SPLK-1002 Pass Rate | Real SPLK-1002 Exam

Chủ đề part 1:
Topic 1: Where you live now
1. Is the area where you live now a busy or a quiet place? [Why?]
I'd have to say it's a quiet place.
I live in a small and peaceful rural village, which is quite far from the city center. People here usually work or study during the day, so they only have time to rest in the evening. Because of that, the atmosphere is generally calm and not noisy at all, which doesn't disturb anyone.
Besides, most of the people around me are elderly or simply don't enjoy a fast-paced lifestyle, and that's one of the reasons why I really like living here, as I can feel relaxed whenever I'm at home.
2. Have you met many of your neighbors? [Why/Why not?]
Yes, I've met a few of my neighbors, mainly the ones living next door. We don't talk every day, but we greet each other and sometimes have short conversations. I think people nowadays tend to be quite busy, so they don't socialize much with neighbors. Still, everyone is friendly and polite.
What's the best thing about the place where you live now? [Why?]
The best thing about my neighborhood is that it's very convenient but still peaceful. There are supermarkets, coffee shops, and a small park within walking distance. At the same time, it's not noisy or crowded like the city center. This balance makes it a comfortable place to live.
Is there anything you'd like to change about your neighborhood? [Why?]
If I could change one thing, I'd like to have more public spaces, such as parks or sports facilities. At the moment, there aren't many places where people can exercise or relax outdoors. I think having more green areas would improve the quality of life and help people feel healthier.

2.Study
1. Where do you study?
I'm currently studying at a high school in my hometown. It's quite close to my house, so it's convenient for me to travel there every day. I've been studying there for a few years now.
Do you think your school or university is a good place to study? [Why/Why not?] Yes, definitely. I truly believe that my school is an ideal place to study. In my opinion, the most important reason is the teachers' bright and positive personalities. They always create an active classroom atmosphere where students can freely discuss ideas and express their opinions. Besides that, they are always willing to explain things again whenever I don't understand something. Thanks to their guidance, I even ended up getting full marks in some subjects.
3. What do you like most about your studies? [Why?]
What I like most about my studies is that I can learn a wide range of subjects.
This helps me discover what I'm really interested in. In addition, teachers often show us extra materials such as images, documents, or videos that are not

It has similar specifications to the Splunk SPLK-1002 desktop-based practice exam software, but it requires an internet connection. Our Splunk SPLK-1002 practice exam highlights mistakes at the end of each attempt, allowing you to overcome them before it's too late. This kind of approach is great for complete and flawless Splunk SPLK-1002 Test Preparation.

The catch is that passing the Splunk SPLK-1002 exam is not as easy as it seems to be. It requires sheer determination, a thorough understanding of each topic, and critical thinking when posed with tricky problems. That is the reason why Exams-boost have come up with a solution by providing the most updated prep material created under the supervision of 90,0000 experienced Splunk professionals. This SPLK-1002 Exam Dumps is made to polish your abilities, help you understand every topic, and pass you Splunk SPLK-1002 exam on your first attempt.

When you have Exams-boost Splunk SPLK-1002 questions and answers, it will allow you to

have confidence in passing the exam the first time.

Splunk Core Certified Power User Exam Sample Questions (Q166-Q171):

NEW QUESTION # 166
The Splunk CIM Add-on includes data models in a _____ format.
Select your answer.

- A. MySQL
- B. XML
- C. JSON

Answer: C

NEW QUESTION # 167
In the Field Extractor Utility, this button will display events that do not contain extracted fields.
Select your answer.

- A. Selected-Fields
- B. Matches
- C. Non-Matches
- D. Non-Extractions

Answer: C

NEW QUESTION # 168
Which of the following is the correct way to use the data model command to search field in the data model within the web dataset?

- A. Datamodel=web | search web | filed web*
- B. | datamodel web web field | search web*
- C. | Search datamodel web web | filed web*
- D. | datamodel web search | filed web *

Answer: D

Explanation:
The data model command allows you to run searches on data models that have been accelerated1. The syntax for using the data model command is | datamodel <model_name> <dataset_name> [search <search_string>]1.
Therefore, option A is the correct way to use the data model command to search fields in the data model within the web dataset.
Options B and C are incorrect because they do not follow the syntax for the data model command. Option D is incorrect because it does not use the data model command at all.

NEW QUESTION # 169
which of the following commands are used when creating visualizations(select all that apply.)

- A. iplocation
- B. Geom
- C. Geostats
- D. Choropleth

Answer: A,B,C

Explanation:
Explanation
The following commands are used when creating visualizations: geom, geostats, and iplocation.
Visualizations are graphical representations of data that show trends, patterns, or comparisons. Visualizations can have different types, such as charts, tables, maps, etc. Visualizations can be created by using various commands that transform the data into a suitable format for the visualization type. Some of the commands that are used when creating visualizations are:

geom: This command is used to create choropleth maps that show geographic regions with different colors based on some metric. The geom command takes a KMZ file as an argument that defines the geographic regions and their boundaries. The geom command also takes a field name as an argument that specifies the metric to use for coloring the regions.

geostats: This command is used to create cluster maps that show groups of events with different sizes and colors based on some metric. The geostats command takes a latitude and longitude field as arguments that specify the location of the events. The geostats command also takes a statistical function as an argument that specifies the metric to use for sizing and coloring the clusters.

iplocation: This command is used to create location-based visualizations that show events with different attributes based on their IP addresses. The iplocation command takes an IP address field as an argument and adds some additional fields to the events, such as Country, City, Latitude, Longitude, etc. The iplocation command can be used with other commands such as geom or geostats to create maps based on IP addresses.

NEW QUESTION # 170

Which of the following is one of the pre-configured data models included in the Splunk Common Information Model (CIM) add-on?

- A. Access
- B. Accounting
- C. Authorization
- D. Authentication

Answer: D

NEW QUESTION # 171

......
