CCSP Latest Test Experience & Best CCSP Study Material

Our CCSP quiz torrent can provide you with a free trial version, thus helping you have a deeper understanding about our CCSP test prep and estimating whether this kind of study material is suitable to you or not before purchasing. With the help of our trial version, you will have a closer understanding about our [CCSP Exam Torrent](#) from different aspects, ranging from choice of three different versions available on our test platform to our after-sales service. After you have a try on our CCSP exam questions, you will love to buy it.

ISC Certified Cloud Security Professional Sample Questions (Q255-Q260):

NEW QUESTION # 255
When designing a cloud data center, which of the following aspects is not necessary to ensure continuity of operations during contingency operations?

- A. Physical access to the data center
- B. **Extended battery backup**
- C. Access to clean water
- D. Broadband data connection

Answer: B

NEW QUESTION # 256
Which of the cloud cross-cutting aspects relates to the ability for a cloud customer to easily remove their applications and data from a cloud environment?

- A. Portability
- B. **Reversibility**
- C. Interoperability
- D. Availability

Answer: B

Explanation:
Explanation
Reversibility is the ability for a cloud customer to easily remove their applications or data from a cloud environment, as well as to ensure that all traces of their applications or data have been securely removed per a predefined agreement with the cloud provider.

NEW QUESTION # 257
Which of the following is not a way to manage risk?

- A. Accepting
- B. Transferring
- C. **Enveloping**
- D. Mitigating

It is not easy for you to make a decision of choosing the CCSP study materials from our company, because there are a lot of study materials about the exam in the market. However, if you decide to buy the CCSP study materials from our company, we are going to tell you that it will be one of the best decisions you have made in recent years. As is known to us, the CCSP Study Materials from our company are designed by a lot of famous experts and professors in the field.

ISC CCSP Exam Syllabus Topics:

Section	Weight	Objectives
Topic 1: Cloud Concepts, Architecture and Design 17%		- Understand cloud computing concepts • 1. Deployment models: public, private, hybrid, community • 2. Definitions, roles and responsibilities • 3. Service models: IaaS, PaaS, SaaS
		- Design secure cloud architectures - Evaluate cloud service providers - Understand security concepts relevant to cloud computing - Understand cloud reference architecture - Understand design principles of secure cloud computing

		- Plan and implement data retention, deletion, and archiving - Implement data discovery and classification - Design and implement cloud data storage architectures - Design and apply data security technologies and strategies
Topic 2: Cloud Data Security	20%	• 1. Data masking, anonymization • 2. Encryption, key management, tokenization - Understand cloud data concepts • 1. Data lifecycle, data location, data flows - Implement information rights management - Comprehend cloud infrastructure components • 1. Physical, network, compute, storage, virtualization
Topic 3: Cloud Platform and Infrastructure Security	17%	- Design and plan security of management plane - Manage physical and logical infrastructure security - Design and secure cloud infrastructure - Plan business continuity and disaster recovery - Understand virtualization and related security risks
Topic 4: Legal, Risk and Compliance	13%	- Understand audit process, methodologies, and required standards - Understand supply chain management - Understand privacy issues - Understand cloud contract design and terms - Understand risk management - Understand legal and regulatory requirements • 1. Data protection, privacy, jurisdiction
Topic 5: Cloud Security Operations	16%	- Build and operate security monitoring and logging - Manage cloud security compliance - Manage security operations - Plan, test, and manage incident response - Plan and implement physical and logical access controls - Understand security operations concepts - Secure application programming interfaces - Assess application security
Topic 6: Cloud Application Security	17%	- Understand cloud software development lifecycle - Understand cloud application architecture and risks - Apply secure software development practices - Identify and validate cloud software security requirements

Test CCSP Quiz | CCSP Latest Exam Cost

Nowadays, using electronic materials to prepare for the exam has become more and more popular, so now, you really should not be restricted to paper materials any more, our electronic CCSP exam torrent will surprise you with their effectiveness and usefulness, and the pass rate of CCSP Practice Test is high as 98% to 100%. I can assure you that you will pass the exam as well as getting the related certification under the guidance of our training materials CCSP as easy as pie.

ISC Certified Cloud Security Professional Sample Questions (Q849-Q854):

NEW QUESTION # 849

Which of the following is NOT something that an HIDS will monitor?

- A. User logins

- B. Configurations
- C. Network traffic
- D. Critical system files

Answer: A

Explanation:

A host intrusion detection system (HIDS) monitors network traffic as well as critical system files and configurations.

NEW QUESTION # 850

Upon completing a risk analysis, a company has four different approaches to addressing risk.

Which approach it takes will be based on costs, available options, and adherence to any regulatory requirements from independent audits.

Which of the following groupings correctly represents the four possible approaches?

- A. Accept, dismiss, transfer, mitigate
- B. Accept, deny, mitigate, revise
- C. Accept, avoid, transfer, mitigate
- D. Accept, deny, transfer, mitigate

Answer: C

Explanation:

The four possible approaches to risk are as follows: accept (do not patch and continue with the risk), avoid (implement solutions to prevent the risk from occurring), transfer (take out insurance), and mitigate (change configurations or patch to resolve the risk). Each of these answers contains at least one incorrect approach name.

NEW QUESTION # 851

Why does the physical location of your data backup and/or BCDR failover environment matter?

- A. Environmental factors such as humidity
- B. It may affect regulatory compliance
- C. It doesn't matter. Data can be saved anywhere without consequence
- D. Lack of physical security

Answer: B

NEW QUESTION # 852

What expectation of data custodians is made much more challenging by a cloud implementation, especially with PaaS or SaaS?

- A. Encryption requirements
- B. Knowledge of systems
- C. Access to data
- D. Data classification

Answer: B

Explanation:

Explanation

Under the Federal Rules of Civil Procedure, data custodians are assumed and expected to have full and comprehensive knowledge of the internal design and architecture of their systems. In a cloud environment, especially with PaaS and SaaS, it is impossible for the data custodian to have this knowledge because those systems are controlled by the cloud provider and protected as proprietary knowledge.

NEW QUESTION # 853

Tokenization requires two distinct _____.

- A. Encryption keys
- B. Personnel
- C. Authentication factors
- **D. Databases**

Answer: D

Explanation:

In order to implement tokenization, there will need to be two databases: the database containing the raw, original data, and the token database containing tokens that map to original data. Having two-factor authentication is nice, but certainly not required. Encryption keys are not necessary for tokenization. Two- person integrity does not have anything to do with tokenization.

NEW QUESTION # 854

.....

You must improve your skills and knowledge to stay current and competitive. You merely need to obtain the CCSP certification exam badge in order to achieve this. You must pass the CCSP Exam to accomplish this, which can only be done with thorough exam preparation. Download the CCSP exam questions right away for immediate and thorough exam preparation.
