

Pass Guaranteed Quiz 2026 Fortinet Reliable NSE4_FGT_AD-7.6 Reliable Exam Materials

Fortinet NSE4_FGT_AD-7.6 exam dumps are important because they show you where you stand. After learning everything related to the Fortinet NSE 4 - FortiOS 7.6 Administrator (NSE4_FGT_AD-7.6) certification, it is the right time to take a self-test and check whether you can clear the NSE4_FGT_AD-7.6 certification exam or not. People who score well on the NSE4_FGT_AD-7.6 Practice Questions are ready to give the final Fortinet NSE 4 - FortiOS 7.6 Administrator (NSE4_FGT_AD-7.6) exam. On the other hand, those who do not score well can again try reading all the NSE4_FGT_AD-7.6 dumps questions and then give the NSE4_FGT_AD-7.6 exam.

Fortinet NSE4_FGT_AD-7.6 Exam Syllabus Topics:

Topic	Details
Topic 1	• Firewall Policies and Authentication: This domain focuses on creating firewall policies, configuring SNAT and DNAT for address translation, implementing various authentication methods, and deploying FSSO for user identification.
Topic 2	• VPN: This domain focuses on implementing meshed or partially redundant IPsec VPN topologies for secure connections.
Topic 3	• Routing: This domain covers configuring static routes for packet forwarding and implementing SD-WAN to load balance traffic across multiple WAN links.
Topic 4	• Deployment and System Configuration: This domain covers initial FortiGate setup, logging configuration and troubleshooting, FGCP HA cluster configuration, resource and connectivity diagnostics, FortiGate cloud deployments (CNF and VM), and FortiSASE administration with user onboarding.
Topic 5	• Content Inspection: This domain addresses inspecting encrypted traffic using certificates, understanding inspection modes and web filtering, configuring application control, deploying antivirus scanning modes, and implementing IPS for threat protection.

Reliable NSE4_FGT_AD-7.6 Exam Registration - Test NSE4_FGT_AD-7.6 Quiz

As the quick development of the world economy and intense competition in the international, the world labor market presents many new trends: company's demand for the excellent people is growing. As is known to us, the NSE4_FGT_AD-7.6 certification is one mainly mark of the excellent. If you want to improve your correct rates of exam, we believe the best method is inscribed according to the fault namely this in appearing weak sports, specific aim ground consolidates knowledge is nodded. Our NSE4_FGT_AD-7.6 Guide Torrent will help you establish the error sets. We believe that it must be very useful for you to take your exam, and it is necessary for you to use our NSE4_FGT_AD-7.6 test questions.

Fortinet NSE 4 - FortiOS 7.6 Administrator Sample Questions (Q106-Q111):

NEW QUESTION # 106

An administrator wanted to configure an IPS sensor to block traffic that triggers the signature set number of times during a specific time period. How can the administrator achieve the objective?

- A. Use IPS group signatures, set rate-mode 60.
- B. Use IPS signatures, rate-mode periodical option.
- C. Use IPS filter, rate-mode periodical option.
- D. Use IPS packet logging option with periodical filter option.

Answer: C

Explanation:

In FortiOS 7.6, if an administrator wants to block traffic only after an IPS signature is triggered a specific number of times within a defined time window, this must be done using IPS filters with rate-based settings.

Why option D is correct

IPS filters allow administrators to match signatures based on attributes such as:

Severity

Protocol

CVE

Signature ID

IPS filters support rate-based actions using:

rate-mode periodical

rate-count

rate-duration

With rate-mode periodical, FortiGate:

Counts how many times a signature is triggered

Within a defined time period

And applies the configured action (for example, block) once the threshold is exceeded This directly matches the requirement:

"block traffic that triggers the signature set number of times during a specific time period." Why the other options are incorrect A .

IPS group signatures, set rate-mode 60 Group signatures do not provide the required per-period rate-based blocking logic.

B . IPS packet logging option

Logging does not enforce blocking behavior.

