C-TS422-2023 Best Practice | 100% Free Pass-Sure SAP S/4HANA Cloud Private Edition - Production Planning and Manufacturing Dumps Torrent

2026 Latest Pass4cram C-TS422-2023 PDF Dumps and C-TS422-2023 Exam Engine Free Share:
https://drive.google.com/open?id=1rfIKsIGqAyc6z5Co4yLsjula5Uj55R17

You may urgently need to attend C-TS422-2023 certificate exam and get the certificate to prove you are qualified for the job in some area. If you buy our C-TS422-2023 study materials you will pass the test almost without any problems. Our C-TS422-2023 study materials boost high passing rate and hit rate so that you needn't worry that you can't pass the test too much. We provide free tryout before the purchase. To further understand the merits and features of our C-TS422-2023 Practice Engine you could look at the introduction of our product in detail.

SAP C-TS422-2023 Exam Syllabus Topics:

Topic	Details
Topic 1	• Lean Manufacturing in SAP S • 4HANA: This section covers repetitive manufacturing master data, line load planning, and Kanban systems.

Topic 2	• Introduction to SAP S • 4HANA Production Planning: This section covers an overview of production planning components, functions, and planning approaches. Exploration of emerging trends.
Topic 3	• Material Requirements Planning in SAP S • 4HANA: This part of the exam covers an examination of planning strategies, tools, and long-term planning concepts. Overview of MRP fundamentals and lot size procedures.
Topic 4	• Master Data in SAP S • 4HANA: This section covers the exploration of crucial production-related master data elements, with emphasis on bill of material, routing, and production version.
Topic 5	• Production Orders in SAP S • 4HANA: This section covers BOM item categorization, order status management, availability checks, routing selection, order type setup, and material handling processes.
Topic 6	• Demand Management in SAP S • 4HANA: This section covers a comparison of production methods in various manufacturing environments.
Topic 7	• Managing Clean Core: This section covers the application of clean core principles to enhance business process agility, reduce adaptation efforts, and drive innovation in ERP systems.
Topic 8	• Capacity Planning in SAP S • 4HANA: This section covers a discussion of SAP S • 4HANA best practices, SAP HANA database concept, SAP Fiori user experience, and embedded analytics capabilities.
Topic 9	• Process Orders in SAP S • 4HANA: This section covers an introduction to process order components, processing, and relevant master data objects. Overview of Good Manufacturing Practices (GMP) features.
Topic 10	• Advanced Planning in SAP S • 4HANA: This section includes an overview of advanced planning fundamentals and master data. Explanation of key tools and processes. Discussion of planning evaluation concepts.

C-TS422-2023 Dumps Torrent - C-TS422-2023 Download Demo

SAP C-TS422-2023 authentication certificate is the dream IT certificate of many people. SAP certification C-TS422-2023 exam is a examination to test the examinees' IT professional knowledge and experience, which need to master abundant IT knowledge and experience to pass. In order to grasp so much knowledge, generally, it need to spend a lot of time and energy to review many books. Pass4cram is a website which can help you save time and energy to rapidly and efficiently master the SAP Certification C-TS422-2023 Exam related knowledge. If you are interested in Pass4cram, you can first free download part of Pass4cram's SAP certification C-TS422-2023 exam exercises and answers on the Internet as a try.

SAP S/4HANA Cloud Private Edition - Production Planning and Manufacturing Sample Questions (Q21-Q26):

NEW QUESTION # 21
What are the key features of using a low level code? Note: There are 2 correct answers to this question.

- A. To determine the use of subitems inside material BOM (bill of material)
- B. To determine the priority of alternative components inside ATP
- C. To determine how costs are rolled up by product costing
- D. To determine the sequence in which materials are planned in MRP

Answer: C,D

NEW QUESTION # 22

What are the possible results of a production planning run in Advanced Planning (PP/DS)?
Note: There are 2 correct answers to this question.

- A. Purchase order
- B. Planned order
- C. Scheduling agreement schedule line
- D. Production order

Answer: B,C

NEW QUESTION # 23

Which of the following are possible configuration steps when setting up the alert monitor in Advanced Planning? Note: There are 2 correct answers to this question.

- A. Assign the alert profile to the overall profile.
- B. Assign the overall profile to the authorization profile.
- C. Create an object selection variant for production-planning-related alerts.
- D. Create an object selection variant for alerts according to the priority of ATP categories.

