## Qlik Sense System Administrator Certification Exam - February 2021 Release Sample Questions (Q164-Q169):

### NEW QUESTION # 164

An administrator must configure a quality environment (QA) to approve applications before they go to production. Once approved, users of the "QAS" directory can publish them to the QA stream.

Users can read and publish within the QA stream. They also have AuditAdmin, but do not have access to the QMC APP tab. What rule should be included to allow access to the tab by these users?

- A. Resource: QmcSection\_Stream
- B. Resource: Stream\*
- C. Resource: QmcSection\_App

- D. Resource: App\*

**Answer: C**

#### NEW QUESTION # 165

A user creates an app in Qlik Sense Desktop using a database as the data source. The user is able to connect to the database and reload the app with new data. To share the app, the user emails the app QVF file to the system administrator.

The administrator imports the app successfully and publishes the app to the Everyone stream in the hub. The administrator creates a task to reload the data in the app every 12 hours. The next day, the user observes that the data has NOT been refreshed in the app. No modifications have been made to the access rights for the data source.

What is the likely cause of this issue?

- A. An identically-named data connection with another data source existed prior to the import
- B. The system administrator does NOT have permission to access the source database
- C. A security rule prevents the data connection from loading data into the app
- D. A custom property limits which tables can be accessed from the database

**Answer: D**

#### NEW QUESTION # 166

During regular server maintenance, what is the recommended method for backing up Qlik Sense system logs?

- A. Export logs from the Qlik Management Console (QMC)
- B. Use Qlik Sense built-in backup feature
- C. Manually copy log files from the server to an external drive
- D. Use a third-party tool to back up the system logs

**Answer: D**

#### NEW QUESTION # 167

A system administrator adds RIM B to a two-node environment using the central node as the proxy. The system administrator is using the default virtual proxy for the central node to access the hub. The system administrator sets up a load balancing rule to have all apps served on both RIM A and RIM B.

The system administrator performs the following steps:

1. Disables the default load balancing rule, "ResourcesOnNonCentralNodes"
2. Creates a new rule with the Resource filter "App\_%" and checks Load balancing
3. Sets the condition to ((node.name="RIM A" or node.name="RIM B"))

The rule is successfully verified. The system administrator has users log in to the hub and open apps to verify that they are opening on RIM B.

However, after multiple users open the same app, there is still NO report of activity on RIM B.

What is causing this issue?

- A. There is a rule overlapping the custom load balancing rule
- B. The filter should be ((node.name="RIM A") and (node.name="RIM B"))
- C. A network connection problem is occurring and the load balancing is NOT working
- D. The RIM B Engine has NOT been added to the virtual proxy

**Answer: D**

#### NEW QUESTION # 168

A Qlik Sense site consists of a single server that runs at approximately 50% of capacity. The Qlik Sense service has recently been upgraded in the organization's criticality matrix. The following new requirements must be met:

- The site must be designed for high availability
- Routine maintenance on a server should NOT impact performance
- A server can have OS patches installed without affecting performance
- A component of a server can be replaced/upgraded without affecting performance

Which two steps should the administrator take

to meet these requirements? (Select two)

- A. Create a second Qlik Sense site with two nodes
- B. Set up a Windows Cluster to distribute user traffic
- C. **Configure a network load balancer to distribute user traffic**
- D. Add a rim node to the existing Qlik Sense site
- E. Configure a reverse proxy to distribute user traffic

**Answer: C,D**

## NEW QUESTION # 169

Many users report to us that they are very fond of writing their own notes while they are learning. This will enhance their memory and make it easier to review. Our QSSA2021 exam questions have created a PDF version of the QSSA2021 practice material to meet the needs of this group of users. You can print the PDF version of the QSSA2021 learning guide so that you can carry it with you. As long as you have time, you can take it out to read and write your own experience.
