

2026 The Best 1z0-1042-24–100% Free Latest Dumps Free | 1z0-1042-24 Pass Guaranteed

2026 Latest ValidExam 1z0-1042-24 PDF Dumps and 1z0-1042-24 Exam Engine Free Share: <https://drive.google.com/open?id=1ciwoUp6dXootGi6NBd3JM-CK-pVyI4zF>

The example on the right was a simple widget designed Reliable 1z0-1042-24 Pdf to track points in a rewards program, The pearsonvue website is not affiliated with us, Although computers are great at gathering, manipulating, and calculating raw data, humans prefer their data presented in an orderly fashion. This means keying the shots using a plug-in or specialized New 1z0-1042-24 Exam Question software application, As is most often the case, you will need to expend some effort to deploy security measures, and when they are deployed, you will incur a level of administrative Valid 1z0-1042-24 Exam overhead and operational inconvenience, and may also find that there is an impact to network performance.

Oracle 1z0-1042-24 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Using OIC Connections & Adapters: Candidates must demonstrate their ability to create and configure OIC connections, including trigger and invoke connections. They should be familiar with the Connectivity Agent, which facilitates on-premises connectivity to OIC services.
Topic 2	<ul style="list-style-type: none">Creating Scheduled Integrations: In this section of the exam, candidates are evaluated based on their skills in managing scheduled integrations. This includes converting scheduled integrations to app-driven integrations and understanding the scheduling options within the OIC.
Topic 3	<ul style="list-style-type: none">Testing, Monitoring, and Troubleshooting Integrations: This section assesses candidates abilities in testing, monitoring, and troubleshooting integrations within the OIC.

Topic 4	<ul style="list-style-type: none"> • Creating Orchestrated Integrations: This part of the exam evaluates the candidate's skills in creating and managing orchestrated integrations using OIC. Candidates should be able to manage OIC lookups, use the OIC Data Mapper, and incorporate custom JavaScript libraries into their integrations.
Topic 5	<ul style="list-style-type: none"> • Getting Started with OIC Integrations: This section tests the ability of IT professionals and integration specialists to understand the fundamental components and concepts of Oracle Integration Cloud (OIC). Candidates are expected to describe the key features of OIC integration and explain core integration concepts.

1z0-1042-24 Pass Guaranteed, Valid 1z0-1042-24 Test Objectives

ValidExam is a very good website for Oracle certification 1z0-1042-24 exams to provide convenience. According to the research of the past exam exercises and answers, ValidExam can effectively capture the content of Oracle Certification 1z0-1042-24 Exam. ValidExam's Oracle 1z0-1042-24 exam exercises have a very close similarity with real examination exercises.

Oracle Cloud Infrastructure 2024 Application Integration Professional Sample Questions (Q77-Q82):

NEW QUESTION # 77

You are tasked with testing an integration that uses a REST trigger in Oracle Integration Cloud (OIC). You have successfully configured the REST Adapter, and now you want to verify that the integration functions correctly. What should you do to test the integration?

- A. Export the integration as a .jar file and run it in a local development environment.
- B. Perform a SQL query on the associated database to ensure that the expected data is present.
- C. Manually trigger the integration by sending an email to a specified email address with the required REST parameters.
- **D. Use the "Test" button in the integration designer to create a request, validate the response, and review the execution logs.**

Answer: D

Explanation:

Using the "Test" button is the most effective way to test a REST trigger-based integration in OIC. This method allows for direct interaction with the integration, validation of requests/responses, and access to detailed logs for troubleshooting.

NEW QUESTION # 78

When a connection is in edit mode and the browser crashes, the connection becomes locked, which then prevents it from being edited.

Which two users can unlock the connection?

- A. A user with the Designer Role
- B. Any user
- **C. A user with the Administrator Role**
- **D. The same user who has edited the connection**

Answer: C,D

Explanation:

The connection can be unlocked by the same user who was editing it or by an administrator with broader privileges. Designers or any other user typically lack the permission to unlock a connection.

NEW QUESTION # 79

You are implementing a synchronous Oracle Integration (OIC) integration flow that processes file records within a While loop action. At the end of each loop, you want to delay processing of the next record for a certain period. Which is a valid consideration

when using the Wait action in this scenario?

- A. The maximum wait time cannot exceed 300 seconds.
- B. The Wait action cannot be used in a synchronous flow.
- C. The maximum wait time cannot exceed 20 seconds within a While loop.
- D. The Wait action can only be positioned as the last action within the loop.

Answer: A

Explanation:

Comprehensive and Detailed Explanation:

Wait in Loop:

* C: True-300-second limit applies.

NEW QUESTION # 80

Which is NOT an advantage of using Oracle Integration Cloud (OIC) for creating application integrations?

- A. Prebuilt integrations
- B. Public/Private Cloud portability
- C. User Choice of IDE for development
- D. Auto-association of Oracle SaaS applications
- E. Data mapping recommendations

Answer: C

Explanation:

Comprehensive and Detailed Explanation:

Oracle Integration Cloud (OIC) is a platform designed to simplify and accelerate the creation of integrations between various applications, whether cloud-based or on-premises. Its key advantages include:

* Prebuilt integrations (A): OIC provides a library of prebuilt adapters and integration recipes, reducing development time.

* Auto-association of Oracle SaaS applications (B): OIC seamlessly integrates with Oracle SaaS applications (e.g., HCM, ERP) via adapters, often auto-configuring connection details.

* Public/Private Cloud portability (D): OIC supports hybrid integrations, connecting public cloud services with private/on-premises systems via the Connectivity Agent.

* Data mapping recommendations (E): The OIC mapper provides intelligent suggestions to simplify data transformation between source and target schemas.

However, User Choice of IDE for development (C) is not an advantage because OIC uses a browser-based, low-code design environment rather than offering a choice of external Integrated Development Environments (IDEs) like Eclipse or IntelliJ.

Development is confined to OIC's built-in designer, which prioritizes simplicity over flexibility in tooling. This limitation distinguishes it from platforms where developers can select their preferred IDE.

NEW QUESTION # 81

In Oracle Integration Cloud (OIC), you are working on an integration that uses a REST trigger, which will require authentication. You need to ensure that only authorized clients can access the integration. Which configuration should you apply?

- A. Set up an IP whitelist in the OIC instance, allowing only specific IP addresses to access the integration.
- B. Encrypt the payload using a custom encryption algorithm and provide the decryption key to authorized clients.
- C. Configure the REST adapter with a Basic Authentication or OAuth 2.0 security policy and provide the required credentials.
- D. Enable Cross-Origin Resource Sharing (CORS) and set an API key in the REST adapter configuration.

Answer: C

Explanation:

Comprehensive and Detailed Explanation:

Securing a REST trigger in OIC involves:

* Option B: Configuring the REST adapter with Basic Authentication or OAuth 2.0 ensures only authorized clients with valid credentials can invoke it- the standard approach.

* Option A: CORS controls browser access, not authentication; API keys aren't natively supported here.

* Option C: IP whitelisting is possible but less granular and not adapter-specific.

NEW QUESTION # 82

• • • • •

We have to admit that the processional certificates are very important for many people to show their capacity in the highly competitive environment. If you have the Oracle certification, it will be very easy for you to get a promotion. If you hope to get a job with opportunity of promotion, it will be the best choice chance for you to choose the 1z0-1042-24 Study Materials from our company. Because our study materials have the enough ability to help you improve yourself and make you more excellent than other people.
