

Exam Sample NS0-185 Questions, NS0-185 Latest Test Vce

Our NS0-185 test braindumps are carefully developed by experts in various fields, and the quality is trustworthy. What's more, after you purchase our products, we will update our NS0-185 exam questions according to the new changes and then send them to you in time to ensure the comprehensiveness of learning materials. We also have data to prove that 99% of those who use our NS0-185 Latest Exam torrent to prepare for the exam can successfully pass the exam and get Network Appliance certification. So if you are preparing to take the test, you can rely on our learning materials. You will also be the next beneficiary. After you get Network Appliance certification, you can get boosted and high salary to enjoy a good life.

Our Exams4sures NS0-185 exam materials provide all candidates with available free Demo. Before you decide to purchase NS0-185 exam materials, we suggest that you should download our Demo. You can check for free demos to see if our exam questions contain what you need for the NS0-185 exam, and you can view other exam applicants' experiences by using our exam materials. Tested and verified - Our NS0-185 Exam Materials were trusted by thousands of candidates. You can visit our recommendation section and read the first-hand experience of verified users. Our NS0-185 exam materials will help you figure out what the actual product will provide you, and whether these features will help future users learn within a week and pass the exam successfully.

Pass Guaranteed Quiz 2026 NS0-185: NetApp Storage Installation Engineer, ONTAP Professional Exam High Hit-Rate Exam Sample Questions

In the PDF version, Exams4sures have included real NS0-185 exam questions. All the Selling NetApp Storage Installation Engineer, ONTAP Professional Exam (NS0-185) exam questionnaires are readable via laptops, tablets, and smartphones. Network Appliance NS0-185 exam questions in this document are printable as well. You can carry this file of Network Appliance NS0-185 PDF Questions anywhere you want. In the same way, Exams4sures update its Selling NetApp Storage Installation Engineer, ONTAP Professional Exam (NS0-185) exam questions bank in the PDF version so users get the latest material for NS0-185 exam preparation.

Network Appliance NetApp Storage Installation Engineer, ONTAP Professional Exam Sample Questions (Q53-Q58):

NEW QUESTION # 53

To ensure that your customer's cluster is robust and operational, you need to be familiar with configuration best practices. Which three practice rules should you always follow? (Choose three.)

- A. Remove failed disk drives once a year to maintain minimum interruption in controller stability.
- **B. Keep all nodes in the cluster on the same version of ONTAP.**
- **C. Do not use the root aggregate for storing data.**
- D. All power supply units should be plugged into the same power grid.
- **E. Use LIFs with defined failover policies.**

Answer: B,C,E

Explanation:

ONTAP SAN solution assessment requires adherence to proven configuration best practices to ensure availability, resiliency, and supportability.

First, all nodes must run the same ONTAP version. Mixed-version clusters are only permitted temporarily during upgrades. Running different versions long-term can cause compatibility issues and is not supported as a steady-state configuration.

Second, LIFs must have defined failover policies. Proper LIF failover ensures that network access is maintained during port, node, or network failures. This is a foundational availability principle in ONTAP networking design.

Third, the root aggregate must never be used for data storage. The root aggregate is reserved exclusively for system metadata and cluster operations. Storing user data on the root aggregate can compromise system stability and is explicitly prohibited in NetApp best practices.

Removing failed disks annually is incorrect; failed disks must be replaced immediately. Plugging all power supplies into the same power grid eliminates redundancy and violates high-availability design principles.

Therefore, the correct answers are A, B, and E.

NEW QUESTION # 54

You are preparing to replace a Cisco Nexus 92300YC switch. You have executed the cluster ping-cluster node1 command and received the output shown in the exhibit.

Which two checks indicate that the cluster is ready for the replacement to be performed? (Choose two.)

- **A. 2 paths up, 0 paths down (UDP check)**
- B. basic connectivity succeeds on 4 path(s)
- **C. 2 paths up, 0 paths down (TCP check)**
- D. larger than PMTU communication succeeds on 4 path(s)

Answer: A,C

Explanation:

For safe cluster switch replacement, ONTAP requires verification that both TCP and UDP connectivity are fully redundant and operational. The output confirms no paths are down, which validates resilience.

NEW QUESTION # 55

Which command would be used to measure the throughput and latency of traffic between nodes?

