Make sure you choose the top-notch AACE International AACE-PSP Study Materials to get ready for this exam. For your smooth AACE-PSP test preparation, Actual4Exams provides updated AACE-PSP practice material with a success guarantee.

AACE International Planning & Scheduling Professional (PSP) Exam Sample Questions (Q176-Q181):

NEW QUESTION # 176

All the following describe the critical path of a schedule EXCEPT:

- A. Changed by redefining the network logic or changing activity durations or both.
- B. The series of activities having the least amount of total float.
- C. Frequently defined as the shortest path through the schedule.
- D. Determined by network logic and is the chain of activities that controls the overall project completion time.

Answer: C

Explanation:

* Critical Path Characteristics:

The critical path is the longest path through the network, defining the minimum project completion time. It cannot be the shortest path.

* PSP Study Guide Reference:

Critical path analysis emphasizes that it is determined by network logic and represents the chain of activities controlling the project

duration.

* Analysis for Selection:

Option A, C, and D: Accurately describe the critical path.

Option B: Incorrect; the critical path is not the shortest path.

* Conclusion: The correct answer is B, as the critical path is the longest path, not the shortest.

NEW QUESTION # 177

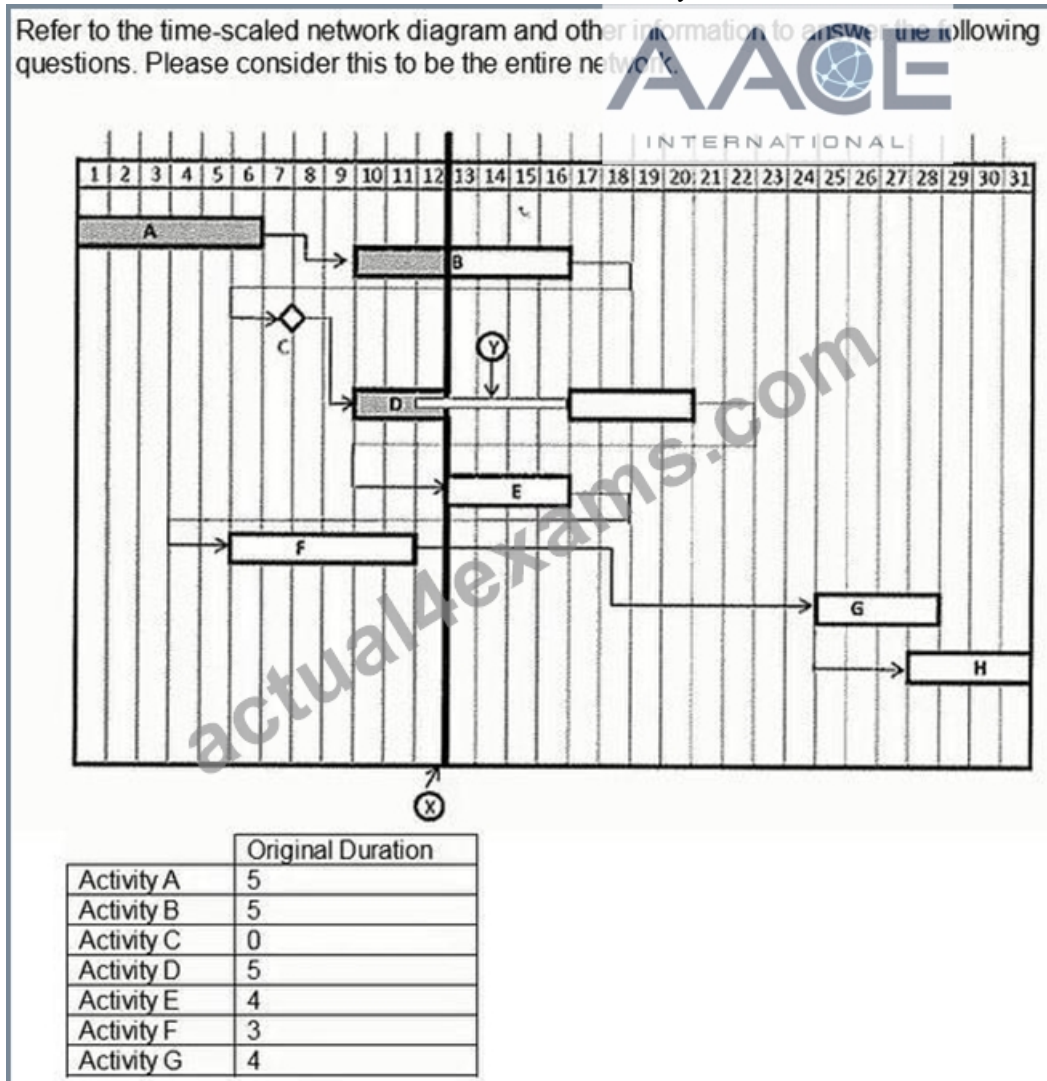

A good change management plan _____.

- A. tracks minor decisions
- B. involves only the project controls team
- C. is detailed during the planning phase
- D. is provided to stakeholders after it is created

Answer: C

NEW QUESTION # 178

What is the actual duration as of the status date or data date of Activity B?

- A. 7.
- B. 4.
- C. 3.
- D. 0.

Answer: C

NEW QUESTION # 179

What changes to logic would eliminate Activity B from the critical path?

- A. Reduce the lag value of the relationship from Activity A to Activity B from 5 to 0
- **B. Replace the relationship from Activity A to Activity B with FFO and add an FSO relationship from Activity A to Activity C**
- C. Add a SS 15 relationship from Activity A to Activity B and replace the relationship from Activity A to Activity B with FFO
- D. Replace the relationship from Activity B to Activity C with SSO

Answer: B

Explanation:

* To eliminate Activity B from the critical path, its dependencies must change so that its delay no longer impacts the path's completion time.

* Replacing the A → B relationship with a Finish-to-Finish with Offset (FFO) and adding an FSO (Finish-to-Start with Offset) relationship from A → C allows Activity C to proceed independently of Activity B.

* Reference: PSP Study Guide, Section 2.2.4 - Relationships and Calculations, explains how relationship types can influence critical path determination.

NEW QUESTION # 180

A KPI is an acronym for:

- A. Key Planning Index
- B. Known Planning Impediments
- **C. Key Performance Indicator**
- D. Keep Parameter Integrity

Answer: C

NEW QUESTION # 181

.....
