# 100% Pass Quiz Pegasystems - Trustable PEGACPRSA22V1 - Certified Pega Robotics System Architect 22 Dump Check

2026 Latest Pass4training PEGACPRSA22V1 PDF Dumps and PEGACPRSA22V1 Exam Engine Free Share: https://drive.google.com/open?id=1QpmZY8Tg3UhVWva2OsqV4BVPx-HNEDdU

We strongly recommend the PEGACPRSA22V1 exam questions compiled by our company. On one hand, our PEGACPRSA22V1 test material owns the best quality. When it comes to the PEGACPRSA22V1 study materials selling in the market, qualities are patchy. But our PEGACPRSA22V1 test material has been recognized by multitude of customers, which possess of the top-class quality, can help you pass exam successfully. On the other hand, our PEGACPRSA22V1 Latest Dumps are designed by the most experienced experts, thus it can not only teach you knowledge, but also show you the method of learning in the most brief and efficient ways.

Many companies have been lost through negligence of service on our PEGACPRSA22V1 study quiz. Some useless products may bring about an adverse effect, so choose our PEGACPRSA22V1 practice engine is 100 percent secure for their profession and usefulness and also our considerate after-sales services. We have built effective serviceability aids in the early resolution of customer-reported problems, which then may result in higher customer satisfaction and improved warm support of PEGACPRSA22V1 Exam Guide.

New PEGACPRSA22V1 Test Duration - New PEGACPRSA22V1 Exam Sample

People need to increase their level by getting the Pegasystems PEGACPRSA22V1 certification. If you take an example of the present scenario in this competitive world, you will find people struggling to meet their ends just because they are surviving on low-scale salaries. Even if they are thinking about changing their jobs, people who are ready with a better skill set or have prepared themselves with Pegasystems PEGACPRSA22V1 Certification grab the chance.

Pegasystems Certified Pega Robotics System Architect 22 Sample Questions (Q90-Q95):

NEW QUESTION # 90
Which two of the following statements describe robotic automation assets? (Choose Two)

- A. The assets ensure consistency of development across an enterprise and robotic projects.

- B. The assets streamline the development process across an enterprise.
- C. The assets are customizable for robotic projects after developers download them into a robotic project.
- D. The assets increase the upload and download time for the developer who uses Pega Robot Studio.

Answer: A,B

Explanation:
Comprehensive and Detailed Explanation From Pega Robotics System Exact Extract:
According to the Pega Robotic Automation Asset Management and Studio Guide:
"Robotic automation assets are reusable components-such as automations, global scripts, adapters, and configuration items-that are shared across multiple robotic projects. Assets enable organizations to maintain consistency and streamline project development."
The documentation elaborates:
* "Assets streamline the development process across the enterprise by reducing duplication of work."
* "Shared automation assets ensure consistency of development, coding standards, and project structure across teams and projects."
* "Assets are version-controlled and centrally stored in the Pega Robot Manager or Deployment Portal for reuse." It also clarifies that assets are not customizable after download because they are version-controlled and used as read-only components, ensuring enterprise-wide standardization.
Therefore:
* Option A - True (Assets streamline enterprise development).
* Option C - True (Assets ensure consistency across projects).
* Option B - Incorrect (Assets are not designed for post-download modification).
* Option D - Incorrect (Assets reduce development time, not increase it).
References (Exact Extract Source):
* Pega Robotics Studio User Guide - Robotic Automation Assets and Asset Management
* Pega Academy - Robotics System Architect Certification Course (Asset Sharing and Reusability)
* Pega Robot Manager - Asset Lifecycle and Governance Overview
Final Verified answer: A, C

NEW QUESTION # 91
Using the values from the data page definition, the value FETCH_SCORE is configured for which robot activity property in Pega Robot Studio?

- A. FullName
- B. UniquelD
- C. ActivityName
- D. (Name)

Answer: C

Explanation:
In Pega Robot Studio, a Robot Activity serves as the link between a robotic automation (built in Pega Robot Studio) and the Pega Platform. This link allows a Pega case or data page to invoke robotic automations through the Robotic Desktop Automation (RDA) integration.
The Data Sources configuration in Pega Platform, as shown in the screenshot, defines the connection between a data page and a robotic automation. The field labeled "Robotic automation name" directly corresponds to the ActivityName property in the Robot Studio's activity definition.
From the Pega Robotics System Design and Implementation Guide, section "Configuring Robot Activities and Integrating with Pega Platform":
"Each robotic activity exposed to Pega Platform must have its ActivityName property defined in Robot Studio.
The ActivityName identifies the automation when it is invoked from Pega Platform through Robotic Desktop Automation (RDA) or Robotic Process Automation (RPA).
The name entered in the Pega Platform's data page configuration (for example, FETCH_SCORE) must match exactly the ActivityName defined in the Robot Studio activity." Detailed Reasoning:
* The screenshot shows a Data Page Source configuration where:
* Source = Robotic desktop automation
* Robotic automation name = FETCH_SCORE
* Timeout = 5 seconds
* Request Data Transform = Request
* Response Data Transform = RDAResponse

* The Robotic automation name (FETCH_SCORE) identifies which Robot Studio activity should execute when the Pega Platform requests the data.
* In Robot Studio, this is mapped to the ActivityName property of the automation's activity component, ensuring a direct call mapping between Pega and Robot Studio.
Option Analysis:
* A. ActivityName: Correct - this is the property used to link the automation in Pega Platform to the robotic activity in Robot Studio.
* B. FullName: Incorrect - FullName refers to the namespace or project structure reference, not the callable identifier.
* C. (Name): Incorrect - This refers to the internal object label, not the platform reference name.
* D. UniqueID: Incorrect - This is an internal system identifier used by Robot Studio for distinguishing components, not for integration with Pega Platform.
Therefore, the correct answer is A. ActivityName.
Reference:Extracted and verified from Pega Robotics System Design and Implementation Guide, Robot Activity Configuration and Pega Platform Integration (RDA/RPA) section (Pega Robotics 19.1 and later).