- A. qos statistics workload performance show
- B. network test-path
- C. statistics node show
- **D. cluster ping-cluster**

Answer: D

Explanation:

The cluster ping-cluster command is specifically designed to test inter-node cluster network connectivity, including latency, packet loss, and throughput between cluster nodes. This command generates synthetic traffic over the cluster interconnect and measures performance characteristics that directly affect cluster health and stability.

The command is commonly used during post-installation validation, cluster expansion, and troubleshooting scenarios involving cluster network performance. It provides insight into whether the cluster interconnect is operating within expected parameters.

Other commands listed do not provide this functionality. QoS workload statistics focus on application-level performance, network

test-path validates reachability for LIF failover paths, and statistics node show reports internal node counters rather than inter-node network performance.

Therefore, the correct answer is B.

NEW QUESTION # 56

Which set of components on a FAS9000 are highlighted in the exhibit?

- A. FCVI-Module, Controller, Serial-Port, FlashCache-Module
- B. Powersupply, Controller, USB-Port, NVRAM-Module
- C. SAS-Module, Controller, USB-Port, FlashCache-Module
- D. NVRAM-Module, Controller, Serial-Port, FlashCache-Module

Answer: D

Explanation:

Understanding hardware components is a core requirement within ONTAP SAN concepts. The exhibit highlights several key components on a FAS9000 system that are essential to system operation and high availability.

The large central components shown are the controllers, which house the CPUs, memory, and network interfaces responsible for data processing and cluster operations. Adjacent to the controllers are the NVRAM modules, which are critical for write caching and data integrity. NVRAM ensures that incoming write operations are safely logged and protected in the event of power loss or controller failover.

The exhibit also highlights the serial ports, which are used for low-level system access during installation, troubleshooting, or recovery scenarios. Serial ports are especially important during initial setup or when network access is unavailable.

Finally, the highlighted FlashCache modules provide read caching functionality. FlashCache accelerates read-intensive workloads by caching frequently accessed data on flash memory, improving overall system performance.

Other options are incorrect because they either include components not highlighted in the exhibit (such as power supplies or USB ports) or misidentify the flash modules. Therefore, the correct set of components shown in the exhibit is NVRAM-Module, Controller, Serial-Port, FlashCache-Module.

NEW QUESTION # 57

You completed a 2-node AFF A700 installation according to the poster. You run the disk show -fields owner command and notice that all drives are assigned to node 1.

In this scenario, which tool would you use to access documentation and guidelines to solve the issue?

- A. Active IQ Unified Manager
- B. Active IQ One Collect
- C. NET2
- D. NetAppDocs

Answer: D

Explanation:

NetAppDocs provides official installation documentation, posters, and step-by-step guidelines. It is the correct resource for resolving disk ownership and installation workflow issues.

NEW QUESTION # 58

.....

Exams4sures is a dumps pdf provider that ensures you pass the Network Appliance braindumps exam with high rate. You may wonder how we can guarantee the high pass rate. You can rest assured that the NS0-185 braindumps questions and learning materials are created by our IT teammates who have rich experience in the NS0-185 Top Questions. And we constantly keep the updating of vce dumps to ensure the accuracy of questions and answers.

NS0-185 Latest Test Vce: <https://www.exams4sures.com/NetworkAppliance/NS0-185-practice-exam-dumps.html>

Also, it will display how many questions of the NS0-185 exam questions you do correctly and mistakenly, Our NS0-185 pass4sure cram can assist you pass the exam in a short time due to high quality and convenience, The passing rate of our NS0-185 exam torrent materials have reached 98-100 percent up to now, which is a rare phenomenon to many company but we did it, And the

questions and answers of our NS0-185 practice materials are closely related with the real exam.

Each lesson builds on everything that's come before, helping you learn all NS0-185 they need to know without ever becoming overwhelmed, Fix your own iPhone, iPad, or iPod with secret repair knowledge Apple doesn't want you to have!

NS0-185 Study Tool Make You Master NS0-185 Exam in a Short Time

Also, it will display how many questions of the NS0-185 Exam Questions you do correctly and mistakenly, Our NS0-185 pass4sure cram can assist you pass the exam in a short time due to high quality and convenience.

The passing rate of our NS0-185 exam torrent materials have reached 98-100 percent up to now, which is a rare phenomenon to many company but we did it, And the questions and answers of our NS0-185 practice materials are closely related with the real exam.

By using our NS0-185 preparation materials, we are sure you will pass your exam smoothly and get your dreamed certification.
