

# Valid OGEA-101 Test Labs & OGEA-101 Reliable Real Exam

BONUS!!! Download part of BraindumpsIT OGEA-101 dumps for free: <https://drive.google.com/open?id=1zjdaVEXdl65xFIv3SRSU67fMbDPFdepj>

In order to serve you better, we have a complete system to you if you buy OGEA-101 study materials from us. We offer you free demo for you to have a try before buying. If you are satisfied with the exam, you can just add them to cart, and pay for it. You will obtain the downloading link and password for OGEA-101 Study Materials within ten minutes, if you don't, just contact us, we will solve the problem for you. After you buy, if you have some questions about the OGEA-101 exam braindumps after buying you can contact our service stuff, they have the professional knowledge and will give you reply.

## The Open Group OGEA-101 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>• ADM Phase Requirements: This topic of the TOGAF Enterprise Architecture Part 1 exam focuses on the specific requirements for each ADM phase, including stakeholder identification and architecture scope definition. It measures the ability of aspiring TOGAF Practitioner to apply these requirements in real-world scenarios.</li></ul>
Topic 2	<ul style="list-style-type: none"><li>• Architecture Change Management: Focusing on managing architecture changes, this topic of the TOGAF Enterprise Architecture Part 1 exam assesses skills of practitioners in handling change requests and maintaining architecture repositories.</li></ul>
Topic 3	<ul style="list-style-type: none"><li>• Introduction to the Architecture Development Method (ADM): The ADM is central to TOGAF, outlining a structured approach to developing and managing enterprise architecture. This section assesses comprehension of TOGAF practitioners about the ADM phases and their application, ensuring they grasp the method's iterative nature, which is vital for the OGEA-101 exam.</li></ul>
Topic 4	<ul style="list-style-type: none"><li>• Information Systems Architecture: Focusing on data and application architectures, this topic of the OGEA-101 exam assesses ability of TOGAF practitioners to define and manage information systems. It measures their skills in identifying data entities and application components.</li></ul>
Topic 5	<ul style="list-style-type: none"><li>• Architecture Content Framework: Candidates learn about the TOGAF content metamodel and architecture artifacts. This topic of the OGEA-101 Exam measures their understanding of content organization and documentation.</li></ul>

Topic 6	<ul style="list-style-type: none"> <li>• <b>Business Architecture:</b> This topic of The Open Group OGEA-101 exam emphasizes the development of business architecture, including baseline and target architectures. It measures the understanding of TOGAF practitioners about business capabilities and processes.</li> </ul>
Topic 7	<ul style="list-style-type: none"> <li>• <b>Implementation Governance:</b> This topic of The Open Group OGEA-101 exam emphasizes the governance framework for architecture implementation, including compliance processes. It measures the understanding of TOGAF practitioners about governance principles, a key competency for the OGEA-101 exam.</li> </ul>
Topic 8	<ul style="list-style-type: none"> <li>• <b>Architecture Vision:</b> Aspiring TOGAF practitioners learn to develop an architecture vision that aligns with business goals and drivers. This topic evaluates the skills in articulating a clear and compelling vision, a necessary competency for successfully navigating the OGEA-101 exam and implementing enterprise architecture.</li> </ul>
Topic 9	<ul style="list-style-type: none"> <li>• <b>Fundamental Concepts of Enterprise Architecture:</b> This topic covers the definition, purpose, and benefits of enterprise architecture, emphasizing its role in aligning business objectives with IT strategies. It measures the understanding of TOGAF practitioners about foundational principles essential for effective enterprise architecture practice, crucial for passing the OGEA-101 exam.</li> </ul>

## 100% Pass 2026 Perfect OGEA-101: Valid TOGAF Enterprise Architecture Part 1 Exam Test Labs

In order to help you easily get your desired The Open Group OGEA-101 certification, The Open Group is here to provide you with the The Open Group OGEA-101 exam dumps. We need to adapt to our ever-changing reality. To prepare for the actual The Open Group OGEA-101 Exam, you can use our The Open Group OGEA-101 exam dumps.

