## 2026 GH-100: Realistic Practice GitHub Administration Online 100% Pass Quiz

We are so popular for that we have a detailed and perfect customer service system. Firstly, only 5 to 10 minutes after the customer's online payment of GH-100 actual exam is successful, you can receive an email from the customer service and immediately start learning. We also have dedicated staff to check and update GH-100 Exam Questions every day, so you can get the latest information of GH-100 exam materials whenever you buy it. Secondly, we provide 24-hour round-the-clock service to customers. We can solve any problems about GH-100 study materials for you whenever and wherever you need it.

## Microsoft GitHub Administration Sample Questions (Q48-Q53):

### NEW QUESTION # 48

Which of the following is the responsibility of an Organization Owner in GitHub? (Choose three.)

- A. Create repositories without approval from other members.
- B. View and manage organization billing information.
- C. Manage organization settings, such as configuration and default permissions.
- D. Access repositories only if explicitly granted by a team maintainer.

**Answer: A,B,C**

Explanation:

Organization owners can view and edit billing information for the organization.

Organization owners may create new repositories in the organization without needing approval from other members.

Organization owners have full administrative control over organization settings, including configuring default repository permissions.

### NEW QUESTION # 49

What is the first step when sensitive data is accidentally pushed to a public GitHub repository?

- A. Open an issue to inform users
- B. Force push a commit removing the data
- C. Revoke any exposed credentials immediately
- D. Delete the repository

**Answer: C**

Explanation:

Revoke and/or rotate the exposed credentials immediately so they can no longer be used - this is the critical first step before you undertake any history-rewriting or cleanup.

### NEW QUESTION # 50

What is the potential consequence of enabling multiple rulesets that apply to the same branch in a repository?

- A. All applicable rulesets will be evaluated, and their combined rules enforced
- B. Rulesets will override each other, leading to unpredictable behavior
- C. Only the most recently created ruleset will be enforced
- D. Only organization-level rulesets are enforced over repository-level ones

**Answer: A**

Explanation:

If you enable multiple rulesets that target the same branch, GitHub will evaluate every matching ruleset and enforce the aggregate of their rules - so all constraints from all applicable rulesets apply.

### NEW QUESTION # 51

A financial services company is evaluating GitHub account types. Which of the following is a key distinction between GitHub Enterprise Managed Users and Personal Accounts?

- A. Personal Accounts are owned by users and can be used for both personal and professional work.
- B. Enterprise Managed Users require the organization to manage their own authentication server.
- C. Enterprise Managed Users can collaborate across both personal and enterprise repositories.
- D. Personal Accounts provide stricter control over repositories and user activity.

**Answer: A**

Explanation:

Personal Accounts are owned and controlled by individual users and can serve both their personal projects and professional work,

whereas Enterprise Managed Users exist solely within the enterprise context and cannot be used for personal repositories.

### NEW QUESTION # 52

What benefit does GitHub Advanced Security provide?

- **A. helps developers improve and maintain the security and quality of code**
- B. helps organization administrators analyze and configure permissions to the least privilege required
- C. helps enterprise administrators improve and maintain network security for their GitHub Enterprise Server instances
- D. helps organization administrators manage security tokens

**Answer: A**

Explanation:

GitHub Advanced Security equips developers with built-in code scanning (CodeQL), secret scanning, dependency review, and other AppSec tools - helping them find, fix, and prevent security vulnerabilities while maintaining code quality.

### NEW QUESTION # 53

.....

Quality first, service second! We put much attention and resources on our products quality of GH-100 real questions so that our pass rate of the GH-100 training braindump is reaching as higher as 99.37%. As for service we introduce that "Pass Guaranteed". We believe one customer feel satisfied; the second customer will come soon for our GH-100 Study Guide. If you want to have a look at our GH-100 practice questions before your paymnet, you can just free download the demo to have a check on the web.
