NEW QUESTION # 148

What is one benefit that collaborators in a catalog have in IBM Knowledge Catalog?

- A. They can only access data stored in PDF documents.
- **B. They can access data assets without needing separate credentials.**
- C. They can see all the credentials associated with the data.
- D. They have full access to unstructured data in the catalog

Answer: B

Explanation:

Collaborators in IBM Knowledge Catalog are granted access to data assets that have been properly governed and made available through connections. Once a connection is established by an administrator or asset owner, users with collaborator roles can access the data without needing to re-enter credentials. This simplifies secure data consumption and aligns with enterprise access control policies. They do not see underlying credentials, and access is not limited to document types like PDFs.