Answer: A,C

Explanation:
The Alert Monitor in SAP S/4HANA PP/DS (transaction /SAPAPO/AMON1) highlights planning issues.
Configuration steps include:
* Assign the alert profile to the overall profile(A): In Customizing (/SAPAPO/ALERT_PROFILE), you define an alert profile (e.g., specifying alert types like capacity overload) and assign it to an overall profile (e.g., in /SAPAPO/CDPSC11). This links alert settings to planning applications (e.g., Planning Board).
* Create an object selection variant for production-planning-related alerts(D): You create a variant (e.g., in /SAPAPO/AMON_SETTING) to filter objects (e.g., materials, resources) for which alerts are monitored, tailoring it to production planning issues (e.g., late orders, shortages).
Assign the overall profile to the authorization profile(B) is incorrect-overall profiles link to planning, not authorization (handled via PFCG roles).Object selection variant for ATP categories(C) relates to availability checks, not production planning alerts, which focus on PP/DS issues. This is per SAP's Alert Monitor setup.

NEW QUESTION # 24

You want to set up a maketoorder planning scenario for a finished product. The bill of material contains two components: one should be procured for eac sales order individually the other should be procured jointly for all independent requirements. Forecasting for the finished product is NOT possible. Which settings do you make to achieve this?

- A. Choose planning strategy 50 (Planning without final assembly) select the corresponding Mixed MRP indicator.
- B. Choose planning strategy 20 (MaketoOrder) select the corresponding Individual/Collective indicator.
- C. Choose planning strategy 50 (Planning without final assembly) select the corresponding Individual/Collective indicator.
- D. Choose planning strategy 20 (MaketoOrder) select the corresponding Mixed MRP indicator.

Answer: B

NEW QUESTION # 25

You are trying to create a production order and NO valid production version can be selected. What could be the reasons?
Note: There are 2 correct answers to this question.

- A. All production versions for the material are locked.
- B. The order lot size is NOT within the validity range of a production version.
- C. NO production lines are assigned to the production versions..

- D. NO bills of material (BOMs) are assigned to the production versions.

Answer: B,D

Explanation:
A production version is a master data object that links a bill of material (BOM) and a routing or a production process model (PPM) for a material. A production version is required for creating a production order in SAP S/4HANA, as it determines the components, operations, and resources that are needed for producing the material. You can create a production version manually or automatically using the CS_BOM_PRODVER_MIGRATION02 report1.

If you are trying to create a production order and no valid production version can be selected, it could be because of the following reasons:

No bills of material (BOMs) are assigned to the production versions (A): A BOM is a master data object that defines the components and the quantities that are required for producing a material. A production version must have a valid BOM assigned to it, otherwise it cannot be used for creating a production order. You can assign a BOM to a production version on the MRP 4 tab page of the material master2.

The order lot size is not within the validity range of a production version (C): A production version has a validity range that defines the period and the lot size interval in which it can be used for production planning. The validity range is maintained on the MRP 4 tab page of the material master2. If the order lot size (the quantity of the material to be produced) is not within the lot size interval of any production version, then no valid production version can be selected for creating a production order.

The other options are not valid reasons for not being able to select a production version for creating a production order:

All production versions for the material are locked (B): A production version can have a status that indicates whether it is active or locked. A locked production version cannot be used for production planning, but it can still be selected for creating a production order. However, the system will issue a warning message that the production version is locked and ask for confirmation before proceeding with the order creation3.

No production lines are assigned to the production versions (D): A production line is an organizational unit that represents a group of resources that are used for producing a material. A production line can be assigned to a production version on the MRP 4 tab page of the material master2. However, this assignment is optional and not mandatory for creating a production order. A production line can be used for grouping production versions for reporting or analysis purposes, but it does not affect the selection of a production version for creating a production order4.

NEW QUESTION # 26

......

People always want to prove that they are competent and skillful in some certain area. The ways to prove their competences are varied but the most direct and convenient method is to attend the C-TS422-2023 certification exam and get some certificate. Passing the C-TS422-2023 certification can prove that you are very competent and excellent and you can also master useful knowledge and skill through passing the C-TS422-2023 test. Purchasing our C-TS422-2023 guide torrent can help you pass the C-TS422-2023 exam and it costs little time and energy.
