2026 DEP-2025 Pass Test Guide | High Hit-Rate 100% Free DEP-2025 Exam Actual Questions

What's more, part of that 2Pass4sure DEP-2025 dumps now are free: https://drive.google.com/open?id=1RVPzrLgLv5WPoa79TnSQj6KicjfTzu0J

We have applied the latest technologies to the design of our DEP-2025 test prep not only on the content but also on the displays. As a consequence you are able to keep pace with the changeable world and remain your advantages with our DEP-2025 training materials. Besides, you can consolidate important knowledge for you personally and design customized study schedule or to-do list on a daily basis. The last but not least, our after-sales service can be the most attractive project in our DEP-2025 Guide Torrent.

Apple DEP-2025 Exam Syllabus Topics:

Topic	Details
Topic 1	• Identity Services: This section of the exam measures the skills of an MDM Specialist and covers supported identity services on Apple devices, including Platform SSO and Single Sign-On, helping users manage secure access and authentication.
Topic 2	• Apple Configurator: This section of the exam measures the skills of an IT Administrator and covers the usage of Apple Configurator in enrollment, supervision, and deployment of Apple devices. It includes an overview of its features and setup processes.

Topic 3	• Prepare Your Environment: This section of the exam measures the skills of an IT Administrator and covers the important factors involved in evaluating and preparing the environment for a successful MDM implementation. It emphasizes strategic planning before rollout.
Topic 4	• Device Enrollment: This section of the exam measures the skills of an MDM Specialist and covers the three main enrollment methods for Apple devices, their core concepts, and their properties. It prepares candidates to make appropriate choices based on organizational needs.
Topic 5	• Device Setup: This section of the exam measures the skills of an MDM Specialist and covers strategies and use cases for managing Setup Assistant via MDM. It also covers the configuration of enrollment-related settings and pane options.
Topic 6	• Software Updates: This section of the exam measures the skills of an MDM Specialist and covers update management strategies using MDM. It includes handling deadlines, updating behavior, and ensuring that updates are properly delivered and installed.
Topic 7	• Network Integration: This section of the exam measures the skills of an IT Administrator and covers assessing network responsiveness and device connectivity. It also covers wireless auto-join behavior on Apple devices and ensures strong network coverage.
Topic 8	• Device Security: This section of the exam measures the skills of an MDM Specialist and covers encryption on Apple platforms, FileVault operations, and the importance of key management. It focuses on protecting sensitive data on managed devices.
Topic 9	• Apple Business Manager and Apple School Manager: This section of the exam measures the skills of an MDM Specialist and covers managing connections to resellers and managing device suppliers. It emphasizes the use of Apple Business Manager or School Manager to streamline large-scale deployments.
Topic 10	• Device Support: This section of the exam measures the skills of an IT Administrator and covers troubleshooting Mac startup, recovery, and password reset processes using macOS Recovery. It ensures support professionals can maintain and restore device functionality.
Topic 11	• Plan a Deployment: This section of the exam measures the skills of an MDM Specialist and covers the purpose and function of Apple's built-in MDM framework. It evaluates the foundational understanding needed to support the deployment of Apple devices at scale using MDM protocols and tools.
Topic 12	• Planning Device Ownership and Enrollment: This section of the exam measures the skills of an IT Administrator and covers enrollment planning strategies based on ownership models. It focuses on data separation and appropriate deployment paths based on user and organizational requirements.
Topic 13	• Device Configuration: This section of the exam measures the skills of an IT Administrator and covers declarative configuration properties and how they relate to the device enrollment type. It ensures that configurations align with organizational needs.

Updated DEP-2025 Pass Test Guide for Real Exam

If the clients have any problems on our DEP-2025 training guide they could contact our online customer service personnel or contact us by the mails. We will reply their questions sincerely and help them solve their problems at any time since we offer service on 24/7 time format. We provide the best DEP-2025 Study Guide and hope our sincere service will satisfy all the clients. And our services are praised by our worthy customers who said that when they talked with us, they knew we are relialbe and professional.

Apple Deployment and Management Exam Sample Questions (Q268-Q273):

NEW QUESTION # 268

Users report slow Wi-Fi after moving from their offices to the conference room. You notice that their devices aren't joining the closer access point. Why don't the devices associate with the closer access point?

