

# **CWAP-405 - Certified Wireless Analysis Professional– Efficient Latest Test Dumps**

BONUS!!! Download part of DumpsReview CWAP-405 dumps for free: [https://drive.google.com/open?id=1NXsdhsA7C88T5cn3-1pFS\\_9CR6rvTcwB](https://drive.google.com/open?id=1NXsdhsA7C88T5cn3-1pFS_9CR6rvTcwB)

First and foremost, we have high class operation system so we can assure you that you can start to prepare for the CWAP-405 exam with our CWAP-405 study materials only 5 to 10 minutes after payment. Second, once we have compiled a new version of the CWAP-405 test question, we will send the latest version of our CWAP-405 Training Materials to our customers for free during the whole year after purchasing. Last but not least, our worldwide after sale staffs will provide the most considerate after sale service on CWAP-405 training guide for you in twenty four hours a day, seven days a week.

CWNP certification CWAP-405 exam has become a very popular test in the IT industry, but in order to pass the exam you need to spend a lot of time and effort to master relevant IT professional knowledge. In such a time is so precious society, time is money. DumpsReview provide a training scheme for CWNP Certification CWAP-405 Exam, which only needs 20 hours to complete and can help you well consolidate the related IT professional knowledge to let you have a good preparation for your first time to participate in CWNP certification CWAP-405 exam

## **Simplified CWAP-405 Guide Dump is an Easy to Be Mastered Training Materials**

The CWNP CWAP-405 exam dumps features are a free demo download facility, real, updated, and error-free CWNP CWAP-405 test questions, 1 year free updated Certified Wireless Analysis Professional (CWAP-405) exam questions and availability of CWNP CWAP-405 real questions in three different formats. CWNP PDF Questions format, web-based practice test, and desktop-based CWAP-405 Practice Test formats. All these three CWNP CWAP-405 exam dumps formats features surely will help you in preparation and boost your confidence to pass the challenging Certified Wireless Analysis Professional (CWAP-405) exam with good scores.

## **CWNP Certified Wireless Analysis Professional Sample Questions (Q64-**

## Q69):

### NEW QUESTION # 64

You have implemented an AP at a remote office. It is a single-band AP supporting 802.11ac. Several users complain that their laptops cannot connect to the WLAN. These laptops are from multiple vendors and range in age from 2 to 4 years. The SSID and security profile settings are correct. All default settings were used on the AP with the exception of the SSID and security settings. What is the most likely issue preventing these STAs from connecting to the AP?

- A. They do not support the basic data rates
- B. They do not support VHT and only support OFDM
- C. They are 2.4 GHz-only devices
- D. They are 5 GHz-only devices

**Answer: D**

### NEW QUESTION # 65

During an initial install of a controller-based WLAN, the APs are not locating the WLAN controller. The controller is two router hops away from the nearest AP. DHCP is not used. When performing a packet trace, you see a DNS response code of 3 targeted at one of the APs.

What is the problem?

- A. The router is not forwarding packets to the DNS server
- B. The authentication to the DNS server failed
- C. The controller host record has not been created in the DNS server
- D. The DNS server is not authoritative for the domain

**Answer: C**

### NEW QUESTION # 66

To what data rates can a 5 GHz PHY device shift when changes occur in the signal strength?

- A. 24, 18, 11, 2
- B. 11, 5.5, 2, 1
- C. 24, 18, 12, 6
- D. 24, 18, 12, 5.5

**Answer: C**

### NEW QUESTION # 67

What should the To DS and From DS flags be set to in an Association Response frame?

- A. To DS = 0, From DS = 1
- B. To DS = 0, From DS = 0
- C. To DS = 1, From DS = 0
- D. To DS = 1, From DS = 1

**Answer: A**

Explanation:

The To DS and From DS flags should be set to 0 in an Association Response frame. An Association Response frame is a type of management frame that is transmitted by an AP to accept or reject an association request from a STA. The To DS (To Distribution System) and From DS (From Distribution System) flags are two bits in the Frame Control field of the MAC header that indicate whether a frame is destined for or originated from the DS (Distribution System), which is a system that connects multiple BSSs together. The To DS and From DS flags can have four possible combinations: 00, 01, 10, or 11. For an Association Response frame, which is sent from an AP to a STA within a BSS, both flags should be set to 0. ## NEW QUESTION # 68

Which one of the these is the most important in the WLAN troubleshooting methodology among those listed?

- A. Interview the network manager about the issues being experienced
- B. Obtain detailed knowledge of the wireless vendors debug and logging options
- C. Talk to the end users about their experiences
- D. **Observe the problem**

**Answer: D**

Explanation:

Observing the problem is the most important step in the WLAN troubleshooting methodology among those listed. This step involves capturing and analyzing the relevant data from the wireless network, such as packets, frames, spectrum, and performance metrics. Observing the problem helps to verify the existence and scope of the issue, identify the root cause and possible solutions, and validate the results of any actions taken. The other steps are also important, but they are not as critical as observing the problem
