New GH-100 Cram Materials & GH-100 Valid Exam Book

BONUS!!! Download part of PracticeMaterial GH-100 dumps for free: https://drive.google.com/open?id=12Y89BVqy_6WsIZmjaLcBK2WcIB5QVJ1t

The APP online version of our GH-100 real exam boosts no limits for the equipment being used and it supports any electronic equipment and the off-line use. If only you open it in the environment with the network for the first time you can use our GH-100 Training Materials in the off-line condition later. It depends on the client to choose the version they favor to learn our GH-100 study materials.

Microsoft GH-100 Exam Syllabus Topics:

Topic	Details
Topic 1	• Manage access and permissions based on membership: This section of the exam measures skills of DevOps Engineers and reviews how to manage organizations, teams, and repository permissions. It includes default permission settings, team synchronization through AD, scripting across multiple organizations, and aligning enterprise policies with trust requirements. It also contrasts roles such as organization members, owners, collaborators, and billing managers.
Topic 2	• Manage GitHub Actions: This section of the exam measures skills of DevOps Engineers and emphasizes managing workflows, reusable actions, and distribution strategies within the enterprise. It explains configuring organization-level policies, managing self-hosted and GitHub-hosted runners, controlling access through IP allow lists, handling encrypted secrets, and integrating third-party vaults for workflow security.
Topic 3	• Manage user identities and GitHub authentication: This section of the exam measures skills of DevOps Engineers and focuses on managing authentication and identity across organizations using SAML SSO, SCIM, and team synchronization. Candidates need to understand identity providers, user membership implications, authorization models, and enforcing security measures such as two-factor authentication.

Microsoft GH-100 Valid Exam Book & GH-100 Reliable Test Dumps

We provide first-rate service on the GH-100 learning prep to the clients and they include the service before and after the sale, 24-

hours online customer service and long-distance assistance, the refund service and the update service. The client can try out our and download GH-100 guide materials freely before the sale and if the client have problems about our product after the sale they can contact our customer service at any time. We provide 24-hours online customer service which replies the client's questions and doubts about our GH-100 training quiz and solve their problems.

Microsoft GitHub Administration Sample Questions (Q31-Q36):

NEW QUESTION # 31
Which of the following actions can a user with Write permissions perform in a GitHub repository?

- A. Delete the repository.
- B. Manage repository settings, such as labels and GitHub Pages.
- C. Configure branch protection rules.
- D. Push code to non-protected branches.

Answer: D

Explanation:
Users granted Write permission can push commits to non-protected branches, allowing them to update code without needing administrative rights.

NEW QUESTION # 32
When comparing a partner identity provider integration with a non-partner identity management solution for GitHub Enterprise Managed Users, which statement is Correct?

- A. The non-partner identity provider integrations require manual configuration of SAML 2.0 details.
- B. The non-partner identity provider integrations can utilize OIDC for authentication.
- C. The partner identity provider integrations support fewer GitHub-supported authentication methods.
- D. The partner identity provider integrations rely on the partner to support the application on the partner IdP.

Answer: A

Explanation:
Non-partner identity provider integrations require you to enter SAML2.0 configuration details by hand - such as the Sign-on URL, Issuer, and X.509 certificate - whereas partner IdPs supply a pre-configured application integration.

NEW QUESTION # 33
What needs to be done to ensure that only specific repositories can access the runners in an organization runner group?

- A. Configure the Actions Policies to "Only selected repositories".
- B. Add a label to the runner group.
- C. Use GitHub's meta API to configure access.
- D. Configure repository access in the runner group settings.

Answer: D

Explanation:
In the organization's runner group settings, switch the access from "All repositories" to "Selected repositories" and then explicitly choose which repos may use those runners.

NEW QUESTION # 34
Which product's usage is not included in GitHub Enterprise Cloud's monthly metered billing report?

- A. GitHub Actions minutes
- B. GitHub Discussions engagement
- C. GitHub Packages storage
- D. Git LFS bandwidth

Answer: B

Explanation:
GitHubDiscussions engagement isn't a metered product and doesn't appear in the "Product billing" list, so its usage isn't included in the monthly metered billing report.

NEW QUESTION # 35
Which of the following is true about outside collaborators in a GitHub organization?

- A. They appear in the organization's internal member list.
- B. They are granted explicit access to specific repositories.
- C. They have access to all private repositories by default.
- D. They inherit organization-wide policies, such as SSO requirements.

Answer: B

Explanation:
Outside collaborators aren't organization members; instead, they're granted explicit access - at read, write, or admin level - to only the repositories you choose.

NEW QUESTION # 36
.....

Our GH-100 exam materials can help you get the certificate easily. With our GH-100 study questions for 20 to 30 hours, we can claim that you can pass the exam by your first attempt. And our pass rate of the GH-100 learning quiz is high as 98% to 100%. You must muster up the courage to challenge yourself. It is useless if you do not prepare well. You must seize the good chances when it comes. Please remember you are the best. What you need is just our GH-100 training braindumps!