### The Open Group TOGAF Enterprise Architecture Part 1 Exam Sample Questions (Q98-Q103):

#### NEW QUESTION # 98

Exhibit

Consider the illustration showing an architecture development cycle. Which description matches the phase of the ADM labeled as item 2?

- **A. Provides architectural oversight for the implementation**
- B. Conducts implementation planning for the architecture defined in previous phases
- C. Operates the process of managing architecture requirements
- D. Establishes procedures for managing change to the new architecture

**Answer: A**

Explanation:

Based on the illustration, the phase of the ADM labeled as item 2 is the Implementation Governance phase.

This phase provides architectural oversight for the implementation. It ensures that the implementation project conforms to the architecture. It also provides a framework for monitoring and managing the implementation.

The Implementation Governance phase involves the following activities:

Finalizing the Architecture Roadmap and the supporting Implementation and Migration Plan  
Assigning an Architecture Board to oversee the implementation  
Establishing Architecture Contracts with the implementation partners  
Reviewing and approving the implementation project plans and deliverables  
Performing Architecture Compliance reviews to ensure alignment with the architecture  
Performing Architecture Audit reviews to ensure quality and performance of the architecture  
Resolving any architecture issues or change requests that arise during the implementation  
Maintaining the architecture lifecycle and ensuring its continuity  
The Implementation Governance phase is essential for ensuring that the architecture is realized as intended and that it delivers the expected business value and outcomes.

Implementation Governance

#### NEW QUESTION # 99

Consider the following statement.

Projects may cycle between ADM phases, in planned cycles covering multiple phases.

What does it illustrate?

- **A. Iteration**
- B. Requirements management
- C. Implementation governance
- D. Enterprise Architecture

**Answer: A**

Explanation:

The statement "Projects may cycle between ADM phases, in planned cycles covering multiple phases" illustrates the concept of iteration, which is the process of repeating the ADM phases or steps within a phase to refine the architecture outputs and address the changing requirements and stakeholder concerns. Iteration can occur at different levels of granularity and scope, such as within a single phase, across multiple phases, or across the entire ADM cycle. Iteration can also be applied to different architecture domains, such as business, data, application, and technology. Iteration is a key feature of the ADM that enables the development of architectures that are fit for purpose, adaptable, and responsive to change. References: : The TOGAF Standard, Version 9.2, Part III: ADM Guidelines and Techniques, Chapter 24: Applying Iteration to the ADM

#### NEW QUESTION # 100

What provides context for architecture work, by describing the needs and ways of working employed by the enterprise?

- **A. Business principles business goals, and business drivers**
- B. Stakeholder needs
- C. Architecture Contracts
- D. Strategy and vision

**Answer: A**

Explanation:

Business principles business goals, and business drivers provide context for architecture work, by describing the needs and ways of working employed by the enterprise. They define what the enterprise wants to achieve, how it wants to operate, and what factors influence its decisions and actions. Reference: The TOGAF Standard | The Open Group Website, Section 3.2 Preliminary Phase.

#### NEW QUESTION # 101

Which one of the following classes of information within the Architecture Repository would typically contain a list of the applications in use within the enterprise?

- **A. Architecture Landscape**
- B. Reference Library
- C. Architecture Metamodel
- D. Governance Log

**Answer: A**

Explanation:

The Architecture Landscape is a class of information within the Architecture Repository that shows an architectural view of the building blocks that are in use within the organization today (the Baseline Architecture), as well as those that are planned for the future (the Target Architecture). The Architecture Landscape typically contains a list of the applications in use within the enterprise, along with their relationships and dependencies, as well as other relevant architectural information. The Architecture Landscape helps to identify opportunities for re-use, consolidation, or retirement of existing applications, as well as gaps or overlaps in the current or future architecture.

#### NEW QUESTION # 102

Which of the following best describes purpose of the Business Scenarios?

- [illegible]
