

Valid HPE7-A11 New Braindumps Questions - How to Download for HP Study HPE7-A11 Test

Because the HPE7-A11 exam simulation software can simulate the real test scene, the candidates can practice and overcome nervousness at the moment of real HPE7-A11 test. Yes. We have this style of questions. Both of our soft test engine of HPE7-A11 exam questions have this function. You can feel free to choose them. You set timed practicing. Also if you want to write on paper, you can choose our PDF format of HPE7-A11 training prep which is printable. The online test engine is compatible for all operate systems and can work on while offline after downloading if you don't clear the cash.

As the captioned description said, our HPE7-A11 practice materials are filled with the newest points of knowledge about the exam. With many years of experience in this line, we not only compile real test content into our HPE7-A11 practice materials, but the newest in to them. Allowing for there is a steady and growing demand for our HPE7-A11 practice materials with high quality at moderate prices, we never stop the pace of doing better. All newly supplementary updates will be sent to your mailbox one year long. And we shall appreciate it if you choose any version of our HPE7-A11 practice materials for exam and related tests in the future.

Study HPE7-A11 Test & HPE7-A11 Latest Test Dumps

Every applicant goal is to find success in the HP HPE7-A11 exam for the very first time. Candidates make an effort to study for the HP HPE7-A11 test and are looking for a platform that ensures they will pass the HPE7-A11 Exam on the first attempt. Candidates have fear of money and time loss because of using invalid HP HPE7-A11 practice test material.

HPE Network Campus Access Professional Architect Exam Sample Questions (Q59-Q64):

NEW QUESTION # 59

A large multinational financial institution has contracted you to design a new full-stack wired and wireless network for their new 6-story regional office building. The bottom two floors of this facility will be retail space for a large banking branch. The upper floors will be carpeted office space for corporate users, each floor being approximately 100,000 sq ft (9290 sq m). Data centers are all offsite and will be out of scope for this project. The customer is underserved by its existing L2- based network infrastructure and would like to take advantage of modern best practices in the new design. The network should be fully resilient and fault-tolerant, with dynamic segmentation at the edge.

The retail space will include public guest Wi-Fi access. Retail associates will have corporate tablets for customer service, and there will be a mix of wired and wireless devices throughout the retail floors. The corporate users will primarily use wireless for connectivity, but several wired clients, printers, and hard VoIP phones will be in use.

The customer is also planning on renovating the corporate office space in order to take advantage of 'smart office' technology. These improvements will drive blue-dot wayfinding, presence analytics, and other location-based services.

The client decided that wired headless devices would be authenticated using Mac Authentication and would have RADIUS

attributes sent back to the NAD to assign VLAN and port access parameters to the authentication session on the switch port. What would be critical in making this a successful deployment? (Choose two.)

- A. Mobility Gateway
- **B. DHCP**
- C. Airwave
- **D. ClearPass**

Answer: B,D

Explanation:

For a successful deployment of MAC Authentication with RADIUS attributes for VLAN and port access parameters, ClearPass is critical. ClearPass Policy Manager offers advanced network access control, policy management, and is capable of handling MAC Authentication effectively. It can communicate with the Network Access Devices (NADs) to apply the correct access policies based on RADIUS attributes received during the authentication process. DHCP is also crucial in this setup for dynamically assigning IP addresses to authenticated devices, ensuring that they can connect to the network with the appropriate network settings. Together, ClearPass and DHCP services form the backbone of a secure, manageable, and dynamically segmented network infrastructure, ensuring devices are authenticated and receive the correct network configuration.

NEW QUESTION # 60

Drag and Drop Question

What documents should be included in the solution proposal? (Place the correct items into the list at the right. Order is not important. Not all options will be used)

POSSIBLE OPTIONS

- architect's notes from meetings
- as-built rack drawings
- assumptions documented in design
- bill of materials
- data sheets of equipment proposed
- proposed topology diagram
- quote

CORRECT OPTIONS

- bill of materials
- proposed topology diagram
- data sheets of equipment proposed
- quote

Answer:

Explanation:

POSSIBLE OPTIONS

- architect's notes from meetings
- as-built rack drawings
- assumptions documented in design
- bill of materials
- data sheets of equipment proposed
- proposed topology diagram
- quote

CORRECT OPTIONS

- bill of materials
- proposed topology diagram
- data sheets of equipment proposed
- quote

NEW QUESTION # 61

You hired a junior engineer to assist you with a large-scale network infrastructure project. The engineer has never worked on such a complex project before and wants to better understand the role that each stakeholder will play in the project. What is the role of Network Operations in this project?

- A. responsible for establishing security policy and selecting security controls for the infrastructure
- **B. responsible for supporting, troubleshooting, and monitoring the wired/wireless infrastructure**
- C. responsible for Investigating IDS/IPS Incidents and managing firewalls
- D. responsible for authoring the low-level design and creating the configuration to meet the technical requirements

Answer: B

Explanation:

Network Operations is responsible for the ongoing support, monitoring, and troubleshooting of the wired and wireless infrastructure, ensuring continuous stability and performance during and after deployment.

