Based on the SAP Activate methodology, which activities must you perform in the Explore phase? Note:
There are 2 correct answers to this question.

- A. Use the Test system to demonstrate SAP Best Practice processes.
- B. Define the organizational structure and chart of accounts.
- C. Conduct the Digital Discovery Assessment to identify extension requirements.
- D. Conduct the Fit-to-Standard analysis to gather configuration values.

Answer: A,D

Explanation:
Based on the SAP Activate methodology, the Explore phase is where consultants configure business processes based on the information gathered in the Fit-to-Standard workshops. The Fit-to-Standard analysis is conducted in a series of workshops and allows for validation of predefined scenarios agreed upon and to make room for enhancements or additional configuration required. To prepare for this workshop, it is recommended that teams get familiar with the SAP Best Practices content, including the process flows, test scripts with sample data, and other documentation available in SAP Best Practices Explorer. Consultants should also use the Test system to demonstrate SAP Best Practice processes and enable business users to run the end-to-end processes and identify any gaps. The other two activities, conducting the Digital Discovery Assessment and defining the organizational structure and chart of accounts, are part of the Prepare phase, not the Explore phase.
