Now I will introduce you our Oracle CX Sales 2024 Implementation Professional exam tool in detail, I hope you will like our product.

Oracle CX Sales 2024 Implementation Professional Sample Questions (Q299-Q304):

NEW QUESTION # 299

What is the main purpose of implementing rules in Oracle Profitability and Cost Management Cloud Service?

- A. To perform complex calculations and transformations on data
- **B. To define and enforce business rules and validations**
- C. To import and export data from external sources
- D. To create and manage data forms for data entry

Answer: B

Explanation:

Option 1: Incorrect. While implementing rules can involve performing calculations and transformations on data, this is not the main purpose. The main purpose is to define and enforce business rules and validations. Option 2: Correct. The main purpose of implementing rules in Oracle Profitability and Cost Management Cloud Service is to define and enforce business rules and validations. These rules ensure the accuracy and consistency of the data in the application. Option 3: Incorrect. Importing and exporting data from external sources is not the main purpose of implementing rules in Oracle Profitability and Cost Management Cloud Service. This functionality is usually handled through data integration processes. Option 4: Incorrect. While creating and managing data forms for data entry is an important aspect of the application, it is not the main purpose of implementing rules. Rules are used to define and enforce business logic and validations.

NEW QUESTION # 300

Which step is required to complete the integration between Oracle Profitability and Cost Management Cloud Service and Oracle Enterprise Performance Management Cloud?

- A. Create a SSH key on Oracle Profitability and Cost Management Cloud Service and import it to Oracle Enterprise Performance Management Cloud
- B. Configure a reverse proxy server on Oracle Enterprise Performance Management Cloud to route traffic to Oracle Profitability and Cost Management Cloud Service
- C. Configure single sign-on between Oracle Profitability and Cost Management Cloud Service and Oracle Identity Cloud Service
- D. Install and configure Oracle Data Integrator on both systems

Answer: C

NEW QUESTION # 301

What is the main function of the Oracle Profitability and Cost Management Cloud Service?

- A. To provide cloud-based storage for financial data
- B. To provide basic financial reporting and accounting functionality
- C. To provide real-time costing and profitability analysis to support business decisions
- D. To automate the budgeting and planning process

Answer: C

Explanation:

Option 1: This option is correct because the main function of the Oracle Profitability and Cost Management Cloud Service is to provide real-time costing and profitability analysis to support business decisions. Option 2: This option is incorrect because the Oracle Profitability and Cost Management Cloud Service is not primarily focused on accounting or reporting. Option 3: This option is incorrect because the Oracle Profitability and Cost Management Cloud Service is not a storage solution, but rather an analysis tool. Option 4: This option is incorrect because while the Oracle Profitability and Cost Management Cloud Service can help with budgeting and planning, it is not its main function.

NEW QUESTION # 302

Which dimension member property in Profitability and Cost Management Cloud Service contains information about actual costs?

- A. Currency
- B. Entity
- C. Account
- D. Owner

Answer: C

Explanation:

Option 1: Incorrect. The 'Owner' dimension member property typically contains information about the person or department that is responsible for a particular cost. Option 2: Incorrect. The 'Currency' dimension member property typically contains information about the currency in which a cost is recorded. Option 3: Correct. The 'Account' dimension member property typically contains information about the actual costs incurred. Option 4: Incorrect. The 'Entity' dimension member property typically contains information about the organizational unit for which a cost is incurred.

NEW QUESTION # 303

When creating a cube in Oracle Profitability and Cost Management Cloud Service, which step is required to define the data that will be included in the cube?

- A. Define the cubes
- **B. Define the dimensions**
- C. Define the attributes
- D. Define the hierarchy structure

Answer: B

Explanation:

Option 1: Incorrect. Defining the hierarchy structure is an optional step in creating a cube. It determines the way data is organized within the cube, but it does not define the actual data that will be included. Option 2: Correct. When creating a cube in Oracle Profitability and Cost Management Cloud Service, the step of defining the dimensions is required to define the data that will be included in the cube. Dimensions represent the various attributes or characteristics of the data that will be stored in the cube. Option 3: Incorrect. Defining the attributes is not a required step in creating a cube. Attributes provide additional details or properties for the data within the cube, but they do not define the data itself. Option 4: Incorrect. Defining the cubes is not a required step in creating a cube. The cube is the final result of the cube creation process, and it is built upon the
