If you are already an employee of a tech company, you get promotions and salary hikes upon getting the FC0-U71 credential. All these career benefits come when you crack the CompTIA FC0-U71 certification examination. To pass the FC0-U71 test, you need to prepare well from updated practice material such as real CompTIA FC0-U71 Exam Questions.

CompTIA Tech+ Certification Exam Sample Questions (Q141-Q146):

NEW QUESTION # 141

A systems administrator requires access to a user's laptop over a VPN for troubleshooting. Which of the following software types should the systems administrator use?

- A. Collaboration
- B. Web browsing
- C. Productivity
- D. **Remote assistance**

Answer: D

Explanation:

When a system administrator needs to troubleshoot a user's laptop remotely, especially over a VPN, they would use remote assistance software. This allows full or partial control over the target system for diagnostic and support tasks.

"Remote assistance software enables support personnel to remotely access and control another computer to perform diagnostics or provide help, often used in IT support scenarios." - CompTIA ITF+ Guide Correct answer: D

NEW QUESTION # 142

Which of the following describes a printer?

- A. Processing
- B. Storage
- C. Input
- D. **Output**

Answer: D

Explanation:

A printer is an output device because it receives digital data from a computer and converts it into a printed physical format (such as paper).

"Output devices display or reproduce information from the computer. Examples include monitors, speakers, and printers." - CompTIA ITF+ Fundamentals
Correct answer: B

NEW QUESTION # 143

A user attempts to log in to a website and receives a prompt to update their password. Which of the following is this an example of?

- A. Password complexity
- B. Password privacy
- C. Password expiration
- D. Password history

Answer: C

Explanation:

This scenario describes a policy where the system enforces password expiration, prompting users to update passwords after a defined period.

"Password expiration is a security policy that requires users to reset their passwords periodically-commonly 30, 60, or 90 days-to mitigate the risk of compromised credentials." - CompTIA ITF+ Objectives
Password privacy refers to keeping the password confidential.

Password history restricts reuse of old passwords.

Password complexity enforces character rules (e.g., uppercase, numbers, symbols).

Correct answer: D

NEW QUESTION # 144

Which of the following components controls how hardware works?

- A. Driver
- B. Process
- C. Interface
- D. Service

Answer: A

NEW QUESTION # 145

Given the following pseudocode:

```
<BODY>
<P>This is a paragraph.</P>
</BODY>
```

Which of the following best represents the type of language used by this code?

- A. Query
- B. Scripting
- C. Markup
- D. Compiled

Answer: C

Explanation:

The code shown uses HTML tags like <BODY> and <P>, which are part of a markup language. Markup languages describe the structure and presentation of text, not logic or computation.

Other options:

*Query languages retrieve data (e.g., SQL),

*Compiled languages are turned into machine code (e.g., C++),

*Scripting languages execute instructions (e.g., Python, JavaScript).

NEW QUESTION # 146
