

# Top Features of PrepAwayExam Updated UiPath-ADPv1 Exam Practice Questions

BONUS!!! Download part of PrepAwayExam UiPath-ADPv1 dumps for free: <https://drive.google.com/open?id=192Ie41EmSiiCHQDmBm2pMuSeFOtjmDm>

Related study materials proved that to pass the UiPath UiPath-ADPv1 exam certification is very difficult. But do not be afraid, PrepAwayExam have many IT experts who have plentiful experience. After years of hard work they have created the most advanced UiPath UiPath-ADPv1 Exam Training materials. PrepAwayExam have the best resource provided for you to pass the exam. Does not require much effort, you can get a high score. Choose the PrepAwayExam's UiPath UiPath-ADPv1 exam training materials for your exam is very helpful.

First of all we have fast delivery after your payment in 5-10 minutes, and we will transfer UiPath-ADPv1 guide torrent to you online, which mean that you are able to study as soon as possible to avoid a waste of time. Besides if you have any trouble coping with some technical and operational problems while using our UiPath-ADPv1 exam torrent, please contact us immediately and our 24 hours online services will spare no effort to help you solve the problem in no time. As a result what we can do is to create the most comfortable and reliable customer services of our UiPath-ADPv1 Guide Torrent to make sure you can be well-prepared for the coming exams.

## Test UiPath-ADPv1 Prep, Latest UiPath-ADPv1 Test Cram

As you know, the UiPath-ADPv1 certificate is hard to get for most people. But our UiPath-ADPv1 study guide will offer you the most professional guidance. As old saying goes, opportunities are always for those who prepare themselves well. In the end, you will easily pass the UiPath-ADPv1 Exam through our assistance. Then you will find that your work ability is elevated greatly by studying our UiPath-ADPv1 actual exam. In the end, you will become an excellent talent.

## UiPath UiPath-ADPv1 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>• Debugging and Testing: This section is about utilizing logging and debugging tools and adopting unit testing and test automation strategies.</li></ul>
Topic 2	<ul style="list-style-type: none"><li>• UiPath Studio Fundamentals: In this section, the focus is given to the understanding of Robotic Process Automation (RPA) concepts; it covers UiPath Studio and its components, Working with the UiPath user interface, project creation, management, and version control.</li></ul>
Topic 3	<ul style="list-style-type: none"><li>• UiPath Activities: In this section, the discussion is related to various UiPath activities for UI interaction, data manipulation, control flow, and more.</li></ul>
Topic 4	<ul style="list-style-type: none"><li>• Design and Development: This section covers designing workflows using sequences, flowcharts, and state machines, building reusable components with libraries, exception handling and debugging techniques, etc.</li></ul>

## UiPath (ADPv1) Automation Developer Professional Sample Questions (Q117-Q122):

### NEW QUESTION # 117

What does the Profile Execution tool in UiPath Studio do?

- A. It provides a performance analysis of all the operations, showing you a cumulative percentage of the execution time of each activity when you run or debug a workflow.
- B. It provides a performance analysis of all the operations, showing you a cumulative percentage of the execution time of each activity even when the workflow is idle.
- C. It provides a performance analysis of all the operations, showing you a complete list of exceptions and errors during the execution or debugging of a workflow.
- D. It provides a performance analysis of all the operations, displaying a breakdown of each variable used during the execution of a workflow.

**Answer: A**

Explanation:

The Profile Execution feature in UiPath Studio allows developers to analyze the performance of workflows. It shows the execution time of each activity as a cumulative percentage. This feature can be used during run or debug mode to optimize performance and detect bottlenecks.

Reference: UiPath Studio Guide > Debugging > Profile Execution

### NEW QUESTION # 118

A developer plans to create a process to automate a web application using the Firefox browser. The goal is to have the robot work with the web application without relying on visual elements on screen.

To achieve this goal, what option should the developer use for the Use Application/Browser activity?

- A. Input mode = Simulate
- B. User Data Folder Mode = Custom Folder
- C. Input mode = Chromium API
- D. WebDriver mode = Headless

**Answer: A**

Explanation:

To work with a web application in Firefox without relying on visual elements, the developer should use the 'Input mode = Chromium API'. This option enables the robot to interact with the web elements directly, without the need for visual screen elements.

### NEW QUESTION # 119

Following UiPath best practices, which project structure is best-suited for complex processes in UiPath Studio?

