| Only Microsoft-provided roles can be used within finance and operations apps.                                   |  | <input type="radio"/>            | <input checked="" type="radio"/> |

#### 質問 # 55

A retail store uses a point of sale (POS) system to process customer sales. A customer selects several items for purchase.

The customer wants to come back to pay for the items later the same day.

You need to recommend a process to support the customer request.

What should you recommend? To answer, drag the appropriate actions to the correct requirements. Each action may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

| Actions              | Requirement                  | Action |
|----------------------|------------------------------|--------|
| Recall transaction.  | Hold items.                  | Action |
| Void transaction.    | Complete sales transactions. | Action |
| Cancel order.        |                              |        |
| Suspend transaction. |                              |        |

正解:

解説:

| Actions              | Requirement                  | Action              |
|----------------------|------------------------------|---------------------|
| Recall transaction.  | Hold items.                  | Void transaction.   |
| Void transaction.    | Complete sales transactions. | Recall transaction. |
| Cancel order.        |                              |                     |
| Suspend transaction. |                              |                     |
