NEW QUESTION # 37

Refer to the exhibit.

An administrator is tasked to manually upload the cost drivers of all the hosts, to obtain cost calculations accurate for their datacenter. However, when the administrator tries to update the cost drivers, the message displayed on the exhibit is shown. What is the cause of this message?

- A. Cost drivers must be established on a per Datacenter basis.
- B. All hosts are in vSAN enabled clusters.
- C. Cost calculation process is running at this moment.
- D. Reference database is being used.

Answer: A

Explanation:

The message in the exhibit indicates that no "Traditional Servers" are available for the selected datacenter, which means the cost drivers have not been configured for that specific datacenter. In vRealize Suite, cost drivers must be set up on a per-datacenter basis, and the administrator needs to select the appropriate datacenter to configure and upload the cost drivers accordingly.
