Latest HCL-DOM-AADM-12 Dumps Sheet, Certified HCL-DOM-AADM-12 Questions

Though there is an HCL-DOM-AADM-12 exam plan for you, but you still want to go out or travel without burden. You should take account of our PDF version of our HCL-DOM-AADM-12 learning materials which can be easily printed and convenient to bring with wherever you go. On one hand, the content of our HCL-DOM-AADM-12 Exam Dumps in PDF version is also the latest just as the other version. On the other hand, it is more convenient when you want to take notes on the point you have good opinion.

HCL Software Academy HCLSoftware Certified Associate Administrator Exam - Notes/Domino 12 Sample Questions (Q70-Q75):

NEW QUESTION # 70

What tool is typically used to perform the initial server configuration after installing the Domino binaries?

- **A. Server Setup Utility**
- B. Domino Administrator Client
- C. Domino Designer
- D. Notes.ini Editor

Answer: A

Explanation:

After the physical installation of the Domino binaries (the "program files") is complete, the server is not yet functional. The administrator must run the Server Setup Utility . This utility (which can be run via a graphical interface or through a web browser in recent versions) guides the administrator through naming the server, establishing the organization, setting up the first administrator, and choosing which initial services (like HTTP or SMTP) to enable.

NEW QUESTION # 71

Which feature within the Domino Administrator Client allows you to replicate databases across servers manually?

- **A. Files > Tools > Replicate**
- B. Server > Status > Replication Queue
- C. Files > Tools > Compact
- D. Configuration > Policies

Answer: A

Explanation:

While replication is typically automated via schedules in Connection documents, administrators can trigger it manually when needed. This is done by navigating to the Files tab in the Domino Administrator Client, selecting the desired database, and choosing the Replicate option from the Tools menu. This manual trigger allows for immediate synchronization of data between a source and destination server.

NEW QUESTION # 72

Which Domino document is used to define the mail routing topology between servers?

- A. Server document
- B. Domain Configuration document
- **C. Connection document**
- D. Person document

Answer: C

Explanation:

A Connection document is the primary tool used in the Domino Directory to define mail routing topology and replication schedules between servers. It specifies the source and destination servers, the connection type (e.g., Local Network), and the specific times when the Router should push mail or when databases should replicate between the two systems.

NEW QUESTION # 73

Which file is automatically updated during Domino server configuration to store environment-specific settings?

- A. admin4.nsf
- **B. notes.ini**
- C. server.id
- D. names.nsf

Answer: B

Explanation:

The notes.ini file is the primary configuration file for an HCL Domino server. During the initial setup and configuration process, the Domino utility automatically updates this file with environment-specific settings, such as the server's name, the path to the data directory, and the specific tasks to be loaded at startup. It serves as the master checklist for how the server behaves every time it boots.

NEW QUESTION # 74

Which tab in the Domino Administrator Client provides tools to manage database replication?

- **A. Files**
- B. People & Groups
- C. Configuration
- D. Messaging

Answer: A

Explanation:

The Files tab in the HCL Domino Administrator client is the primary location for managing physical database files and their replicas. Within this tab, an administrator can select one or more databases and use the Tools pane to access Replication utilities. This allows them to create new replicas, manage existing ones, and manually trigger replication between the local server and a destination server.

NEW QUESTION # 75

.....

We are the fastest to pursue acquiring HCL-DOM-AADM-12 certification; we are the highest to pursue protecting your benefits. Our Exam4Docs ensures the accuracy and the most coverage of HCL-DOM-AADM-12 Certification Exam Dumps. If you purchase HCL-DOM-AADM-12 certification exam dumps, we will ensure that you can get free update service in one year.
