However, the appearance of our CMMC-CCP certification materials will solve your question and change your impression of CMMC-CCP certification exam. You will find it is easy to pass the CMMC-CCP certification exam. What's more, contrary to most of the exam preparation materials available online, the CMMC-CCP certification materials of CMMC-CCP can be obtained at a reasonable price, and its quality and advantages exceed all similar products of our competitors. All our customers have successfully passed the exam. CMMC-CCP certification materials will enable you to obtain the actual certification within days, and will be the best choice for your time and money.

Cyber AB CMMC-CCP Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">• CMMC Governance and Source Documents: This section of the exam measures the capabilities of legal or compliance advisors, covering key regulatory frameworks that govern cybersecurity compliance. Topics include Federal Contract Information, Controlled Unclassified Information, the role of NIST SP 800-171, DFARS, FAR, and the structure and requirements of CMMC v2.0, including self-assessments and certification levels.

Topic 2	<ul style="list-style-type: none"> • CMMC Ecosystem: This section of the exam measures the skills of consultants and compliance professionals and focuses on the different roles and responsibilities across the CMMC ecosystem. Candidates must understand the functions of entities such as the Department of Defense, CMMC-AB, Organizations Seeking Certification, Registered Practitioners, and Certified CMMC Professionals, as well as how the ecosystem supports cybersecurity standards and certification.
Topic 3	<ul style="list-style-type: none"> • CMMC Assessment Process (CAP): This section of the exam measures the planning and execution skills of audit and assessment professionals, covering the end-to-end CMMC Assessment Process. This includes planning, executing, documenting, reporting assessments, and managing Plans of Action and Milestones (POA&M) in alignment with DoD and CMMC-AB methodology.

CMMC-CCP good exam reviews & Cyber AB CMMC-CCP valid exam dumps

We here guarantee that we will never sell the personal information of our candidates. There is no need for you to worry about the individual privacy under our rigorous privacy CMMC-CCP actual test guide. As regards purchasing, our website and CMMC-CCP study files are absolutely safe and free of virus. For further consideration we will provide professional IT personnel to guide your installation and the use of our CMMC-CCP Exam Questions remotely. So you can buy our CMMC-CCP actual test guide without any misgivings. If you have any questions, please you contact us online through the email.

Cyber AB Certified CMMC Professional (CCP) Exam Sample Questions (Q47-Q52):

NEW QUESTION # 47

A Lead Assessor is preparing to conduct a Readiness Review during Phase 1 of the Assessment Process. How much evidence **MUST** be gathered for each practice?

- A. At least 2 Assessment Objects
- B. Evidence to support at least 2 Assessment Methods
- **C. A sufficient amount**
- D. Evidence that is deemed adequate

Answer: C

Explanation:

During a Readiness Review (Phase 1), the purpose is to validate whether an OSC is prepared to move forward with a formal assessment. The CAP specifies that the Lead Assessor must collect sufficient evidence for each practice to make a preliminary determination of readiness.

Supporting Extracts from Official Content:

* CAP v2.0, Readiness Review (§2.14): "The Lead Assessor must collect a sufficient amount of evidence for each practice to determine the OSC's readiness." Why Option A is Correct:

* The requirement is for sufficient evidence; CAP does not mandate a set number of assessment objects or methods.

* Options B, C, and D incorrectly suggest minimum counts or methods that are not part of the readiness review requirements.

References (Official CMMC v2.0 Content):

* CMMC Assessment Process (CAP) v2.0, Phase 1 Readiness Review.

NEW QUESTION # 48

Which NIST SP defines the Assessment Procedure leveraged by the CMMC?

- A. NIST SP 800-53
- B. NISTSP800-53a
- **C. NISTSP800-171a**
- D. NIST SP 800-171

Answer: C

Explanation:

Which NIST SP Defines the Assessment Procedures for CMMC? CMMC Level 2 is directly based on NIST SP 800-171, and the assessment procedures used in CMMC assessments are derived from NIST SP 800-171A.

Step-by-Step Breakdown: #1. NIST SP 800-171A Defines Assessment Procedures NIST SP 800-171A is titled "Assessing Security Requirements for Controlled Unclassified Information (CUI)".

It provides detailed assessment objectives and test procedures for evaluating compliance with NIST SP 800-171 security requirements, which CMMC Level 2 is fully aligned with.

CMMC Assessors use 800-171A as a baseline for assessing the effectiveness of security controls.

#2. Why the Other Answer Choices Are Incorrect:

(A) NIST SP 800-53#

800-53 defines security controls for federal information systems, but it does not provide assessment procedures specific to CMMC.

(B) NIST SP 800-53A#

800-53A provides assessment procedures for 800-53 controls, but CMMC is based on NIST SP 800-171, not 800-53.

(C) NIST SP 800-171#

800-171 defines security requirements, but it does not provide assessment procedures. The assessment procedures are in 800-171A. The CMMC Assessment Guide (Level 2) explicitly states that assessment procedures are derived from NIST SP 800-171A.

Final Validation from CMMC Documentation: Thus, the correct answer is:

NEW QUESTION # 49

A Level 2 Assessment of an OSC is winding down and the final results are being prepared to present to the OSC. When should the final results be delivered to the OSC?

