Oracle N16291GC10 Exam Syllabus Topics:

Topic	Details
Topic 1	SuiteCloud Platform: This section of the exam measures skills of NetSuite Automation Developers and covers the use of SuiteFlow, SuiteScript, and SuiteTalk to automate and integrate business processes. It involves understanding the sequence of creating SuiteFlows, identifying running automations, and managing SuiteBundles. Candidates must also distinguish between managed and non-managed bundles, update existing ones, and apply REST or SOAP Web Services, ODBC, and CSV Import methods to manage NetSuite data effectively.

Topic 2	• Setup and Administration: This section of the exam measures skills of NetSuite System Administrators and focuses on system configuration, environment management, and role-based security. It covers best practices for assigning custom roles, handling global permissions, and defining subsidiary-level access. Candidates are tested on the correct use of the Administrator role, user access configurations, multi-language settings, and environment management between Sandbox, Production, and Release Preview. Additionally, the section assesses knowledge of advanced CSV import options, troubleshooting import errors, and applying SuiteCloud Plus features.
Topic 3	• Data Security: This section of the exam measures skills of Information Security Specialists and focuses on managing access and safeguarding sensitive data within NetSuite. It includes understanding how to secure the File Cabinet, configure login security, and set up Two-Factor Authentication or Single Sign-On. Candidates are evaluated on recognizing permissions with high access levels, mitigating data risks when employees exit the organization, and managing the security impact of changing field values on reports.
