SAP Certified Associate - SAP S/4HANA Cloud Private Edition, Quality Management Sample Questions (Q45-Q50):

NEW QUESTION # 45

You must assign a certificate profile for outgoing certificates to a key combination. What key combination can be used without additional settings?

- A. Material, Customer, Material Group
- B. Customer, Material, Material Group
- C. Material/Customer, Material, Material Group
- D. Material/Customer, Material, Material Type

Answer: D

NEW QUESTION # 46

You post a goods receipt for a purchasing document and inspection type 01 is active in the material master. The supplier has not provided the mandatory quality certificate. Which of the following process steps is possible? Note: There are 2 correct answers to this question.

- A. Recording of inspection results
- B. Recording of defects
- C. Confirmation of certificate receipt after usage decision
- D. Posting of the usage decision

Answer: A,B

NEW QUESTION # 47

You want to use a purchasing process with release stages (for example, first-article, preliminary series, regular procurement) and different inspection plan: for each stage. How do you configure this process?

- A. By assigning a status profile to the business partner
- B. By assigning a status profile to the inspection type settings in the material master
- C. By assigning a status profile to the inspection type settings in customizing
- D. By assigning a status profile to the quality info record: Procurement

Answer: D

NEW QUESTION # 48

You create a complaint against a supplier with reference to the material document year, number, and item.

You create it from a goods receipt for the purchasing document. What information is copied to the notification? Note: There are 3 correct answers to this question.

- A. Material number
- B. Purchasing document number and item

- C. Advanced shipping number
- **D. Inspection lot number**
- E. Reference quantity and unit

Answer: A,B,D

Explanation:

When creating a supplier complaint notification (e.g., Q2) from a goods receipt material document (transaction QM01):

- * Purchasing Document Number and Item (A): The PO number and item are copied from the material document (linked via MIGO), providing the procurement context.
 - * Material Number (B): The material number is transferred to identify the affected product.
 - * Inspection Lot Number (C): If an inspection lot (e.g., type 01) was created during GR, its number is copied to link quality data (SPRO > QM > Quality Notifications > Integration with Inspection Lots).
 - * Reference Quantity and Unit (D): Quantity is referenced but not automatically copied to the notification header/item in standard SAP.
 - * Advanced Shipping Number (E): ASN is logistics-related (e.g., inbound delivery), not typically copied from a material document.
- Thus, "Purchasing document number and item," "Material number," and "Inspection lot number" are the correct answers. References: SAP Help Portal - "Notification Creation from Goods Receipt"; SAP S/4HANA QM User Guide - "Supplier Complaints".

NEW QUESTION # 49

Which valuation mode can be used for a quantitative inspection characteristic? Note: There are 3 correct answers to this question.

- A. Mean value within tolerance range
- **B. Valuation according to characteristic attribute code**
- **C. Attributive inspection number of defects**
- D. Attributive inspection nonconforming units
- **E. Manual valuation**

Answer: B,C,E

NEW QUESTION # 50

.....
