

Pass Guaranteed 2026 300-445: Professional Designing and Implementing Enterprise Network Assurance Valid Dumps Questions

P.S. Free 2026 Cisco 300-445 dumps are available on Google Drive shared by ITExamDownload: <https://drive.google.com/open?id=1hGd2zRj7gdz0ImOB9-JntX3LBM9RfVAy>

Almost those who work in the IT industry know that it is very difficult to prepare for 300-445. Although our ITExamDownload cannot reduce the difficulty of 300-445 exam, what we can do is to help you reduce the difficulty of the exam preparation. Once you have tried our technical team carefully prepared for you after the test, you will not fear to 300-445 Exam. What we have done is to make you more confident in 300-445 exam.

In the information society, everything is changing rapidly. In order to allow users to have timely access to the latest information, our 300-445 real exam has been updated. Our update includes not only the content but also the functionality of the system. The content of the 300-445 training guide is the real questions and answers which are always kept to be the latest according to the efforts of the professionals. And we apply the newest technologies to the system of our 300-445 exam questions.

300-445 Reliable Exam Preparation, Sure 300-445 Pass

Contemporarily, social competitions stimulate development of modern science, technology and business, which revolutionizes our society's recognition to 300-445 exam and affect the quality of people's life. According to a recent report, those who own more than one skill certificate are easier to be promoted by their boss. To be out of the ordinary and seek an ideal life, we must master an extra skill to get high scores and win the match in the workplace. Our 300-445 Exam Question can help make your dream come true. What's more, you can have a visit of our website that provides you more detailed information about the 300-445 guide torrent.

Cisco Designing and Implementing Enterprise Network Assurance Sample Questions (Q19-Q24):

NEW QUESTION # 19

Which agent type is best suited for simulating user interactions with web applications?

- A. Scripting agent
- B. Local collection agent
- C. **Synthetic user agent**
- D. Endpoint agent

Answer: C

Explanation:

A synthetic user agent is specifically designed to simulate user interactions with web applications, making it the most suitable option for this task.

NEW QUESTION # 20

Why is it crucial to set alerting thresholds in network assurance?

- A. To trigger alerts based on predefined conditions
- B. To optimize WAN performance
- C. To monitor real-time traffic
- D. To generate automated reports

Answer: A

Explanation:

Setting alerting thresholds is crucial in network assurance to trigger alerts based on predefined conditions, enabling timely detection and response to network issues.

NEW QUESTION # 21

Which RFC defines the framework for passive performance monitoring in network assurance?

- A. RFC 791
- B. **RFC 7276**
- C. RFC 793
- D. RFC 7799

Answer: B

Explanation:

RFC 7276 defines the framework for passive performance monitoring, providing guidelines for collecting and analyzing network performance data in network assurance.

NEW QUESTION # 22

What is the primary purpose of setting a metric baseline in network assurance?

- A. Maximizing network complexity
- B. Increasing data latency
- C. **Establishing performance benchmarks**
- D. Enhancing hardware durability

Answer: C

Explanation:

The primary purpose of setting a metric baseline is to establish performance benchmarks for comparison and evaluation in network assurance.

NEW QUESTION # 23

Refer to Exhibit:

□ A network engineer is deploying a Cisco ThousandEyes agent to monitor the network for a SaaS application without affecting the performance of the employee endpoints. Which ThousandEyes agent must be deployed to obtain the network metrics from branch A?

- A. Endpoint Agent
- B. Cloud Agent

- C. Enterprise Agent
- D. Application Agent

Answer: C

Explanation:

In the framework of Designing and Implementing Enterprise Network Assurance (300-445 ENNA), selecting the appropriate ThousandEyes agent type is critical to balancing visibility requirements with infrastructure constraints. For Branch A, the primary objective is to gain network-layer metrics (such as latency, packet loss, and jitter) and path visualization for a SaaS application while strictly avoiding any performance impact on employee endpoints.

The Enterprise Agent (Option C) is the correct choice because it is designed for "inside-out" monitoring from within the corporate network environment. These agents are lightweight software probes that can be deployed on existing network infrastructure, such as Cisco Catalyst 9300/9400 switches or Catalyst 8000 Edge Platforms, using Docker containers or virtual machines. By hosting the agent on the branch router or a dedicated local server, the engineer can execute synthetic tests to the SaaS provider's destination. This approach provides the necessary network vantage point from Branch A without requiring any software installation or resource consumption on the individual employee workstations (endpoints).

Other agent types do not satisfy the specific constraints of this scenario:

* Endpoint Agents are installed directly on user devices (Windows/macOS) to provide "last-mile" visibility. However, they use the endpoint's CPU and memory, which contradicts the requirement to not affect endpoint performance.

* Cloud Agents are maintained by Cisco in global ISP data centers. While they provide "outside-in" visibility, they cannot capture internal branch network characteristics or the specific path from Branch A's internal local area network.

* Application Agents is a non-standard term and does not exist as a standalone agent type within the ThousandEyes architecture.

Therefore, deploying an Enterprise Agent within the branch infrastructure ensures that the network engineer obtains high-fidelity network metrics while keeping employee devices entirely unburdened.

Introduction to ThousandEyes

This video provides an essential overview of how ThousandEyes agents function within a CCNP-level enterprise network assurance strategy.

NEW QUESTION # 24

.....

In fact, in real life, we often use performance of high and low to measure a person's level of high or low, when we choose to find a good job, there is important to get the 300-445 certification as you can. Our product is elaborately composed with major questions and answers. We are choosing the key from past materials to finish our 300-445 Guide question. It only takes you 20 hours to 30 hours to do the practice. After your effective practice, you can master the examination point from the 300-445 test question. Then, you will have enough confidence to pass it.

300-445 Reliable Exam Preparation: <https://www.itexamdownload.com/300-445-valid-questions.html>

Cisco 300-445 Valid Dumps Questions Of course, you don't have to worry about the difference in content, If you are really interested in our 300-445 training materials, please rest assured that it is worth the money as our exam content are compiled by experienced experts, People who appear in the test of the Designing and Implementing Enterprise Network Assurance (300-445) certification face the issue of not finding up-to-date and real exam questions, 100% pass exam!

This book not only explains how it is possible for you to make both your Sure 300-445 Pass work life and your personal life better using process improvement and Six Sigma, but it gives you the tools and methods to make it happen.

Cisco - 300-445 –High-quality Valid Dumps Questions

Instead, describe the budget scope and savings you achieved 300-445 using actual numbers, Of course, you don't have to worry about the difference in content, If you are really interested in our 300-445 training materials, please rest assured that it is worth the money as our exam content are compiled by experienced experts.

People who appear in the test of the Designing and Implementing Enterprise Network Assurance (300-445) certification face the issue of not finding up-to-date and real exam questions, 100% pass exam, You can use your smart phones, laptops, the tablet computers or other equipment to download and learn our 300-445 learning materials.
