Minimum Broadcom 250-604 Pass Score - 250-604 Cert Exam

The smartest way of getting high passing score in 250-604 valid test is choosing latest and accurate certification learning materials. The up-to-date 250-604 exam answers will save you from wasting much time and energy in the exam preparation. The content of our 250-604 Dumps Torrent covers the key points of exam, which will improve your ability to solve the difficulties of 250-604 real questions. Just add our exam dumps to your cart to get certification.

Broadcom Symantec Endpoint Security Complete Admin R1.4 Technical Specialist Sample Questions (Q118-Q123):

NEW QUESTION # 118

What are two key features of the EDR incident view in ICDm that assist in threat response? (Choose two)

- A. File trajectory mapping
- B. Full packet capture viewer
- C. Process tree visualization
- D. Bandwidth throttling interface

Answer: A,C

NEW QUESTION # 119

Why is it important to consider replication impact when implementing a hybrid Symantec security model?

- A. Because replication schedules must be synchronized with cloud sync intervals to prevent data loss.
- B. Because cloud replication disables all port forwarding on domain controllers.
- C. Because replication affects how SEPM sites distribute policies and content across multiple locations.
- D. Because replication is no longer supported when ICDm is enabled.

Answer: C

NEW QUESTION # 120

Scenario:

A global company is deploying SES Complete across multiple remote offices. Some offices lack local servers, and devices often operate outside of the corporate network. The analyst is tasked with deploying agents efficiently and maintaining centralized control. What are the best actions a security analyst should take to ensure endpoint protection across distributed offices?

- A. Deploy agents with embedded auto-enrollment credentials
- B. Configure SEPM for standalone policy management
- C. Require users to manually install agents from a shared drive
- D. Enable cloud-based automatic content updates
- E. Use ICDm to enforce policies across all regions

Answer: A,D,E

NEW QUESTION # 121

What is the role of the Drift Monitoring feature in SES Complete App Control?

- A. Recording video footage of end-user activity
- B. Identifying changes in application behavior against baseline policies
- C. Blocking unverified USB devices
- D. Enforcing file integrity rules

Answer: B

NEW QUESTION # 122

Which two types of policy adaptations are possible using SES Complete behavior-based policy tuning? (Choose two)

- A. Whitelisting internal tools that show abnormal behavior
- B. Changing device group names based on alert severity
- C. Blocking applications that do not match expected behavior
- D. Automatically uninstalling legacy applications

Answer: A,C

NEW QUESTION # 123

.....
