Salesforce-Communications-Cloud 완벽한 시험덤프 - Salesforce-Communications-Cloud 완벽한 덤프

Itexamdump의 Salesforce Salesforce-Communications-Cloud 덤프로 Salesforce Salesforce-Communications-Cloud 시험 공부 를 하여 시험에서 떨어지는 경우 덤프 비용 전액을 환불해드릴만큼 저희 덤프는 높은 적중율을 자랑하고 있습니다. 주 문번호와 불합격 성적표를 메일로 보내오시면 바로 환불 가능합니다. 환불해드린 후에는 무료 업데이트 서비스가 종 료됩니다. Salesforce Salesforce-Communications-Cloud 시험을 우려없이 패스하고 싶은 분은 저희 사이트를 찾아주세 요.

최신 Accredited Professional Salesforce-Communications-Cloud 무료 샘플문제 (Q32-Q37):

질문 # 32

Universal Containers (UC) is implementing communication cloud. One of the KPIs for their digital transformation is to reduce time to market for new product and products changes since it is currently takes three-month end to end to launch new product. Which two actions will help measure product time to market in communication cloud?

- A. Create a Salesforce Report on the Product object to track the product time to market
- B. Create a Product Time to market app from template in CRM analytics to track the product time to market
- C. Leverage the EPC functionality to track the product related configuration.
- D. Create Salesforce report on EPC project object to track the product time to market.

정답: C,D

설명:

To measure product time to market in Salesforce Communications Cloud, leveraging EPC (Enterprise Product Catalog) functionality to track product configurations (A) and creating Salesforce reports on the EPC project object (C) are effective methods. These actions provide insights into product development timelines and help identify areas for process improvement. References: Salesforce EPC documentation and CRM Analytics best practices.

질문 # 33

United Telecom has completed the high level design (HLD) phase and has information about the objects involved, data volumes, and file requirements, which three steps should a consultant take to assess the storage need on communication cloud.

- A. Access the archiving strategy and determine how storage will be cleared through archiving.
- B. Analyze the storage usage of the existing legacy system
- C. Analyze an external data storage system for more cost effective data storage
- D. Calculate the file and data storage required based on required data volume and file attachment requirements.
- E. Identify the storage needs between data storage and file storage.

정답: A,B,D

질문 # 34

ABC cloud is using communication cloud's order Management for the provision and activations of service. As part of the integration with ERP, the ERP order identifiers are required to be saved in the synchronous response in the SFI order record for the reference and troubleshooting purpose. A consultant has started their design using existing velocity process libraries. What solution should consultant propose to save ERP order identifiers back to Salesforce Order record.

- A. Configure integration procedure in conjunction with Auto Task to perform CREATE order in ERP and process response to save return from ERP order identifiers using Load Data Raptor.
- B. Configure response data raptor bundle to process create response from ERP and save returned ERP order identifier to SFI order record
- C. Configure GET ERP order callout task straight after the callout task that create an order in ERP. Enhance out of the box integration adaptor to process GET response from ERP and save returned ERP order identifier to SFI order record
- D. Enhance OOTB integration adaptor to process CREATE response from ERP and save returned ERP order identifier to SFI order record

정답: B

질문 # 35

UC rolling out new offer, which must be fulfilled using industries order management. Orchestration must integrate with the provisioning system, which accepts a different payload for activating the service. What is the recommendation approach for designing the orchestration while minimizing unnecessary configurations?

- A. Create two orchestration plans, one having the activation orchestration item and other with deactivation item. Configure the orchestration items based on the products

- B. Create one orchestration plan definition with two orchestration definition having mutually exclusive condition. Configure the scenario to include both Add and disconnect actions.
- C. Create two orchestration plan, one having the activation Orchestration item and other with the deactivation. Configure one scenario to map activation to Add action and deactivation to disconnect action
- D. Create two orchestration plan, one having the activation Orchestration item and other with the deactivation. Configure scenario to map activation to add action and deactivate

정답: B

설명:

Creating one orchestration plan with mutually exclusive conditions for activation and deactivation orchestration items (C) minimizes unnecessary configurations. This streamlined approach allows for efficient management of service activations and deactivations within a single orchestration framework. References:

Salesforce Industries Order Management documentation on orchestration plan design.

질문 # 36

Universal Connect (UC) offers dedicated internet service to business customer. UC requires that when the first dedicated internet service is added then it automatically adds the customer premises Equipment (CPE). UC also has requirement to be able to use the same Ethernet access device for their future offerings like VOIP and business TV. How should consultant model have dedicated internet services and Ethernet access devices offers

- A. Model the Ethernet access device and dedicated internet service offers as two standalone offer with a recommends relationship that recommends the Ethernet access device when internet service is added
- B. Model dedicated internet service as a child product of the Ethernet access device offer.
- C. Model Ethernet access device and dedicated Ethernet service offers as two standalone offers with an auto add relationship that adds the Ethernet access device when a dedicated internet service is added.
- D. Model the Ethernet access device as a child product of the dedicated internet service offer

정답: C
