

UiPath-ADPv1 Prüfungs & UiPath-ADPv1 Quizfragen Und Antworten

2025 Die neuesten Zertpruefung UiPath-ADPv1 PDF-Versionen Prüfungsfragen und UiPath-ADPv1 Fragen und Antworten sind kostenlos verfügbar: https://drive.google.com/open?id=1hc1VSwsBS3ygOE1QkQ27Ud-6y_EqkPMZC

Dynamischen Welt von heute lohnt es sich, etwas für das berufliche Weiterkommen zu tun. Angesichts des Fachkräftemangels in vielen Branchen haben Sie mit einer UiPath UiPath-ADPv1 Zertifizierung mehr Kontrolle über Ihren eigenen Werdegang und damit bessere Aufstiegschancen.

UiPath UiPath-ADPv1 Prüfungsplan:

Thema	Einzelheiten
Thema 1	• UiPath Studio Fundamentals: In this section, the focus is given to the understanding of Robotic Process Automation (RPA) concepts; it covers UiPath Studio and its components, Working with the UiPath user interface, project creation, management, and version control.
Thema 2	• UiPath Activities: In this section, the discussion is related to various UiPath activities for UI interaction, data manipulation, control flow, and more.
Thema 3	• Debugging and Testing: This section is about utilizing logging and debugging tools and adopting unit testing and test automation strategies.
Thema 4	• Design and Development: This section covers designing workflows using sequences, flowcharts, and state machines, building reusable components with libraries, exception handling and debugging techniques, etc.

UiPath-ADPv1 Der beste Partner bei Ihrer Vorbereitung der UiPath (ADPv1) Automation Developer Professional

Zertpruefung hat die spezielle Schulungsunterlagen zur UiPath UiPath-ADPv1 Zertifizierungsprüfung. Sie können mit wenig Zeit und Geld Ihre IT-Fachkenntnisse in kurzer Zeit verbessern und somit Ihre Fachkenntnisse und Technik in der IT-Branche beweisen. Die Kurse von Zertpruefung werden von den Experten nach ihren Kenntnissen und Erfahrungen für die UiPath UiPath-ADPv1 Zertifizierungsprüfung bearbeitet

UiPath (ADPv1) Automation Developer Professional UiPath-ADPv1 Prüfungsfragen mit Lösungen (Q12-Q17):

12. Frage

Which of the following describes the correct hierarchy of the elements in the Object Repository tree structure?

- A. Application, Version, Screen, UI Element.
- B. Version, Application, Screen, UI Element.
- C. Application, Screen, UI Element, Version.
- D. Screen, Application, Version, UI Element.

Antwort: C

Begründung:

The Object Repository in UiPath organizes elements in a hierarchical structure that reflects the logical arrangement of user interfaces and elements as they are captured and used in automation projects.

The correct hierarchy for elements in the Object Repository tree structure is:

A: Version, Application, Screen, UI Element.

This hierarchy starts with the 'Version', which could refer to the specific version of the application you are automating. Under each version, there could be multiple 'Applications' that you have elements for. Within each application, you might have captured various 'Screens' or dialogs, and within each screen, there are individual

'UI Elements' like buttons, text fields, dropdown menus, etc., that the automation interacts with.

However, it's important to note that in practice, when you are working with UiPath Studio and its Object Repository, the hierarchy usually starts with the 'Application', then under it, you have different 'Screens' of the application, and under each screen, you have the 'UI Elements'. The 'Version' is typically managed separately and is not a level in the hierarchy tree but rather a property or attribute of the application or element.

Therefore, the most practical answer reflecting the usage in UiPath Studio would be:

C: Application, Screen, UI Element, Version.

The 'Version' here would be understood not as a layer in the hierarchy but rather as an attribute that can be associated with the 'Application' or 'UI Element'.

13. Frage

When should the Show Elements button be used in the Computer Vision wizard?

- A. Highlighting all UI elements that have been identified by the Computer Vision analysis.
- B. Filtering out specific UI elements from being processed by the Computer Vision engine.
- C. Displaying a list of all available UI elements and their properties.
- D. Activating a real-time view of the target app