- A. The signal strength hasn't met the device's trigger threshold.
- B. The broadcast signal of the first access point has a higher maximum data rate.
- C. The trigger thresholds aren't properly configured in the Wi-Fi profile.
- D. Fast roaming isn't turned on for the wireless access controller.

Answer: A

Explanation:
Devices wait for a threshold drop. The Apple Platform Deployment Guide states, "Apple devices use a roaming trigger threshold; they won't switch to a closer access point until the current signal falls below this level." Reference:
Apple Platform Deployment Guide, "Wi-Fi Roaming" section.
macOS Deployment Reference, "Network Behavior" section.

NEW QUESTION # 269
Which type of enrollment supports Activation Lock management?

- A. User Enrollment
- B. Automated Device Enrollment
- C. All of the above
- D. Device Enrollment

Answer: B

Explanation:
Automated Device Enrollment (ADE), used with Apple Business Manager (ABM) or Apple School Manager (ASM), supports Activation Lock management by allowing administrators to enable, disable, or bypass Activation Lock on supervised devices via MDM. This is critical for organization-owned devices to ensure they can be reactivated after a wipe without user Apple IDs. Device Enrollment (option B) can manage Activation Lock if the device is supervised, but it's not inherent without ADE. User Enrollment (option C) doesn't support full Activation Lock management, as it's for BYOD with limited control. The Apple Platform Deployment Guide ties Activation Lock management to ADE.
Reference: Apple Platform Deployment Guide (Chapter: Activation Lock).

NEW QUESTION # 270
How can organizations enable and manage access to beta releases of Apple operating systems through MDM?

- A. Enroll devices in Mac Evaluation Utility using MDM.
- B. Enroll devices in the Apple Beta Software Program using MDM.
- C. Configure MDM to restrict Mac Evaluation Utility.
- D. Configure MDM to access Feedback Assistant.

Answer: B

Explanation:
MDM manages beta enrollment. The Mobile Device Management Protocol Reference states, "MDM can enroll devices in the Apple Beta Software Program by pushing a profile with beta update settings." References:
Mobile Device Management Protocol Reference, "Software Updates" section.
Apple Platform Deployment Guide, "Beta Management" section.

NEW QUESTION # 271
A user has an iPhone that was enrolled using account-driven User Enrollment. They use their Managed Apple Account to back up their iPhone to iCloud. Which data is backed up?

- A. All app data
- B. Only data from personal apps
- C. Only data from Managed Apps

- D. All data

Answer: C

Explanation:
Only managed data is backed up with a Managed Apple ID. TheiOS Deployment Referencestates, "Under User Enrollment, an iCloud backup using a Managed Apple ID includes only data from managed apps, keeping personal data separate." References: iOS Deployment Reference, "User Enrollment Backups" section.
Apple Platform Deployment Guide, "iCloud and User Enrollment" section.

NEW QUESTION # 272
Which two of these can MDM optionally provide with the EraseDevice command when you use the Return to Service workflow?

- A. Wi-Fi payload
- B. Register data plan
- C. Preserve supervision status
- D. Location Services
- E. Enrollment profile

Answer: A,E

Explanation:
TheReturn to Serviceworkflow is designed to redeploy iPhones and iPads with minimal IT interaction. Apple Learning details that when sending theEraseDevice command, MDM can optionally attach aWi-Fi payloadand theenrollment profile. The Wi-Fi payload ensures the freshly erased device automatically reconnects to the network during Setup Assistant, enabling seamless MDM re-enrollment. The enrollment profile ensures the device knows which MDM server to connect to. Apple specifies that supervision status is retained automatically for supervised devices; it is not an optional payload. Data plans and Location Services are unrelated to the Return to Service workflow. These options allow organizations to quickly cycle devices for redeployment, particularly in education and enterprise shared-use environments.
References:Apple Platform Deployment - "Return to Service workflow with EraseDevice."

NEW QUESTION # 273
......

Our DEP-2025 study material is the most popular examination question bank for candidates. DEP-2025 study material has helped thousands of candidates successfully pass the exam and has been praised by all users since it was appearance. DEP-2025 study material has the most authoritative test counseling platform, and each topic in DEP-2025 Study Materials is carefully written by experts who are engaged in researching in the field of professional qualification exams all the year round. They have a very keen sense of change in the direction of the exam, so that they can accurately grasp the important points of the exam.
