### **NEW QUESTION # 154**

Which of the following are signs that modern-day slavery might be taking place within the supply chain?

Select THREE.

- A. poor quality products
- B. suppliers who speak English as a second language
- C. supplier based in a country with a low score on the Corruption Perception Index
- D. suspiciously low labour costs
- E. workers that live on-site

**Answer: A,D,E**

Explanation:

The correct answers are; suspiciously low labour costs, workers living on site and poor quality products (as this signals that the workforce may be unskilled).

A low score on the CPI is a good thing (high scores are more likely to signify slavery concerns) and just because someone speaks English as a second language doesn't mean you automatically need to be suspicious.

That would be prejudice.

- E. To gain insights from the market

**Answer: A,C,D,E**

### **NEW QUESTION # 156**

Commodities are items which can be traded on the stock exchange. These are generally divided into four categories. What are these four categories?

- A. fruit, vegetables, meat and dairy
- B. chemicals, agriculture, metals and livestock
- C. energy, agriculture, metals, livestock
- D. metals, energy, elements and agriculture

**Answer: C**

Explanation:

energy, agriculture, metals, livestock are the four trading categories on the stock exchange. Some-times there's a 5th category added which is 'environmental credits'. This is a fairly new thing and you don't need to know anything about this for this exam.

Question no commodities will mainly centre around characteristics of commodities and factors that affect pricing. Commodities are discussed much more in detail in L5M4. At level 4 you just need a basic overview.

#### NEW QUESTION # 157

A buyer is carrying out an assessment to identify the risk of unethical suppliers being selected for a new contract. Which of the following should the assessment include in order to protect the organisation against ethical reputational risks?

- A. Whether the suppliers have received negative press around their fair treatment of subcontracted staff
- B. The likelihood of suppliers becoming insolvent in the future due to unforeseen circumstances
- C. The average staff retention levels experienced by the suppliers
- D. Performance records (late deliveries/poor quality) of agreed contract deliverables

**Answer: A**

Explanation:

Assessing the ethical reputation of suppliers is crucial to mitigate risks associated with unethical practices.

Negative media coverage regarding the fair treatment of subcontracted staff is a significant indicator of potential ethical issues within a supplier's operations. Such information can highlight concerns related to labor rights violations, discrimination, or unsafe working conditions, which can adversely affect the buying organization's reputation if not addressed.
