Google Cloud Certified - Professional Google Workspace Administrator Sample Questions (Q76-Q81):

NEW QUESTION # 76
Your organization has recently gone Google, but you are not syncing Groups yet. You plan to sync all of your Active Directory group objects to Google Groups with a single GCDS configuration.
Which scenario could require an alternative deployment strategy?

- A. Some of the Active Directory groups do not have email addresses.
- B. Some of the Active Directory groups have members external to organization.
- C. Some of the Active Directory groups do not have owners.
- D. Some of your Active Directory groups have sensitive group membership.

Answer: A

Explanation:
https://support.google.com/a/answer/7177266?hl=en
"All groups in a Google domain are referenced by an email address. You must ensure that all the security groups you want to synchronize have a valid mail attribute defined."

NEW QUESTION # 77
Your organization has enabled spoofing protection against unauthenticated domains. You are receiving complaints that email from multiple partners is not being received. While investigating this issue, you find that emails are all being sent to quarantine due to the configured safety setting. What should be the next step to allow uses to review these emails and reduce the internal complaints while keeping your environment secure?

- A. Add your partner domains IPs to the Inbound Gateway setting.
- B. Change the spoofing protection to deliver the emails to spam instead of quarantining them.
- C. Change the spoofing protection to deliver the emails to inboxes with a custom warning instead of quarantining them.
- D. Add your partner sending IP addresses to an allowlist.

Answer: C

Explanation:
Access Admin Console: Log into your Google Workspace Admin Console.
Navigate to Security Settings: Go to Security > Gmail > Safety.
Modify Spoofing Protection: Locate the spoofing protection settings.
Change Delivery Method: Change the setting from quarantining emails to delivering them to inboxes with a custom warning. This way, users can review the emails and determine if they are legitimate while still being alerted to potential issues.
Save Settings: Save the changes to apply the new delivery method.

Google Support: Protect against spoofing & identity deception

NEW QUESTION # 78
Your-company.com recently started using Google Workspace. The CIO is happy with the deployment, but received notifications that some employees have issues with consumer Google accounts (conflict accounts).
You want to put a plan in place to address this concern.
What should you do?

- A. Use the Transfer tool for unmanaged users to find the conflict accounts.
- B. Ask users to request a new Google Workspace account from your local admin.
- C. Rename the accounts to temp@your-company.com, and recreate the accounts.
- D. Use the conflict account remove tool to remove the accounts from Google Workspace.

Answer: A

Explanation:
* Access the Transfer Tool:
* In the Google Workspace Admin console, navigate to "Users" > "Transfer tool for unmanaged users".
* Identify Conflict Accounts:
* Use the tool to search for unmanaged users (conflict accounts) that have email addresses matching your company domain.
* Send Transfer Requests:
* Send transfer requests to the identified unmanaged users, asking them to transfer their accounts to your Google Workspace domain.
* Complete the Transfer:
* Guide the users through the transfer process to ensure their accounts are moved to the managed Google Workspace environment.
* Verify the transfer completion and resolve any remaining conflicts.

NEW QUESTION # 79
Your organization handles a significant amount of sensitive customer data and must follow strict industry regulations. To meet an upcoming compliance deadline, you need to quickly implement a solution that automatically classifies files stored in Google Drive based on the content of files.
What should you do?

- A. Apply Drive labels based on content. Use Google Vault to create retention rules based on Drive labels, ensuring that data is kept for the required duration.
- B. Create data loss prevention (DLP) rules for Drive. Configure the rules to apply Drive labels based on content.
- C. Add users into organizational units (OUs). Configure default file classification in Drive for the desired OUs.
- D. Implement a third-party data governance tool that integrates with Drive and provides advanced classification capabilities.

Answer: B

Explanation:
Data loss prevention (DLP) rules in Google Workspace allow you to automatically classify and label files in Google Drive based on their content, such as identifying sensitive customer data. This ensures compliance by applying the appropriate classification to files as they are stored, allowing you to quickly meet the compliance deadline while automating the classification process based on predefined criteria.

NEW QUESTION # 80
Your organization needs an approval application for purchases where a user can enter information on the purchase required and then submit it for management approval. You need to suggest a solution to create the application that must be available on both the web and mobile devices. Your organization does not have software developers or the budget to hire a third party. What should you do?

- A. Suggest that the organization develop an application internally with a database, a backend service for data retrieval, and a frontend service for the application's user interface.
- B. Suggest the organization use AppSheet to create the application.
- C. Suggest that the organization use AppScript to create forms linked to a Google Sheet to store the purchase data.
- D. Suggest that the organization continue to approve requests manually until budget is available to use a third-party application provider.

Answer: B

Explanation:
AppSheet is a no-code platform that allows users to create custom applications without the need for software development skills. It is capable of building applications that can be used both on the web and mobile devices.
AppSheet would allow the organization to create the approval application efficiently, meeting the requirements of the purchase process, and would be a cost-effective solution that does not require hiring developers or using a third-party application provider.

NEW QUESTION # 81
......

To cope with the fast growing market, we will always keep advancing and offer our clients the most refined technical expertise and excellent services about our Google-Workspace-Administrator exam questions. In the meantime, all your legal rights will be guaranteed after buying our Google-Workspace-Administrator Study Materials. For many years, we have always put our customers in top priority.