- A. Flowchart
- B. Global Exception Handler
- C. Sequence
- D. State Machine

**Answer: D**

Explanation:

The project structure that is best-suited for complex processes in UiPath Studio, following UiPath best practices, is State Machine. A State Machine is a type of workflow that consists of a set of states, transitions, and triggers. A state represents a stage of the process, a transition represents a change from one state to another, and a trigger represents a condition or an event that activates a transition. A State Machine is suitable for complex processes because it can handle multiple paths and branches, depending on the logic and the triggers of the workflow. A State Machine can also handle loops and retries, as well as parallel execution of states. A State Machine can be created by using the State Machine activity in UiPath Studio, or by using the REFramework template, which is

based on a State Machine structure. References: [State Machines], [REFramework]

### NEW QUESTION # 120

Which of the following examples accurately demonstrates the correct usage of AI Computer Vision features in a UiPath project?

- A. Applying AI Computer Vision to perform sentiment analysis on a provided text string and displaying the result.
- **B. Employing AI Computer Vision to identify and interact with UI elements in a remote desktop application with low quality or scaling issues.**
- C. Using AI Computer Vision to extract plain text from a scanned PDF document and store the output in a string variable.
- D. Utilizing AI Computer Vision to train a custom machine learning model to recognize specific patterns in data.

**Answer: B**

Explanation:

AI Computer Vision is a feature of UiPath that enables the automation of remote applications or desktops, such as Citrix Virtual Apps, Windows Remote Desktop, or VMware Horizon, by using native selectors. Native selectors are expressions that identify UI elements reliably and accurately, without relying on OCR or image recognition activities<sup>1</sup>. AI Computer Vision uses a mix of AI, OCR, text fuzzy-matching, and an anchoring system to visually locate elements on the screen and interact with them via UiPath Robots, simulating human interaction<sup>2</sup>. AI Computer Vision is especially useful for scenarios where the UI elements have low quality or scaling issues, which make them difficult to recognize with traditional methods<sup>3</sup>.

Option A is an accurate example of using AI Computer Vision features in a UiPath project, because it involves identifying and interacting with UI elements in a remote desktop application, which is one of the main use cases of AI Computer Vision. By using the Computer Vision activities, such as CV Screen Scope, CV Click, CV Get Text, etc., you can automate tasks in a remote desktop application without using selectors, OCR, or image recognition activities<sup>4</sup>.

The other options are not accurate examples of using AI Computer Vision features in a UiPath project, because they involve tasks that are not related to the automation of remote applications or desktops, or that do not use the Computer Vision activities. For example:

Option B involves training a custom machine learning model, which is not a feature of AI Computer Vision, but of the UiPath AI Fabric, a platform that enables you to deploy, consume, and improve machine learning models in UiPath.

Option C involves extracting plain text from a scanned PDF document, which is not a feature of AI Computer Vision, but of the UiPath Document Understanding, a framework that enables you to classify, extract, and validate data from various types of documents.

Option D involves performing sentiment analysis on a text string, which is not a feature of AI Computer Vision, but of the UiPath Text Analysis, a set of activities that enable you to analyze the sentiment, key phrases, and language of a text using pre-trained machine learning models.

### NEW QUESTION # 121

Data from an Excel file is read into a data table named "dtEmployee", as displayed in the following graphic:

	A	B	C	D
1	Name	Date Of Joining	Department	Salary
2	Andrew	12/11/2016	IT	30000
3	Billy	11/11/2015	IT	20000
4	Clara	6/6/2013	Marketing	15000
5	Dennis	8/12/2017	ITES	35000
6	Esther	2/11/2017	Finance	42000
7	Fatima	6/6/2013	ITES	30000
8	Gilly	8/6/2013	Finance	15000
9	Hannah	2/11/2017	Finance	28000
10				
11				
12				

A developer needs to filter the data table to obtain all rows representing employees from the Finance and IT departments with a Salary under 30,000. Which expression yields the desired outcomes?

- A. dtEmployee.Select("[Department]='IT' OR [Department]='Finance' AND [Salary] < 30000")
- B. dtEmployee.Select("([Department]='IT' AND [Department]='Finance') AND [Salary] < 30000")
- C. dtEmployee.Select("([Department]='IT' OR [Department]='Finance') AND [Salary] < 30000")
- D. dtEmployee.Select("[Department]='IT' OR [Department]='Finance' OR [Salary] < 30000")

**Answer: C**

## NEW QUESTION # 122

.....

UiPath-ADPv1 exam study material have a 99% pass rate. What does this mean? As long as you purchase UiPath-ADPv1 exam simulating and you are able to persist in your studies, you can basically pass the exam. This passing rate is not what we say out of thin air. This is the value we obtained from analyzing all the users' exam results. It can be said that choosing UiPath-ADPv1 study engine is your first step to pass the exam. If your job is very busy and there is not much time to specialize, and you are very eager to get a certificate to prove yourself, it is very important to choose our UiPath-ADPv1 Exam simulating. I know that the 99% pass rate of UiPath-ADPv1 exam must have attracted you. Do not hesitate anymore. You will never regret buying UiPath-ADPv1 study engine!
