We offer free update for one year, it will help you to change

your practicing ways in accordance with the dynamics of the exam.

SAP Certified Associate - SAP Business Data Cloud Sample Questions (Q57-Q62):

NEW QUESTION # 57

In SAP Analytics Cloud, into which elements can you import data?

There are 3 correct answers to this question.

Response:

- A. Stories
- B. Datasets
- C. Models
- D. Dimensions

Answer: B,C,D

NEW QUESTION # 58

For which purposes is a database user required in SAP Datasphere? Note: There are 2 correct answers to this question.

- A. To directly access the SAP HANA Cloud database of SAP Datasphere
- B. To provide a secure method for data exchange for 3rd party tools
- C. To access all schemas in SAP Datasphere
- D. To create a graphical view in SAP Datasphere

Answer: A,B

Explanation:

A database user in SAP Datasphere serves specific technical and security-related purposes that are distinct from typical modeling activities within the Data Builder. One primary purpose is to directly access the SAP HANA Cloud database of SAP Datasphere. For advanced scenarios, such as debugging, executing complex SQL scripts directly, or integrating with specialized tools that require direct database connectivity, a dedicated database user is essential. This access bypasses the higher-level Datasphere modeling environment and interacts directly with the underlying SAP HANA Cloud instance. Another crucial purpose is to provide a secure method for data exchange for 3rd party tools. When external applications, reporting tools, or data integration platforms need to consume data from or write data into SAP Datasphere's underlying database, a database user provides the necessary authentication and authorization mechanism. This ensures that data exchange is secure and controlled, adhering to defined permissions. Creating graphical views (B) is done via the Datasphere UI with a Datasphere user, and accessing all schemas (C) would typically require broad administrative privileges, which might be granted to specific database users, but the core purpose is controlled access, not carte blanche.

NEW QUESTION # 59

A multinational corporation wants to integrate data from various sources, ensure data quality, and provide access to data analysts across departments. They also need to comply with data protection regulations.

Which SAP Business Data Cloud features should they utilize?

There are 3 correct answers to this question.

Response:

- A. Role-based access control
- B. Data Catalog
- C. Data Builder
- D. Social media integration
- E. Data Marketplace

Answer: A,B,C

NEW QUESTION # 60

You want to use the embedded help function in SAP Analytics Cloud to support you. What is offered by the embedded help?

There are 2 correct answers to this question.

Response:

- A. Videos
- B. Live chat with experts
- C. Chatbot
- D. Guided help tutorials

Answer: A,D

NEW QUESTION # 61

You have created a story using a planning model and notice that a Value Driver Tree can be defined. Why do you use a Value Driver Tree?

There are 2 correct answers to this question.

Response:

- A. To leverage driver-based planning
- B. To view a planning simulation graphically
- C. To track planning tasks
- D. To lock planning data

Answer: A,B
