More and more IT people have taken action to purchase our Salesforce Salesforce-Certified-Administrator test. 100% guarantee to pass Salesforce-Certified-Administrator test. I think you will not miss it.

## Salesforce Certified Administrator Sample Questions (Q26-Q31):

### NEW QUESTION # 26

The administrator for AW Computing is working with a user who is having trouble logging in to Salesforce. What should the administrator do to identify why the user is unable to log in?

- A. Check the attempted logins by running the setup audit trail.
- B. Pull the password history to ensure the password policy was followed.
- C. Reset the security token for the profile.
- D. Review the login history for the user.

**Answer: D**

Explanation:

Explanation

To identify why a user is unable to log in to Salesforce, the administrator should review the login history for the user. The login history shows the date and time of each login attempt, the source IP address, the browser and platform used, the login type (such as username and password or single sign-on), and the status (such as success or failure). The login history can help troubleshoot common login issues such as incorrect username or password, invalid security token, IP restrictions, or login hours violations. Checking the attempted logins by running the setup audit trail, pulling the password history, or resetting the security token for the profile will not help identify why a user is unable to log in. ### NEW QUESTION # 27

The administrator has been asked to automate a simple field update on the account. When a support agent changes the status of the account to 'Audited', they would like the system to automatically update the Audited date field on the account with today's date. Which tool should the administrator use to complete this automation?

- A. Validation Rule
- **B. FormulaField**
- C. Flow Builder
- D. Approval process

**Answer: B**

Explanation:

Explanation

A formula field is a type of field that calculates a value based on an expression or formula that references other fields or constants. For example, a formula field can display today's date by using the TODAY() function. In this case, the administrator can create a formula field on the account object that updates the audited date field with today's date when the status of the account is changed to 'Audited'.

References:[https://help.salesforce.com/s/articleView?id=sf.fields\\_about\\_formulas.htm&type=5](https://help.salesforce.com/s/articleView?id=sf.fields_about_formulas.htm&type=5)

### NEW QUESTION # 28

The administrator at AW Computing wants to send off client welcome tasks and a welcome email to the primary contact automatically when an Opportunity is Closed won.

What automation tool best accomplishes this?

- A. Validation Rule
- B. Approval Process
- C. Outbound Message
- **D. Process Builder**

**Answer: D**

Explanation:

Explanation

Process Builder is a tool that can be used to automate business processes by creating record-triggered flows that execute actions when certain conditions are met. In this case, Process Builder can be used to create a flow that executes when an opportunity is closed won and creates a client welcome task and a welcome email for the primary contact. References:

[https://help.salesforce.com/s/articleView?id=sf.process\\_which\\_tool.htm&type=5](https://help.salesforce.com/s/articleView?id=sf.process_which_tool.htm&type=5)

### NEW QUESTION # 29

Northern Trail Outfitters (NTO) has deployed my domain. The Chief Marketing Officer wants to make sure that all of the Salesforce users log in using the branded login URL. There needs to be a grace period for the user's bookmarks to be updated.

How should the administrator configure the policies in my domain settings?

- **A. Set the Redirect policy to Do Not redirect.**
- B. Set the login policy to prevent login from <https://login.salesforce.com>
- C. Set the redirect policy to Redirect with a warning to the same page within the domain.

- D. Set the login policy to require login from <https://nto.my.salesforce.com>

**Answer: A**

#### NEW QUESTION # 30

Northern Trail outfitters has hired interns to enter Leads into Salesforce and has requested a way to identify these new records from existing Leads.

What approach should an administrator take to meet this requirement?

- A. Define a record type and assign it to the interns.
- B. Create a separate Lead Lightning App.
- C. Set up Web-to-Lead form the interns use.
- D. Update the active Leads Assignment Rules.

**Answer: A**

#### NEW QUESTION # 31

.....
