Use Microsoft DP-300 Questions - Best Strategy To Beat The Exam Stress

Our DP-300 study materials will provide you with 100% assurance of passing the professional qualification exam. We are very confident in the quality of DP-300 guide torrent. Our pass rate of DP-300 training braindump is high as 98% to 100%. You can totally rely on our DP-300 Practice Questions. We have free demo of our DP-300 learning prep for you to check the excellent quality. As long as you free download the DP-300 exam questions, you will satisfied with them and pass the DP-300 exam with ease.

Microsoft Administering Relational Databases on Microsoft Azure Sample Questions (Q312-Q317):

NEW QUESTION # 312

You have an on-premises Microsoft SQL Server 2022 instance named SQL1. You have an Azure subscription that contains an Azure SQL managed instance named SQLMI1. You need to configure a bidirectional disaster recovery solution between SQL1 and SQLMH. What should you include in the solution?

- A. the Managed instance link

- B. Log Replay Service (LRS)
- C. Azure Database Migration Service
- D. a failover group

Answer: A

NEW QUESTION # 313

You have SQL Server on an Azure virtual machine that contains a database named DB1.

The database reports a CHECKSUM error.

You need to recover the database.

How should you complete the statements? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:
