The P3O Sponsor is responsible for securing the investment required to establish and sustain the P3O, advocating its value to senior management." This differs from ensuring portfolio delivery (A), staff recruitment (C), or programme mix (D), which are Portfolio Office or Analyst roles. The 2013 edition emphasizes the Sponsor's leadership in funding advocacy, ensuring the P3O's viability. This role drives strategic commitment and resource allocation.

NEW QUESTION # 33

Why is the same function carried out with a different focus by different offices within a P3O model?

- A. To consider risk from a strategic viewpoint
- B. To understand the capability to be delivered by the being supported
- C. To provide appropriate decision support to the customers of each office
- D. To provide ongoing prioritization of change initiatives

Answer: C

Explanation:

The P3O Foundation (2013) manual explains that the same function is performed with different focuses by various P3O offices to provide tailored decision support. Section 5.3.1 states, "Different offices within a P3O model perform the same functions with varying focuses to deliver appropriate decision support tailored to the needs of their specific customers, such as portfolio or programme teams." This contrasts with prioritization (A), capability understanding (B), or strategic risk (D), which are specific outcomes rather than the reason for focus variation. The 2013 edition highlights this customization to meet diverse organizational needs, enhancing efficiency and relevance. This approach supports effective governance across levels.

NEW QUESTION # 34

Which occurs when the P3O implementation programme is closed?

- A. Blueprint is produced to document processes
- B. P3O capability becomes business as usual
- C. Risks to the implementation are captured
- D. Vision Statement is to reflect delivery

Answer: B

Explanation:

The P3O Foundation (2013) manual states that when the P3O implementation programme closes, the P3O capability becomes business as usual. Section 4.4.5 notes, "Upon closure of the implementation programme, the P3O capability is fully integrated into business as usual, marking the end of the transition phase." This differs from updating the Vision (A), producing the Blueprint (B), or capturing risks (C), which occur earlier.

The 2013 edition emphasizes this transition to ensure operational sustainability, aligning with the P3O's long-term role. This finalizes the implementation lifecycle.

NEW QUESTION # 35

Which is a benefit of the portfolio prioritization and optimization technique?

- A. Provides resource capacity to the portfolio when required
- B. Highlights programme issues requiring intervention
- C. Documents repeatable processes enabling increased PPM maturity
- D. Supports senior management investment decisions by aligning programmes to strategy

Answer: D

Explanation:

The P3O Foundation (2013) manual identifies that the portfolio prioritization and optimization technique supports senior management investment decisions by aligning programmes with strategy. Section 6.3.1 states,

"This technique supports senior management by prioritizing and optimizing the portfolio to align programmes and projects with strategic objectives, aiding investment decisions." This differs from highlighting issues (A), documenting processes (B), or providing capacity (C), which are secondary outcomes. The 2013 edition emphasizes its strategic decision-making role, ensuring resources focus on high-value initiatives. This enhances portfolio effectiveness.
