Wir hoffen, dass sich alle Ihrer in der IFSE Institute LLQP Prüfungssoftware gesetzten Erwartungen erfüllen können. Die Vollständigkeit und Autorität der Test-Bank, Vielfältigkeit der Versionen von Unterlagen---- Es gibt 3 Versionen, nämlich PDF, Online Test Engine und Practice Testing Engine, und auch die kostenlose Demo und einjährige Aktualisierung der IFSE Institute LLQP Software, alles enthält unsere herzlichste Anstrengungen!

IFSE Institute LLQP Prüfungsplan:

Thema	Einzelheiten
Thema 1	• Segregated Funds and Annuities: Targeted at investment advisors and financial planners, this section evaluates their understanding of saving and investment strategies, which are essential for retirement and financial planning.

Thema 2	• Life Insurance: This section assesses the expertise of insurance professionals, including financial advisors and life insurance agents, in understanding the financial impact of death. It explains how life insurance helps address those financial needs and introduces various life insurance products, along with their features and benefits.
Thema 3	• Ethics and Professional Practice: This part of the exam focuses on the legal and ethical responsibilities of life insurance professionals. It outlines the legal framework for life insurance in common law provinces and territories and stresses the importance of maintaining professionalism.
Thema 4	• Accident and Sickness Insurance: Aimed at insurance professionals offering individual and group health insurance, this section emphasizes the importance of financial protection in the case of serious illness or injury.

Wir bieten Ihnen die effektivsten Hilfe bei der Vorbereitung der IFSE Institute LLQP.

IFSE Institute Life License Qualification Program (LLQP) LLQP Prüfungsfragen mit Lösungen (Q108-Q113):

108. Frage
Six years ago, Gerard, aged 28, purchased a life insurance policy.
Gerard just got married to Tanya, and they both want to purchase more insurance. Reviewing Gerard's policy, Tanya notices that Gerard neglected to mention that he had migraines due to concussions suffered from playing football when he was a teenager.
Gerard did not intentionally neglect to mention the migraines as the migraines were never an ongoing issue once he stopped playing football.
Which statement is true?

- A. Since the policy was taken out six years ago, the insurance company would have to prove that Gerard made a fraudulent material misrepresentation, or pay the policy's death benefit.
- B. The insurance company can void the contract under the contestability clause, and nopremiums would be returned to Gerard.
- C. Gerard can admit the mistake to the insurance company to ensure they cannot void the policy due to incomplete information at time of application.
- D. Since the policy was taken out six years ago, the insurance company can void the policy under the mistake clause.

Antwort: A

Begründung:
Comprehensive and Detailed Explanation From Exact Extract:
After the 2-year contestability period, the insurer must provefraudulent misrepresentationto void the policy.
The LLQP confirms that beyond this period, policies are generally incontestable unless intentional fraud is demonstrated. Gerard's case does not involve fraud, and thus the policy stands.

109. Frage
Seven years ago, Amber invested $150,000 in a non-registered equity segregated fund. Her investment grew, and today, the market value of her fund is $165,000. She places an order to redeem her fund and she wants to know how her investment will be taxed.

- A. The $15,000 of capital gains will receive preferential tax treatment.
- B. The entire $165,000 will be taxed as income.

- C. The investment will not be taxed.
- D. The $15,000 of capital gains will be 100% taxable.

Antwort: A

Begründung:
In a non-registered equity segregated fund, capital gains are only 50% taxable under Canadian tax rules.
Amber's investment grew by $15,000, which represents a capital gain. As per LLQP guidelines, capital gains on non-registered investments are subject to preferential tax treatment, meaning only half of the gain is added to taxable income. Therefore, only $7,500 of the gain will be taxable. This treatment is consistent with capital gains taxation principles outlined in the LLQP material, where only the taxable portion of the capital gain is reported, resulting in reduced tax liability compared to regular income.

110. Frage
(Vanessa, a grandmother, wants to set up a savings account for her six-month-old granddaughter Brienne's future education, making a lump sum and regular contributions.
Which account is best suited?)

- A. A TFSA in Tanya's name
- B. An RRSP in Brienne's name
- C. An RESP with Brienne as beneficiary
- D. A TFSA in Vanessa's name

Antwort: C

Begründung:
ARegistered Education Savings Plan (RESP)is specifically designed to fundeducation savingsand allows contributions for a named beneficiary (Brienne), making it the perfect choice.
Exact Extract:
"An RESP is an education savings plan sponsored by the government, providing grants and tax-deferral advantages for beneficiaries saving for post-secondary education." (Reference:Segfunds-E313-2020-12-7ED, Chapter 1.3.11.3 Group Plans and Registered Education Savings Plans)

111. Frage
Nathalie worked for 25 years as an administrative assistant at a manufacturing company. When she left the company 10 years ago, she transferred the money that she accumulated from the company's pension plan into a locked-in retirement account (LIRA). Now she is 60 years of age and would like to withdraw the money from the LIRA.
Under which of the following circumstances would Nathalie be allowed to withdraw her funds?

- A. She is disabled and her life expectancy is reduced.
- B. She is retiring.
- C. She will start collecting QPP benefits.
- D. She moved to Arizona last year.

Antwort: A

Begründung:
Locked-In Retirement Accounts (LIRAs) are subject to specific restrictions regarding when and how funds can be accessed. Under LLQP regulations, individuals can generally only withdraw funds from a LIRA before retirement under certain circumstances. These include:
* Disability and a reduced life expectancy, as defined by the plan's requirements, which allow for early withdrawal due to significant financial or health hardships.
In contrast:
* Moving to another country, such as Arizona, does not qualify as a reason for early withdrawal under Canadian pension regulations.
* Retirement alone, without converting the LIRA into a Life Income Fund (LIF) or similar product, does not directly permit withdrawals from the LIRA.
* Collecting QPP benefits does not impact the withdrawal conditions of a LIRA directly unless combined with an allowable reason such as disability with reduced life expectancy.
Thus, option B correctly reflects the LLQP criteria under which Nathalie may access her LIRA funds early due to disability and a shortened life expectancy.

112. Frage
Melanie is a psychologist. She has her own practice and two employees. In her free time, she loves to dance but also enjoys skydiving, which she does three or four times a year. She meets with Sophie, an insurance agent, because she would like to purchase disability insurance. What should Sophie tell her?

- A. That she can be insured but that her contract will probably contain a modification (such as rating the premium or imposing an exclusion) because skydiving makes her a non-standard insurable risk.
- B. That she will receive a reduced benefit if she becomes disabled as a result of skydiving.
- C. That she can be insured without any other formality or modification because she doesn't skydive often enough to affect her level of risk.
- D. That she cannot be insured because skydiving makes her an uninsurable risk.

Antwort: A

Begründung:
Comprehensive and Detailed Explanation:
Skydiving is a high-risk activity, making Melanie a non-standard risk. Insurers typically apply a premium rating or exclusion for such activities, not denial (Chapter 7:Insurance Recommendation, Contract, and Service Needs).
Option A: Incorrect; not uninsurable, just modified.
Option B: Incorrect; benefit isn't reduced, coverage is adjusted.
Option C: Correct; modification likely.
Option D: Incorrect; frequency still warrants adjustment.
Reference: LLQP Accident and Sickness Insurance Manual, Chapter 7:Insurance Recommendation, Contract, and Service Needs.
