Let me introduce our CY0-001 study guide to you in some aspects. First of all, there are three versions of CY0-001 guide quiz. You can choose the most suitable version based on your own schedule. PC version, PDF version and APP version, these three versions of CY0-001 Exam Materials have their own characteristics you can definitely find the right one for you. Secondly, you can find that our price of the CY0-001 learning braindumps is quite favorable. And some times, we will give discounts for them.

Itcerttest CompTIA CY0-001 certification training dumps have an advantage over any other exam dumps. Because this is the exam dumps that can help you pass CY0-001 certification test at the first attempt. High passing rate of Itcerttest questions and answers is certified by many more candidates. Itcerttest CompTIA CY0-001 Practice Test materials are the shortcut to your success. With the exam dumps, you can not only save a lot of time in the process of preparing for CY0-001 exam, also can get high marks in the exam.

## Training CompTIA CY0-001 Materials - Latest CY0-001 Exam Cost

With the development of computer hi-tech, the computer application is widely used in recent years. The demand of the higher position about computer is increasing. CY0-001 exam vce files help people who are interested in CompTIA company. If you have a useful certification, you will have outstanding advantage over other applicants while interviewing. Our CY0-001 Exam Vce files help

you go through examination and get certifications.

## CompTIA SecAI+ Certification Exam Sample Questions (Q78-Q83):

### NEW QUESTION # 78

A financial organization implements a new AI-based fraud detection system to flag suspicious transactions. A security analyst discovers that it occasionally blocks legitimate transactions.

Which of the following is the best recommendation?

- A. Implementing AI token usage and rate limits
- **B. Retaining the model with more data and recent transaction patterns**
- C. Rolling back the model and using a traditional fraud detection system
- D. Encrypting all the data processed by AI and applying further access controls

**Answer: B**

Explanation:

False positives occur when the AI model lacks sufficient or representative training data.

Retraining the model with more diverse and recent transaction patterns improves accuracy, reducing the chance of legitimate transactions being incorrectly flagged.

### NEW QUESTION # 79

Customer feedback for an AI chatbot has a high-rate of non-answers, which is causing higher central processing unit (CPU) utilization. Which of the following should be implemented?

- A. Prompt logging
- **B. Response confidence level**
- C. Guardrails
- D. Cost monitoring

**Answer: B**

Explanation:

Implementing a response confidence level ensures the chatbot only provides answers when the model is sufficiently confident. This reduces irrelevant or empty responses, improving user experience and lowering unnecessary CPU utilization.

### NEW QUESTION # 80

Which of the following should an auditor reference when reviewing a company's human resources AI systems for legal non-compliance?

- A. International Organization for Standardization (ISO)
- B. Organization for Economic Cooperation and Development (OECD) standard
- C. National Institute of Standards and Technology (NIST) AI Risk Management Framework 9RMF)
- **D. European Union (EU) AI Act**

**Answer: D**

Explanation:

The EU AI Act is legally binding legislation that specifically governs the use of AI systems, including those used in human resources for hiring, promotion, and evaluation. An auditor reviewing AI systems for legal non-compliance must reference this act because it establishes enforceable requirements related to transparency, bias, risk classification, and prohibited practices.

### NEW QUESTION # 81

A security engineer needs to monitor an AI-based system for runtime operations. The engineer is mostly concerned about the visibility of internal activity. Which of the following is the most appropriate monitoring solution?

- A. Relying on vendor model controls and monitoring prompt inputs
- **B. Enabling stack call and debugging level traces at the function level**

- C. Deploying a security information and event management (SIEM) tool
- D. Implementing a web application firewall (WAF) with header logging

**Answer: B**

Explanation:

For runtime visibility into internal activity of an AI system, the most suitable control is enabling stack calls and debugging-level traces. This provides granular insights into function-level execution, dependencies, and operations, which directly supports monitoring of runtime behavior.

### NEW QUESTION # 82

A security operations center (SOC) has a very high volume of logs and alerts. The manager proposes the implementation of machine learning (ML) system to help with triage. Which of the following tasks is most suitable?

- **A. Identifying and classifying alerts**
- B. Applying filters on specific alerts
- C. Automatically patching vulnerable systems
- D. Summarizing the content of alerts

**Answer: A**

Explanation:

Machine learning is best suited for analyzing large volumes of security data and distinguishing between true threats and false positives. By identifying and classifying alerts, the ML system helps the SOC prioritize incidents and reduce analyst workload.

### NEW QUESTION # 83

.....

You may previously think preparing for the CY0-001 practice exam will be full of agony; actually, you can abandon the time-consuming thought from now on. Our CY0-001 exam question can be obtained within 5 minutes after your purchase and full of high quality points for your references, and also remedy your previous faults and wrong thinking of knowledge needed in this exam. As a result, many customers get manifest improvement and lighten their load by using our CY0-001 Latest Dumps. You won't regret your decision of choosing us. In contrast, they will inspire your potential. Besides, when conceive and design our CY0-001 exam questions at the first beginning, we target the aim customers like you, a group of exam candidates preparing for the exam.
