

ADA-C02 Latest Test Prep & Valid Dumps ADA-C02 Free

Under the dominance of knowledge-based economy, we should keep pace with the changeable world and renew our knowledge in pursuit of a decent job and higher standard of life. In this circumstance, possessing a ADA-C02 certification in your pocket can totally increase your competitive advantage in the labor market and make yourself distinguished from other job-seekers. Therefore our ADA-C02 Study Guide can help you with dedication to realize your dream. And only after studying with our ADA-C02 exam questions for 20 to 30 hours, you will be able to pass the ADA-C02 exam.

As we always want to do better in this career, our research center has formed a group of professional experts responsible for researching new technology of the ADA-C02 study materials. The technology of the ADA-C02 practice prep will be innovated every once in a while. As you can see, we never stop innovating new version of the ADA-C02 Exam Questions. We really need your strong support. We always adopt the kind and useful advices of our loyal customers who wrote to us and gave us their opinions on their study.

Marvelous ADA-C02 Exam Questions: SnowPro Advanced Administrator ADA-C02 Demonstrate Latest Training Quiz - Lead1Pass

Snowflake certification ADA-C02 exam is a rare examination opportunity to improve yourself and it is very valuable in the IT field. There are many IT professionals to participate in this exam. Passing Snowflake certification ADA-C02 exam can improve your IT skills. Our Lead1Pass provide you practice questions about Snowflake Certification ADA-C02 Exam. Lead1Pass's professional IT team will provide you with the latest training tools to help you realize their dreams earlier. Lead1Pass have the best quality and the latest Snowflake certification ADA-C02 exam training materials and they can help you pass the Snowflake certification ADA-C02 exam successfully.

Snowflake SnowPro Advanced Administrator ADA-C02 Sample Questions (Q23-Q28):

NEW QUESTION # 23

A retailer uses a TRANSACTIONS table (100M rows, 1.2 TB) that has been clustered by the STORE_ID column (varchar(50)). The vast majority of analyses on this table are grouped by STORE_ID to look at store performance. There are 1000 stores operated by the retailer but most sales come from only 20 stores. The Administrator notes that most queries are currently experiencing poor pruning, with large amounts of bytes processed by even simple queries. Why is this occurring?

- A. The table is not big enough to take advantage of the clustering key.
- B. The STORE_ID should be numeric.
- C. The cardinality of the stores to transaction count ratio is too low to use the STORE_ID as a clustering key.
- **D. Sales across stores are not uniformly distributed.**

Answer: D

Explanation:

Clustering is effective when data distribution across the clustering key is relatively uniform. In this case, most transactions are concentrated in only 20 of the 1000 stores, leading to skewed data distribution. This imbalance causes poor pruning, since large portions of micro-partitions still need to be scanned, even for queries targeting specific stores.

NEW QUESTION # 24

If the query matches the definition, will Snowflake always dynamically rewrite the query to use a materialized view?

- A. No, because the materialized view may not be up-to-date.
- **B. No, because the optimizer might decide against it.**
- C. Yes, because materialized views are always faster.
- D. No, because joins are not supported by materialized views.

Answer: B

Explanation:

Even if a query matches the definition of a materialized view, the Snowflake optimizer may decide not to rewrite the query to use it. The optimizer evaluates factors such as freshness, cost, and efficiency before choosing whether or not to substitute the materialized view.

NEW QUESTION # 25

What is a characteristic of Snowflake's transaction locking and concurrency modeling?

- A. If two queries are concurrently executed against the same table, one of the two queries will be blocked until the other query completes.
- B. Transaction locking in Snowflake is enforced exclusively at the row and table levels.
- C. Queries executed within a given transaction see that transaction's uncommitted changes.
- **D. A deadlock cannot occur in Snowflake, since concurrently executed queries and DML statements do not block one another.**

Answer: D

Explanation:

Snowflake uses multi-version concurrency control (MVCC), which allows queries and DML statements to operate without blocking each other. This architecture eliminates the possibility of deadlocks because transactions work on snapshots of data rather than locking rows or tables in ways that could cause contention.

NEW QUESTION # 26

What roles or security privileges will allow a consumer account to request and get data from the Data Exchange? (Choose two.)

- **A. IMPORT SHARE and CREATE DATABASE**
- B. IMPORT PRIVILEGES and SHARED DATABASE
- C. SYSADMIN
- D. SECURITYADMIN
- **E. ACCOUNTADMIN**

Answer: A,E

Explanation:

ACCOUNTADMIN role is required to access and manage Data Exchange listings and shares.

The IMPORT SHARE and CREATE DATABASE privileges are required to create databases from shared data.

NEW QUESTION # 27

A user has enrolled in Multi-factor Authentication (MFA) for connecting to Snowflake. The user informs the Snowflake Administrator that they lost their mobile phone the previous evening.

Which step should the Administrator take to allow the user to log in to the system, without revoking their MFA enrollment?

- A. Alter the user and set `MINS_TO_BYPASS_MFA` to a value that will disable MFA long enough for the user to log in.
- B. Alter the user and set `DISABLE_MFA` to true, which will suspend the MFA requirement for 24 hours.
- C. Instruct the user to append the normal URL with `?mode=mfa_bypass&code=` to log on.
- D. Instruct the user to connect to Snowflake using SnowSQL, which does not support MFA authentication.

Answer: A

Explanation:

The correct step is to use `ALTER USER ... SET MINS_TO_BYPASS_MFA = <minutes>` which temporarily suspends MFA for the specified duration, allowing the user to log in and reconfigure their MFA without revoking enrollment. This preserves MFA setup and is the supported method in Snowflake.

NEW QUESTION # 28

.....

The earlier you get ADA-C02 exam certification, the more helpful for you to have better development in IT industry. Maybe you have heard that the important ADA-C02 exam will take more time or training fee, because you haven't use our ADA-C02 exam software provided by our Lead1Pass. The complex collection and analysis of ADA-C02 Exam Materials have been finished by our professional team for you. You just need to effectively review and pass ADA-C02 exam successfully.

Valid Dumps ADA-C02 Free: <https://www.lead1pass.com/Snowflake/ADA-C02-practice-exam-dumps.html>

Lead1Pass has been on the top of the industry over 10 years with its high-quality ADA-C02 exam braindumps which own high passing rate up to 98 to 100 percent, On the other hand, the money we have invested is meaningful, which helps to renovate new learning style of the ADA-C02 exam, Although at this moment, the pass rate of our ADA-C02 test torrent can be said to be the best compared with that of other exam tests, our experts all are never satisfied with the current results because they know the truth that only through steady progress can our ADA-C02 preparation materials win a place in the field of ADA-C02 exam question making forever, Under the guidance of our ADA-C02 preparation materials, you are able to be more productive and efficient, because we can provide tailor-made exam focus for different students, simplify the long and boring reference books by adding examples and diagrams and our experts will update ADA-C02 guide dumps on a daily basis to avoid the unchangeable matters.

Entering Your First Formula, If I see suspicious signs, like an approach to ADA-C02 solving the problem we never used, an unusual notation, or phrases from Wikipedia, it raises a flag and I may have a conversation with that student.
