Valid Study 350-401 Questions | Implementing Cisco Enterprise Network Core Technologies (350-401 ENCOR) 100% Free Latest Braindumps Ebook

It is important to check the exercises and find the problems. Once you use our 350-401 study prep to aid your preparation of the exam, all of your exercises of the study materials will be carefully recorded on the system of the 350-401 exam braindump. Also, you can know your current learning condition clearly. The results will display your final scores on the screen. Also, you will know the numbers of correct and false questions of your exercise. Our 350-401 Certification Materials can help you transfer into a versatile talent. Many job seekers have successfully realized financial freedom with the assistance of our 350-401 test training. All your dreams will be fully realized after you have obtained the 350-401 certificate. Finding a good paying job is available for you.

Cisco Implementing Cisco Enterprise Network Core Technologies (350-401 ENCOR) Sample Questions (Q39-Q44):

NEW QUESTION # 39

Refer to the exhibit. An engineer implemented several configuration changes and receives the logging message on switch1. Which action should the engineer take to resolve this issue?

- A. Change Switch2 to switch port mode dynamic auto
- B. Change Switch1 to switch port mode dynamic auto
- C. Change the VTP domain to match on both switches
- D. Change Switch1 to switch port mode dynamic desirable

Answer: C

NEW QUESTION # 40

Refer to the exhibit.

```
interface GigabitEthernet1
 ip address 10.10.10.1 255.255.255.0
 !
access-list 10 permit 10.10.10.1
 !
monitor session 10 type erspan-source
 source interface Gi1
 destination
  erspan-id 10
 ip address 192.168.1.1
 !
```

Refer to the exhibit. Which command filters the ERSPAN session packets only to interface GigabitEthernet1?

- A. source ip 10.10.10.1
- B. source interface gigabitethernet1 ip 10.10.10.1
- C. destination ip 10.10.10.1
- D. filter access-group 10

Answer: D

NEW QUESTION # 41

```
ip access-list extended 101
 10 deny ip any any
 !
event manager applet Block Users
 action 1.0 cli command "enable"
 action 2.0 cli command "configure terminal"
 action 3.0 cli command "interface GigabitEthernet1"
 action 4.0 cli command "ip access-group 101 in"
 action 5.0 cli command "ip access-group 101 out"
```

Refer to the exhibit. An engineer builds an EEM script to apply an access list. Which statement must be added to complete the script?

- A. action 2.1 cli command "ip action 3.1 ell command 101"
- B. action 6.0 ell command "ip access-list extended 101"
- C. event none
- D. action 6.0 cli command "ip access-list extended 101"

Answer: C

Explanation:

The script is missing an event to trigger the EEM applet. In Cisco EEM (Embedded Event Manager), an event is a specific occurrence on a network device that is detected by EEM. The "event none" statement is used in EEM scripts when the applet is not triggered by any system events but can be manually run. In this case, since the script aims to apply an access list, it doesn't need to be triggered automatically by any system events but can be invoked as required.

NEW QUESTION # 42

Refer to the exhibit.

An engineer must add the SNMP interface table to the NetFlow protocol flow records. Where should the SNMP table option be added?

- A. under the flow exporter
- B. under the flow record
- C. under the flow monitor
- D. under the interface

Answer: A

Explanation:

option interface-table

This command causes the periodic sending of an options table, which will allow the collector to map the interface SNMP indexes provided in the flow records to interface names. The optional timeout can alter the frequency at which the reports are sent.

Router(config)# flow exporter FLOW-EXPORTER-1

Router(config-flow-exporter)# option interface-table

NEW QUESTION # 43

An engineer must create a script to append and modify device entries in a JSON-formatted file. The script must work as follows:

Until interrupted from the keyboard, the script reads in the hostname of a device, its management IP address, operating system type, and CLI remote access protocol.

After being interrupted, the script displays the entered entries and adds them to the JSON-formatted file, replacing existing entries whose hostname matches.

The contents of the JSON-formatted file are as follows:

Drag and drop the statements onto the blanks within the code to complete the script. Not all options are used.

Answer:

Explanation:

NEW QUESTION # 44

.....

The immediate downloading feature of our 350-401 certification guide is an eminent advantage of our products. Once the pay is done, our customers will receive an e-mail from our company. Our 350-401 exam study materials are available for downloading without any other disturbing requirements as long as you have paid successfully, which is increasingly important to an examinee as he or she has limited time for personal study for the 350-401 Exam. Therefore, our Implementing Cisco Enterprise Network Core Technologies (350-401 ENCOR) guide torrent is attributive to high-efficient learning as you will pass the 350-401 exam only after study for 20 to 30 hours.
