Our brand has marched into the international market and many overseas clients purchase our AWS-Solutions-Architect-Associate exam dump online. As the saying goes, Rome is not built in a day. The achievements we get hinge on the constant improvement on the quality of our AWS-Solutions-Architect-Associate latest study question and the belief we hold that we should provide the best service for the clients. The great efforts we devote to the Amazon exam dump and the experiences we accumulate for decades are incalculable. All of these lead to our success of AWS-Solutions-Architect-Associate learning file and high prestige.

Learning with our AWS-Solutions-Architect-Associate learning guide is quiet a simple thing, but some problems might emerge during your process of AWS-Solutions-Architect-Associate exam materials or buying. Considering that our customers are from different countries, there is a time difference between us, but we still provide the most thoughtful online after-sale service twenty four hours a day, seven days a week, so just feel free to contact with us through email anywhere at any time. For customers who are bearing pressure of work or suffering from career crisis, AWS Certified Solutions Architect - Associate (SAA-C03) learn tool of inferior quality will be detrimental to their life, render stagnancy or even cause loss of salary. So choosing appropriate AWS-Solutions-Architect-Associate Test Guide is important for you to pass the exam. One thing we are sure, that is our AWS-Solutions-Architect-Associate certification material is reliable.

Reliable Amazon AWS-Solutions-Architect-Associate Test Preparation & AWS-Solutions-Architect-Associate Exam Vce

The Amazon Practice Test engine included with AWS-Solutions-Architect-Associate exam questions simulates the actual AWS-Solutions-Architect-Associate examinations. This is excellent for familiarizing yourself with the AWS Certified Solutions Architect - Associate (SAA-C03) and learning what to expect on test day. You may also use the Amazon AWS-Solutions-Architect-Associate online practice test engine to track your progress and examine your answers to determine where you need to improve on the AWS-Solutions-Architect-Associate exam.

The AWS SAA-C02 exam covers a wide range of topics, including AWS architecture, deployment, security, and cost optimization. AWS-Solutions-Architect-Associate Exam consists of multiple-choice and multiple-answer questions, and candidates have 130 minutes to answer them. To pass the exam, candidates must score at least 720 out of 1000.

Amazon AWS Certified Solutions Architect - Associate (SAA-C03) Sample Questions (Q466-Q471):

NEW QUESTION # 466

A call center application consists of a three-tier application using Auto Scaling groups to automatically scale resources as needed. Users report that every morning at 9:00 AM the system becomes very slow for about 15 minutes. A Solution Architect determines that a large percentage of the call center staff starts work at 9:00 AM, so Auto Scaling does not have enough time to scale out to

meet demand.

How can the Architect fix the problem?

- A. Permanently keep a steady state of instances that is needed at 9:00 AM to guarantee available resources, but leverage Spot Instances.
- B. Use Reserved Instances to ensure the system has reserved the right amount of capacity for the scale-up events.
- **C. Create an Auto Scaling scheduled action to scale out the necessary resources at 8:30 AM every morning.**
- D. Change the Auto Scaling group's scale out event to scale based on network utilization.

Answer: C

NEW QUESTION # 467

A company has an AWS Glue extract, transform, and load (ETL) job that runs every day at the same time. The job processes XML data that is in an Amazon S3 bucket.

New data is added to the S3 bucket every day. A solutions architect notices that AWS Glue is processing all the data during each run.

What should the solutions architect do to prevent AWS Glue from reprocessing old data?

- A. Edit the job to delete data after the data is processed
- **B. Edit the job by setting the NumberOfWorkers field to 1.**
- C. Edit the job to use job bookmarks.
- D. Use a FindMatches machine learning (ML) transform

Answer: B

Explanation:

This is the purpose of bookmarks: "AWS Glue tracks data that has already been processed during a previous run of an ETL job by persisting state information from the job run. This persisted state information is called a job bookmark. Job bookmarks help AWS Glue maintain state information and prevent the reprocessing of old data." <https://docs.aws.amazon.com/glue/latest/dg/monitor-continuations.html>

NEW QUESTION # 468

A company hosts its website on AWS. To address the highly variable demand, the company has implemented Amazon EC2 Auto Scaling. Management is concerned that the company is over-provisioning its infrastructure, especially at the front end of the three-tier application. A solutions architect needs to ensure costs are optimized without impacting performance.

What should the solutions architect do to accomplish this?

- A. Use Auto Scaling with a target tracking scaling policy.
- B. Use Auto Scaling with Reserved Instances.
- **C. Use Auto Scaling with a scheduled scaling policy.**
- D. Use Auto Scaling with the suspend-resume feature

Answer: C

NEW QUESTION # 469

A company wants to run a hybrid workload for data processing. The data needs to be accessed by on-premises applications for local data processing using an NFS protocol, and must also be accessible from the AWS Cloud for further analytics and batch processing.

Which solution will meet these requirements?

- A. Use an AWS Storage Gateway volume gateway in a cached volume configuration to back up all the local storage in the AWS cloud, then perform analytics on this data in the cloud.
- B. Use an AWS storage Gateway tape gateway to copy the backup of the local data to AWS, then perform analytics on this data in the AWS cloud.
- **C. Use an AWS Storage Gateway volume gateway in a stored volume configuration to regularly take snapshots of the local data, then copy the data to AWS.**
- D. Use an AWS Storage Gateway file gateway to provide file storage to AWS, then perform analytics on this data in the

AWS Cloud.

Answer: C

NEW QUESTION # 470

A company runs an environment where data is stored in an Amazon S3 bucket. The objects are accessed frequently throughout the day. The company has strict data encryption requirements for data that is stored in the S3 bucket. The company currently uses AWS Key Management Service (AWS KMS) for encryption.

The company wants to optimize costs associated with encrypting S3 objects without making additional calls to AWS KMS. Which solution will meet these requirements?

- A. Use server-side encryption with customer-provided keys (SSE-C) stored in AWS KMS.
- B. Use client-side encryption with AWS KMS customer managed keys.
- C. Use server-side encryption with Amazon S3 managed keys (SSE-S3).
- **D. Use an S3 Bucket Key for server-side encryption with AWS KMS keys (SSE-KMS) on the new objects.**

Answer: D

Explanation:

An S3 Bucket Key reduces the cost of using AWS KMS for server-side encryption by decreasing the number of requests made to KMS. By enabling S3 Bucket Key, the company can meet its encryption requirements with KMS keys while optimizing costs by reducing the number of KMS API requests.

Key AWS features:

Cost Optimization: S3 Bucket Keys reduce the frequency of KMS calls, optimizing the cost associated with encryption while still using AWS KMS for key management.

Compliance with KMS Encryption: This solution continues to meet the strict encryption requirements of the company by using KMS managed keys.

AWS Documentation: Using an S3 Bucket Key is recommended for organizations looking to optimize encryption costs without compromising security.

NEW QUESTION # 471

.....

The language in our AWS-Solutions-Architect-Associate test guide is easy to understand that will make any learner without any learning disabilities, whether you are a student or a in-service staff, whether you are a novice or an experienced staff who has abundant experience for many years. It should be a great wonderful idea to choose our AWS-Solutions-Architect-Associate Guide Torrent for sailing through the difficult test. On the whole, nothing is unbelievable, to do something meaningful from now, success will not wait for a hesitate person, go and purchase!
