IAPP Certified Information Privacy Professional/Europe (CIPP/E) Sample Questions (Q275-Q280):

NEW QUESTION # 275
SCENARIO
Please use the following to answer the next question:
The fitness company Vigotron has recently developed a new app called M-Health, which it wants to market on its website as a free download. Vigotron's marketing manager asks his assistant Emily to create a webpage that describes the app and specifies the terms of use. Emily, who is new at Vigotron, is excited about this task.
At her previous job she took a data protection class, and though the details are a little hazy, she recognizes that Vigotron is going to need to obtain user consent for use of the app in some cases. Emily sketches out the following draft, trying to cover as much as possible before sending it to Vigotron's legal department.
Registration Form
Vigotron's new M-Health app makes it easy for you to monitor a variety of health-related activities, including diet, exercise, and sleep patterns. M-Health relies on your smartphone settings (along with other third-party apps you may already have) to collect data about all of these important lifestyle elements, and provide the information necessary for you to enrich your quality of life. (Please click here to read a full description of the services that M-Health provides.) Vigotron values your privacy. The M-Heaith app allows you to decide which information is stored in it, and which apps can access your data. When your device is locked with a passcode, all of your health and fitness data is encrypted with your passcode. You can back up data stored in the Health app to Vigotron's cloud provider, Stratculous. (Read more about Stratculous here.) Vigotron will never trade, rent or sell personal information gathered from the M-Health app. Furthermore, we will not provide a customer's name, email address or any other information gathered from the app to any third- party without a customer's consent, unless ordered by a court, directed by a subpoena, or to enforce the manufacturer's legal rights or protect its business or property.
We are happy to offer the M-Health app free of charge. If you want to download and use it, we ask that you first complete this registration form. (Please note that use of the M-Health app is restricted to adults aged 16 or older, unless parental consent has been given to minors intending to use it.)
* First name:
* Surname:
* Year of birth:
* Email:
* Physical Address (optional*):
* Health status:
*If you are interested in receiving newsletters about our products and services that we think may be of interest to you, please include your physical address. If you decide later that you do not wish to receive these newsletters, you can unsubscribe by sending an email to unsubscribe@vigotron.com or send a letter with your request to the address listed at the bottom of this page.
Terms and Conditions
1. Jurisdiction. [...]
2. Applicable law. [...]
3. Limitation of liability. [...]
Consent
By completing this registration form, you attest that you are at least 16 years of age, and that you consent to the processing of your personal data by Vigotron for the purpose of using the M-Health app. Although you are entitled to opt out of any advertising or marketing, you agree that Vigotron may contact you or provide you with any required notices, agreements, or other information concerning the services by email or other electronic means. You also agree that the Company may send automated emails with alerts regarding any problems with the M-Health app that may affect your well being.
What is one potential problem Vigotron's age policy might encounter under the GDPR?

- A. Age restrictions are more stringent when health data is involved.
- B. Organizations that tie a service to marketing must seek consent for each purpose.
- C. Organizations must make reasonable efforts to verify parental consent.
- D. Users are only required to be aged 13 or over to be considered adults.

Answer: A

NEW QUESTION # 276
The GDPR forbids the practice of "forum shopping", which occurs when companies do what?

- A. Choose the data protection officer that is most sympathetic to their business concerns.
- B. File appeals of infringement judgments with more than one EU institution simultaneously.
- C. Designate their main establishment in member state with the most flexible practices.
- D. Select third-party processors on the basis of cost rather than quality of privacy protection.

Answer: C

NEW QUESTION # 277
In which scenario is a Controller most likely required to undertake a Data Protection Impact Assessment?

- A. When personal data is being collected and combined with other personal data to profile the creditworthiness of individuals.
- B. When the controller is collecting email addresses from individuals via an online registration form for marketing purposes.
- C. When personal data is being transferred outside of the EEA.
- D. When the controller is required to have a Data Protection Officer.

Answer: A

Explanation:
According to the GDPR, a data protection impact assessment (DPIA) is a process to help identify and minimize the data protection risks of a project. A DPIA is required when the processing is likely to result in a high risk to the rights and freedoms of natural persons, taking into account the nature, scope, context and purposes of the processing. The GDPR provides a list of examples of processing operations that require a DPIA, such as:
* Systematic and extensive evaluation of personal aspects relating to natural persons which is based on automated processing, including profiling, and on which decisions are based that produce legal effects concerning the natural person or similarly significantly affect the natural person.
* Processing on a large scale of special categories of data or of personal data relating to criminal convictions and offences.
* Systematic monitoring of a publicly accessible area on a large scale.
Therefore, an example of a scenario where a controller is most likely required to undertake a DPIA is when personal data is being collected and combined with other personal data to profile the creditworthiness of individuals, as this involves a systematic and extensive evaluation of personal aspects based on automated processing and profiling, and may have significant effects on the individuals. The other scenarios are not necessarily indicative of a high risk to the rights and freedoms of natural persons, and do not fall under the examples of processing operations that require a DPIA provided by the GDPR. NEW QUESTION # 278
What permissions are required for a marketer to send an email marketing message to a consumer in the EU?

- A. No prior permission required, but an opt-out requirement on all emails sent to consumers.
- B. A notice that the consumer's email address will be used for marketing purposes.
- C. A prior opt-in consent for consumers unless they are already customers.
- D. A pre-checked box stating that the consumer agrees to receive email marketing.

Answer: C

Explanation:

NEW QUESTION # 279
Articles 13 and 14 of the GDPR provide details on the obligation of data controllers to inform data subjects when collecting personal dat a. However, both articles specify an exemption for situations in which the data subject already has the information.
Which other situation would also exempt the data controller from this obligation under Article 14?

- A. When the personal data was obtained 5 years before the entry into force of the GDPR
- B. When providing the information would go against a police order.

- C. When providing the information would involve a disproportionate effort
- D. When the personal data was obtained through multiple source in the public domain

Answer: C

NEW QUESTION # 280
