Obtaining a certificate is equivalent to having a promising future and good professional development. Our Plat-101 Study Materials have a good reputation in the international community and the quality of our Plat-101 study guide is guaranteed.

Salesforce Certified Platform Foundations Sample Questions (Q104-Q109):

NEW QUESTION # 104

A Salesforce associate wants to learn more about an app to see if it would be a good fit for a business need, but they are not a system administrator.

Where can they learn more about the app?

- A. Trailhead
- B. AppExchange

- C. Global Search

Answer: A

Explanation:

The place where the associate can learn more about an app to see if it would be a good fit for a business need is the AppExchange. The AppExchange is a marketplace where users can find, install, and review apps, components, and solutions that are built on the Salesforce platform and are available for various purposes and industries. The associate can browse the AppExchange by category, rating, price, or keyword, and see the details, features, screenshots, and reviews of each app. Trailhead is a learning platform where users can learn new skills and earn badges and certifications, but it does not provide information about specific apps. Global Search is a feature that allows users to find records and other items in their Salesforce org, but it does not search for apps outside their org.

NEW QUESTION # 105

Which sharing type shares a single, common infrastructure and code base?

- A. Metadata
- B. Trust
- C. Multitenant

Answer: C

Explanation:

Multitenant is the sharing type that shares a single, common infrastructure and code base. Multitenant means that multiple customers (tenants) share the same hardware, software, and infrastructure resources, but their data and configurations are isolated and secure. This allows Salesforce to deliver high performance, scalability, and availability to its customers.

NEW QUESTION # 106

A Salesforce standard profile end user is looking for specific information on an Opportunity record page.

They are overwhelmed by the required scrolling to see the page.

What should the user do to simplify the page to see only what they want?

- A. Change page layout assignment.
- B. Remove activities.
- C. Collapse detail sections.

Answer: C

Explanation:

Collapsing detail sections is a way to simplify the page to see only what the user wants, as it will hide the fields in that section and reduce the scrolling.

NEW QUESTION # 107

A Salesforce associate is asked to review all the objects within their company's instance. They also need to identify which are custom objects.

Where should the associate go to see this information?

- A. App Launcher
- B. Object Manager
- C. Global Search

Answer: A

Explanation:

The Object Manager is where the associate should go to see the information about all the objects within their company's instance and identify which are custom objects. The Object Manager allows the user to view and manage the metadata of standard and custom objects in Salesforce, such as fields, page layouts, record types, buttons, and actions. The Object Manager can be accessed by clicking the Setup icon in the header, then clicking Object Manager. The custom objects are indicated by a blue icon with a white asterisk, while the standard objects are indicated by a gray icon with a white letter. The App Launcher is where the user can access

all the apps and objects in Salesforce, such as Sales, Service, Marketing, and so on. The App Launcher does not show the information about the objects, such as fields, page layouts, or record types. The Global Search is where the user can search for records across multiple objects and fields using keywords or phrases.

The Global Search does not show the information about the objects, but only the records that match the search criteria.

NEW QUESTION # 108

A Salesforce associate has been asked to identify all contacts that have had interactions with their company in the last year.

What should the associate do to identify these contacts?

- A. Look at the active field.
- **B. Look at the last related activity date.**
- C. Look at the contact's Last Modified Date.

Answer: B

Explanation:

The last related activity date is a field on the contact object that shows the date of the most recent task or event related to the contact. This can be used to identify contacts that have had interactions with the company in the last year.

NEW QUESTION # 109

.....