NEW QUESTION # 62

You are designing a secure onboarding solution for a customer's enterprise network. The plan includes using HPE Aruba Networking ClearPass Policy Manager (CPPM) Onboard to simplify device onboarding and enforce security policies. What critical design considerations and features recommendations should be addressed in your proposal to ensure a smooth and effective implementation? (Choose two.)

- A. Onboard does not support acting as a Registration Authority in order to proxy certificate signing requests to an external CA.
- **B. When hosting multiple PKI Certificate Authorities using ClearPass, the Onboard feature requires a Foundation plus Security subscription.**
- C. With OpsRamp EST integration with Onboard you can issue and manage RadSec certificates on third-party NADs using ClearPass exchange.
- **D. Onboard CAs EST server can issue and automatically renew certificates for HPE Aruba Networking Unified Infrastructure devices.**

Answer: B,D

Explanation:

Onboard includes an EST server capability that can issue and automatically renew certificates for Aruba infrastructure devices, which simplifies certificate lifecycle management and strengthens secure onboarding.

When multiple PKI Certificate Authorities are hosted, the Onboard functionality requires the appropriate licensing tier that includes both Foundation and Security subscriptions to support these advanced features.

NEW QUESTION # 63

A large multinational financial institution has contracted you to design a new full-stack wired and wireless network for their new 6-story regional office building. The bottom two floors of this facility will be retail space for a large banking branch. The upper floors will be carpeted office space for corporate users, each floor being approximately 100,000 sq ft (9290 sq m). Data centers are all offsite and will be out of scope for this project. The customer is underserved by its existing L2- based network infrastructure and would like to take advantage of modern best practices in the new design. The network should be fully resilient and fault-tolerant, with dynamic segmentation at the edge.

The retail space will include public guest Wi-Fi access. Retail associates will have corporate tablets for customer service, and there will be a mix of wired and wireless devices throughout the retail floors. The corporate users will primarily use wireless for connectivity, but several wired clients, printers, and hard VoIP phones will be in use.

The customer is also planning on renovating the corporate office space in order to take advantage of 'smart office' technology. These improvements will drive blue-dot wayfinding, presence analytics, and other location-based services.

The client is looking to utilize lower-cost OS-CX switches in their wiring closets. They calculate that each closet will need a stack of qty 6 PoE (AT) and qty 4 Gigabit Ethernet switches stacked with low-cost DACs.

Which series switch should you recommend?

- A. CX 6300F
- B. CX 6100
- **C. CX 6200M**
- D. CX 6000

Answer: C

Explanation:

Cost-Effectiveness: The CX 6200M series is designed for cost-sensitive deployments while still providing essential features for modern network requirements, making it suitable for the client's goal of maintaining budget constraints.

PoE Support: The CX 6200M series supports PoE (Power over Ethernet), including PoE AT, which is necessary for powering devices like IP phones, cameras, and wireless access points throughout the retail and office environments.

Sufficient Port Density: With the ability to stack multiple switches, the CX 6200M can efficiently accommodate the requirement for both PoE and Gigabit Ethernet connections, supporting the overall network design.

DAC Compatibility: The switches in the CX 6200M series are compatible with low-cost DACs for stacking, making it a practical choice for the client's stacking solution.

NEW QUESTION # 64

.....

When new changes or knowledge are updated, our experts add additive content into our HPE7-A11 latest material. They have always been in a trend of advancement. Admittedly, our HPE7-A11 real questions are your best choice. We also estimate the following trend of exam questions may appear in the next exam according to syllabus. So they are the newest and also the most trustworthy HPE7-A11 Exam Prep to obtain.

Study HPE7-A11 Test: <https://www.exams-boost.com/HPE7-A11-valid-materials.html>

In the past ten years, our company has never stopped improving the HPE7-A11 exam cram, If you prefer to study by your mobile phone, our HPE7-A11 study materials also can meet your demand, because our learning system can support all electronic equipment, But now with our HPE7-A11 materials, passing the exam has never been so fast or easy, Our HPE7-A11 exam prep is capable of making you test history and review performance, and then you can find your obstacles and overcome them.

Adding Control Tip Text, Europe, and the global recovery, In the past ten years, our company has never stopped improving the HPE7-A11 Exam Cram, If you prefer to study by your mobile phone, our HPE7-A11 study materials also can meet your demand, because our learning system can support all electronic equipment.

Latest Online HP HPE7-A11 Practice Tests

But now with our HPE7-A11 materials, passing the exam has never been so fast or easy, Our HPE7-A11 exam prep is capable of making you test history and review performance, and then you can find your obstacles and overcome them.

You will be respected by your colleagues, HPE7-A11 your boss, your relatives, your friends and the society.