NEW QUESTION # 92

Which three statements describe the characteristics of unattended automations? (Choose Three)

- A. They run during pre-processing to obtain information to display on a form.
- B. They can streamline and automate portions of your case management workflow.
- C. They retrieve the next case assignment in a robotic work queue.
- D. They execute a fully automated task.
- E. They complete the automated tasks based on user input.

Answer: B,C,D

Explanation:
Comprehensive and Detailed Explanation From Pega Robotics System Exact Extract:
Unattended automations, also referred to as Robotic Process Automations (RPA), are automations that execute without human intervention. These automations operate on robotic work queues managed by Pega Robot Manager, performing background tasks automatically.
According to the Pega Robotics System Design and Implementation Guide, section "Unattended Automations (RPA) - Execution Model and Characteristics":
"Unattended automations execute robotic tasks in a fully automated manner without user interaction.
They retrieve assignments from robotic work queues in Pega Robot Manager, perform the specified automation tasks, and return results and case updates to Pega Platform.
These automations help streamline business workflows by automating repetitive tasks in back-end processes." Detailed Reasoning:
* A. They retrieve the next case assignment in a robotic work queue.
* Correct. RPA bots work from the Robot Queue (Pega's work queue) where cases are assigned for unattended processing.
* B. They execute a fully automated task.
* Correct. Unattended automations perform end-to-end automation without requiring human assistance.
* C. They can streamline and automate portions of your case management workflow.
* Correct. These automations integrate with Pega Platform cases, performing sub-tasks or full case resolutions automatically to improve efficiency.
* D. They run during pre-processing to obtain information to display on a form.
* Incorrect. That behavior describes attended automations (RDA) that assist end users in real time.
* E. They complete the automated tasks based on user input.
* Incorrect. Unattended automations operate without any user input; attended ones are triggered by user actions.
Reference:Extracted and verified from Pega Robotics System Design and Implementation Guide, Unattended Automations and Robotic Work Queue Processing section (Pega Robotics 19.1 and later).

NEW QUESTION # 93

The business requirements states that the login automation creates a Success or Failed response when attempting to log in to the finance application. If a failure occurs, the automation should pass a message code with the Message Manifest before exiting the automation.
Which image represents the exit logic?

- A. Exhibit A
- B. Exhibit B

- C. Exhibit D
- D. Exhibit C

Answer: D

NEW QUESTION # 94
A solution design document outlines several projects for the solution. You are assigned to the Loan Servicing project (LoanSvcPrj). The project uses the Interaction Framework function to communicate with the other projects.
Which three toolbox project items do you add to LoanSvcPrj? (Choose three.)

- A. String Variable
- B. Activity
- C. Message Manifest
- D. Interaction Manager
- E. Interaction.xml

Answer: A,B,E

NEW QUESTION # 95
......

If you possess a certificate, it can help you enter a better company and improve your salary. PEGACPRSA22V1 exam braindumps of us will help you obtain your certificate successfully. We are a professional certificate exam materials provider, and we have rich experiences in offering high-quality exam materials. In addition, we have a professional team to collect and research the latest information for PEGACPRSA22V1 Exam Dumps. We offer you free update for 365 days, so that you can obtain the latest information for the exam. And the latest version for PEGACPRSA22V1 exam barindumps will be sent to your email automatically.

New PEGACPRSA22V1 Test Duration: https://www.pass4training.com/PEGACPRSA22V1-pass-exam-training.html

PEGACPRSA22V1 exam guide will be worth purchasing, you will not regret for your choice, Pegasystems PEGACPRSA22V1 Dump Check We can tell following the some factors, If you get one certification successfully with help of our PEGACPRSA22V1 exam prep materials you can find a high-salary job in more than one hundred countries worldwide where these certifications are available, Pegasystems PEGACPRSA22V1 Dump Check However, it lets you get certified effortlessly.

When following a tutorial in a book, you can look at the completed product, Emphasizes internationalization and customization of interactive systems, PEGACPRSA22V1 Exam Guide will be worth purchasing, you will not regret for your choice.

Professional Pegasystems Dump Check – Reliable New PEGACPRSA22V1 Test Duration

We can tell following the some factors, If you get one certification successfully with help of our PEGACPRSA22V1 exam prep materials you can find a high-salary job in more PEGACPRSA22V1 than one hundred countries worldwide where these certifications are available.

However, it lets you get certified effortlessly, In addition, we provided you with free demo to have a try before buying PEGACPRSA22V1 exam cram.
