CCSE-204 Actual Collection: CrowdStrike Certified SIEM Engineer - CCSE-204 Quiz Braindumps & CCSE-204 Exam Guide

We know deeply that a reliable CCSE-204 exam material is our company's foothold in this competitive market. High accuracy and high quality are the most important things we always looking for. We understand our candidates have no time to waste, everyone wants an efficient learning. So we take this factor into consideration, develop the most efficient way for you to prepare for the CCSE-204 exam, that is the real questions and answers practice mode, firstly, it simulates the real CrowdStrike Certified SIEM Engineer test environment perfectly, which offers greatly help to our customers. Secondly, it includes printable PDF Format, also the instant access to download make sure you can study anywhere and anytime. All in all, high efficiency of CCSE-204 Exam Material is the reason for your selection.

CrowdStrike Certified SIEM Engineer Sample Questions (Q57-Q62):

NEW QUESTION # 57

You want a Next-Gen SIEM dashboard to update automatically when new data is available. Which action would you take?

- A. Toggle the "Live" button to on
- B. Change the "Start Time" interval to 1 hour
- C. Change the "Relative Time Range" interval to 1 millisecond ago
- D. Change the "Fixed Time Range" to the current date

Answer: A

Explanation:

The correct answer is A. CrowdStrike LogScale documentation says the Live checkbox controls whether dashboard widget queries run as live or static queries. When enabled, the dashboard continuously updates with real-time data, which is exactly what the question asks for.

NEW QUESTION # 58

Review the log sample below:

```
2019-04-17T13:38:20+00:00 MTCOUT3ACT.nycnet 1,2019/04/17 09:38:20,010781000539,THREAT,url,0,2019/04/17
09:38:20,161.185.160.90,68.67.178.196,0.0.0.0,0.0.0.0,DOF Proxies Browsing,,web-
browsing,vsys1,TRUST,UNTRUST,ethernet1/21,ethernet1/23,Panorama_and_Syslog_NC,2019/04/17
09:38:20,1359652,1,63370,80,0,0,0xb000,tcp,alert,"ib.adnxs.com/async_usersync_file", (9999),web-

WOW64; Trident/7.0; rv:11.0) like Gecko,, "10.132.96.87", "http://www.msn.com/?inst=1",,,,0,11,0,0,0,,MTCOUT3ACT,
```

What type of parser should be used to extract fields and values from this log?

- A. CSV
- B. JSON
- C. XML
- D. Key-Value

Answer: A

Explanation:

The sample log is a comma-delimited record with values separated by commas, and some fields are enclosed in quotes. That structure matches CSV-style parsing. In CrowdStrike LogScale, parseCsv() is used for delimited logs where fields appear in a consistent order and are separated by a defined delimiter. This fits the sample shown.

Why the other options are incorrect:

A). XML is incorrect because the log does not use XML tags.

C). JSON is incorrect because the log is not in brace-based key/value JSON format.

D). Key-Value is incorrect because the fields are not expressed as key=value pairs; they are positional comma-separated values instead.

NEW QUESTION # 59

You want a Next-Gen SIEM dashboard to update automatically when new data is available. Which action would you take?

- A. Toggle the "Live" button to on
- B. Change the "Start Time" interval to 1 hour
- C. Change the "Relative Time Range" interval to 1 millisecond ago
- D. Change the "Fixed Time Range" to the current date

Answer: A

NEW QUESTION # 60

Which Falcon LogScale Collector output format would you use if your downstream SIEM requires raw nested event data?

- A. LEEF
- B. JSON
- C. Syslog

- D. CEF

Answer: B

Explanation:

CrowdStrike SIEM Connector and LogScale guidance states that JSON output preserves the raw nested JSON structure of incoming event data. This is the correct choice when a downstream system expects full nested event content instead of flattened key-value pairs. Syslog, CEF, and LEEF are transformation formats intended for compatibility with other log analysis tools and normalized ingestion workflows.

NEW QUESTION # 61

You are a Next-Gen SIEM Engineer responsible for parser creation. An internal requirement is to maintain both the Vendor and ECS field names within the Fields panel in Advanced Event Search.

What is the correct method for adding the ECS field while maintaining the Vendor field in a parser?

- A. Field Function
- B. Regular Expression Field Extraction
- C. As Parameter
- **D. Assignment Operator**

Answer: D

Explanation:

The correct answer is C. Assignment Operator .

In Falcon LogScale parser and query syntax, the assignment operator := is used to assign a value to a new field. CrowdStrike's LogScale documentation explains that := is shorthand for eval, and that it can also be used as shorthand with functions that support an as parameter to assign results to a named output field. This is the right approach when you want to create an ECS field while preserving the existing Vendor field , because you are creating an additional field rather than replacing the original one.

Why the other options are not the best answer:

Regular Expression Field Extraction is used to extract values from raw text when the value is not already parsed, so it is not the normal choice when you already have a Vendor field and simply want to map it to an ECS field as well. As Parameter can name the output field of certain functions, but the CrowdStrike documentation for rename() shows that renaming changes the field name, which does not meet the requirement to keep both field names visible. The rename() examples explicitly state that the original field names are replaced with the new field names.

So for a parser requirement that says "add ECS while maintaining Vendor," the operationally correct method is to assign the Vendor value into a new ECS field , not rename the Vendor field away.

NEW QUESTION # 62

.....

You will gain a clear idea of every CrowdStrike CCSE-204 exam topic by practicing with Web-based and desktop CrowdStrike CCSE-204 practice test software. You can take CrowdStrike CCSE-204 Practice Exam many times to analyze and overcome your weaknesses before the final CrowdStrike CCSE-204 exam.

Test CCSE-204 Price: https://www.braindumpsve.com/CCSE-204_exam-dumps-torrent.html

CrowdStrike Updated CCSE-204 Test Cram After your download online, you can use on offline anywhere, Are you still doubtful about our CCSE-204 training materials, By using CCSE-204 test dumps, you just have to spend 20-30 hours in preparation, CrowdStrike Updated CCSE-204 Test Cram As the old saying goes, everything is hard in the beginning, Because our products are designed by a lot of experts and professors in different area, our CCSE-204 exam questions can promise twenty to thirty hours for preparing for the exam.

The more experiences you get, the better, But how about the idea of CCSE-204 designing for the desktop as if we were designing for a big mobile device, After your download online, you can use on offline anywhere.