C . IPS signatures, rate-mode periodical option

Rate-based controls are applied via IPS filters, not directly on individual signature definitions.

NEW QUESTION # 107

Which two components are part of the secure internet access (SIA) agent-based mode on FortiSASE? (Choose two.)

- A. VPN policies
- B. FortiSASE Firewall-as-a-Service (FWaaS)
- C. FortiExtender
- D. The proxy auto-configuration (PAC) file

Answer: A,B

Explanation:

In FortiSASE Secure Internet Access (SIA) agent-based mode, traffic steering and security enforcement rely on components integrated with the FortiClient agent.

Components used in SIA agent-based mode

A . FortiSASE Firewall-as-a-Service (FWaaS)

Correct.

FWaaS is a core security component of FortiSASE.

It enforces firewall policies, security inspection, and access control for agent-based users.

All user traffic tunneled by the agent is inspected by FWaaS.

C . VPN policies

Correct.

In agent-based mode, the FortiClient establishes a secure tunnel to FortiSASE.

VPN policies define:

Authentication

Access control

Traffic steering

These policies are fundamental to agent-based connectivity.

Why the other options are incorrect

B . Proxy auto-configuration (PAC) file

PAC files are used in agentless or proxy-based modes, not agent-based SIA.

D). FortiExtender

FortiExtender is a WAN extension device and is unrelated to FortiSASE SIA agent-based architecture.

NEW QUESTION # 108

An administrator wants to analyze and manage digital certificates to prevent browser warnings when users connect to the SSL VPN portal.

Which two statements describe how to correctly do this? (Choose two.)

- A. The administrator can import the FortiGate self-signed certificate into each user's browser as a trusted certificate.
- B. The administrator can use a publicly trusted certificate from a known certificate authority (CA) to stop browser warnings.
- C. The administrator must disable HTTPS administrative access entirely to avoid certificate warnings.
- D. The administrator can rely on the default FortiGate self-signed certificate to prevent all security warnings in the browser.

Answer: A,B

Explanation:

Using a publicly trusted certificate from a known CA prevents browser warnings without additional user action.

Importing the FortiGate self-signed certificate into users' browsers as trusted eliminates warnings caused by untrusted certificates.

NEW QUESTION # 109

Which two statements are correct when the FortiGate device enters conserve mode? (Choose two.)

- A. FortiGate refuses to accept configuration changes.
- B. FortiGate continues to run critical security actions, such as quarantine.
- C. FortiGate continues to transmit packets without IPS inspection when the fail-open global setting in IPS is enabled.
- D. FortiGate halts complete system operation and requires a reboot to regain available resources.

Answer: A,C

NEW QUESTION # 110

Refer to the exhibits. You have implemented the application sensor and the corresponding firewall policy as shown in the exhibits.

Which two factors can you observe from these configurations? (Choose two.)

- A. YouTube search is allowed based on the Google Application and Filter override settings.
- B. Facebook access is blocked based on the category filter settings.
- C. YouTube access is blocked based on Excessive-Bandwidth Application and Filter override settings.
- D. Facebook access is allowed but you cannot play Facebook videos based on Video/Audio category filter settings.

Answer: B,C

NEW QUESTION # 111

.....

When you first contacted us with NSE4_FGT_AD-7.6 quiz torrent, you may be confused about our NSE4_FGT_AD-7.6 exam question and would like to learn more about our products to confirm our claims. We have a trial version for you to experience. If you encounter any questions about our NSE4_FGT_AD-7.6 learning materials during use, you can contact our staff and we will be happy to serve for you. Maybe you will ask if we will charge an extra service fee. We assure you that we are committed to providing you with guidance on NSE4_FGT_AD-7.6 Quiz torrent, but all services are free of charge. As for any of your suggestions, we will take it into consideration, and effectively improve our NSE4_FGT_AD-7.6 exam question to better meet the needs of clients. In the process of your study, we have always been behind you and are your solid backing. This will ensure that once you have any questions you can get help in a timely manner.