- A. Daily and during a final separately scheduled review
- **B. Either at the final Daily Checkpoint, or during a separately scheduled findings and recommendation review**
- C. Either after approval from the C3PAO. or during a separately scheduled final recommended findings review
- D. At the end of every day of the assessment

Answer: B

Explanation:

Understanding the Reporting Process in a CMMC 2.0 Level 2 Assessment A CMMC Level 2 Assessment conducted by a Certified Third-Party Assessor Organization (C3PAO) follows a structured approach to gathering evidence, evaluating compliance, and reporting findings to the Organization Seeking Certification (OSC). The reporting process is outlined in the CMMC Assessment Process (CAP) Guide, which specifies how findings should be communicated.

* Daily Checkpoints:

* Throughout the assessment, the assessor team holds daily checkpoint meetings with the OSC to provide updates on progress, observations, and preliminary findings.

* These checkpoints help ensure transparency and allow the OSC to address minor issues as they arise.

* Final Results Delivery:

* The final assessment results are typically shared during the final daily checkpoint OR in a separately scheduled findings and recommendations review meeting.

* This ensures that the OSC receives a structured and complete summary of the assessment findings before the official report is submitted.

* The CMMC Assessment Process (CAP) Guide, Section 4.5 clearly states that assessment findings should be presented either at the last daily checkpoint or during a separately scheduled final review.

* This aligns with best practices for maintaining transparency and ensuring the OSC has clarity on their assessment results before the final report submission.

* Option A (End of every day) is incorrect because while assessors do provide updates, they do not deliver the "final results" daily.

* Option B (Daily and a separate final review) is misleading, as the CAP Guide allows assessors to choose between the final daily checkpoint OR a separate findings review-not both.

* Option D (After C3PAO approval) is incorrect because the C3PAO does not approve findings before they are communicated to the OSC. The assessment team directly presents the results first.

* CMMC Assessment Process (CAP) Guide, Section 4.5: Reporting and Findings Communication

* CMMC 2.0 Level 2 Assessment Process Overview

* CMMC Assessment Final Report Guidelines

Assessment Communication Structure Why Option C is Correct Official CMMC Documentation References Final Verification Based

on official CMMC 2.0 documentation, the final assessment results should be presented to the OSC either at the last daily checkpoint or in a separately scheduled review session, making Option C the correct answer.

NEW QUESTION # 50

Which statement BEST describes the key references a Lead Assessor should refer to and use the:

- A. published CMMC Assessment Guide practice descriptions for the desired certification level.
- B. safeguarding requirements from FAR Clause 52.204-21 for a Level 2 Assessment.
- C. DoD adequate security checklist for covered defense information.
- D. CMMC Model Overview as it provides assessment methods and objects.

Answer: A

NEW QUESTION # 51

A CCP is providing consulting services to a company who is an OSC. The CCP is preparing the OSC for a CMMC Level 2 assessment. The company has asked the CCP who is responsible for determining the CMMC Assessment Scope and who validates its CMMC Assessment Scope. How should the CCP respond?

- A. "The OSC determines the CMMC Assessment Scope, and the CCP validates the CMMC Assessment Scope."
- B. "The CMMC Lead Assessor determines the CMMC Assessment Scope, and the OSC validates the CMMC Assessment Scope."
- C. "The CMMC C3PAO determines the CMMC Assessment Scope, and the Lead Assessor validates the CMMC Assessment Scope."
- D. "The OSC determines the CMMC Assessment Scope, and the C3PAO validates the CMMC Assessment Scope."

Answer: D

Explanation:

* In a CMMC Level 2 assessment, the Organization Seeking Certification (OSC) is responsible for identifying the assessment scope based on the CMMC Scoping Guidance provided by the Cyber AB (Cyber Accreditation Body) and DoD.

* The OSC must determine which assets and systems handle Controlled Unclassified Information (CUI) and categorize them accordingly.

Reference:

CMMC Scoping Guidance for Level 2, which outlines asset categorization and scoping considerations.

Step 2: Role of the C3PAO in Scope Validation Once the OSC has determined its CMMC assessment scope, a CMMC Third-Party Assessment Organization (C3PAO) is responsible for validating the scope during the assessment planning phase.

The C3PAO reviews the OSC's scope to ensure it aligns with DoD's scoping guidance, ensuring that all relevant assets, networks, and policies required for CMMC Level 2 certification are correctly identified.

If there are discrepancies, the C3PAO works with the OSC to adjust the scope before proceeding with the assessment.

Reference:

CMMC Assessment Process (CAP) Guide, which describes the scope validation responsibilities of a C3PAO.

Step 3: Why Other Answer Choices Are Incorrect Choice A (Incorrect): A CCP (Certified CMMC Professional) does not have the authority to validate the scope. Their role is to guide and consult, but final validation is the C3PAO's responsibility.

Choice C (Incorrect): The CMMC Lead Assessor (part of the C3PAO team) does not determine the scope; instead, the OSC does.

Choice D (Incorrect): The C3PAO validates the scope but does not determine it—this is the OSC's responsibility.

Final Confirmation of Correct answer: OSC determines the CMMC Assessment Scope.

C3PAO validates the CMMC Assessment Scope.

Thus, the correct answer is B. "The OSC determines the CMMC Assessment Scope, and the C3PAO validates the CMMC Assessment Scope."

NEW QUESTION # 52
