## Agile-Foundation Reference

As is known to us, different people have different understanding of learning, and also use different methods in different periods, and different learning activities suit different people, at different times of the day. Our PRINCE2-Agile-Foundation test questions are carefully designed by a lot of experts and professors in order to meet the needs of all customers. We can promise that our PRINCE2-Agile-Foundation Exam Question will be suitable for all people, including student, housewife, and worker and so on. No matter who you are, you must find that our PRINCE2-Agile-Foundation guide torrent will help you pass the PRINCE2-Agile-Foundation exam easily.

### PRINCE2 Agile Foundation Sample Questions (Q62-Q67):

#### NEW QUESTION # 62

Which statement describes the Kanban approach?

- A. It was originally focused in creating new companies and is now used to speed up product delivery
- B. It is an iterative timeboxed approach that helps teams generate value
- C. It is used to make system improvements using visualization and by controlling work in progress
- D. It has defined processes, products and roles used to iteratively deliver outputs using timeboxing

**Answer: C**

Explanation:

#### NEW QUESTION # 63

Which describes the Scrum Master role in Scrum?

- A. It is responsible for ensuring that product backlog items are clearly expressed on the product backlog
- B. It is servant-leadership to help everyone change their interactions to maximize the value created by the team
- C. It is empowered to organize and manage its own work to create a valuable, useful increment every sprint
- D. It is authorized to run the project on a day-to-day basis on behalf of the project board

**Answer: A**

#### NEW QUESTION # 64

Why is Lean Startup included in the 'starting up a project' process in PRINCE2 Agile?

- A. Because it enables agile to be used in challenging and uncertain situations
- B. Because it is designed to manage projects, delivering products in timeboxes
- C. Because it explains how a small company can grow using traditional technologies
- D. Because running a project and setting up a new business are the same

**Answer: A**

#### NEW QUESTION # 65

Which technique is used in the 'Issues' practice?

- A. Objectives and key results
- B. Refactoring
- C. Delegation poker
- D. Trading/swapping

**Answer: D**

Explanation:

Trading/swapping is a technique used within the issues practice to manage and resolve conflicts or competing priorities by negotiating

trade-offs. For example, scope items, resources, or deadlines may be traded or swapped between stakeholders to reach agreements that keep the project on track.

This collaborative negotiation supports flexible, pragmatic issue resolution, aligning with agile values of collaboration and customer focus. It enables project teams to balance competing demands while maintaining progress and business justification.

Objectives and key results (B) are goal-setting tools, refactoring (C) is a technical practice for code improvement, and delegation poker (D) is about decision-making authority - none specifically target issue resolution.

Trading/swapping aligns with PRINCE2's controlled management of issues and agile's collaborative problem-solving approach.

Reference: PRINCE2 Agile Foundation Version 2, Section 8.4 "Issues Practice," and PRINCE2 Agile Study Guide, Chapter 8.

## NEW QUESTION # 66

What is the purpose of the 'agile enablement' workshop?

- A. To identify, assess, and plan for risks associated with business as usual
- B. To identify, assess, and plan for risks associated with transitioning products into operations
- C. To identify, assess, and plan for risks associated with project delivery
- D. To identify, assess, and plan for risks associated with agile adoption

### Answer: D

Explanation:

The Agile Enablement Workshop is specifically designed to support the transition of teams and organizations into agile ways of working. Its primary purpose is to identify, assess, and plan for risks related to agile adoption. This includes challenges like cultural resistance, skills gaps, tooling needs, and process adaptations.

The workshop ensures that these risks are proactively managed to smooth the agile transformation and increase the chances of successful agile delivery.

By focusing on agile adoption risks rather than project delivery or business as usual, the workshop addresses the foundational changes required for agility at team and organizational levels. Effective enablement workshops facilitate buy-in, identify training needs, and help tailor agile frameworks to the organization's context.

Reference: PRINCE2 Agile Foundation Version 2, Section 4.4 "Agile Enablement," and PRINCE2 Agile Study Guide, Chapter 4.

## NEW QUESTION # 67

.....

In order to meet the needs of each candidate, the team of IT experts in CramPDF are using their experience and knowledge to improve the quality of exam training materials constantly.
