What's more, part of that Braindumpsqa EMEA-Advanced-Support dumps now are free: <https://drive.google.com/open?id=19Q081dM3ZVK8I1d2PzENeo1-LEoaRADg>

Now you can think of obtaining any Fortinet certification to enhance your professional career. Braindumpsqa's study guides are your best ally to get a definite success in EMEA-Advanced-Support exam. The guides contain excellent information, exam-oriented questions and answers format on all topics of the certification syllabus. With 100% Guaranteed of Success: Braindumpsqa's promise is to get you a wonderful success in EMEA-Advanced-Support Certification exams. Select any certification exam, EMEA-Advanced-Support dumps will help you ace it in first attempt. No more cramming from books and note, just prepare our interactive questions and answers and learn everything necessary to easily pass the actual EMEA-Advanced-Support exam.

We have handled professional EMEA-Advanced-Support practice materials for over ten years. Our experts have many years' experience in this particular line of business, together with meticulous and professional attitude towards jobs. Their abilities are unquestionable, besides, EMEA-Advanced-Support Exam Questions are priced reasonably with three kinds: the PDF, Software and APP online. Though the content is the same, but their displays are totally different and functionable.

## Reliable EMEA-Advanced-Support Test Materials - Valid Test EMEA-Advanced-Support Tips

Obtaining a certificate may be not an easy thing for some candidates, choose us, we will help you get the certificate easily. EMEA-Advanced-Support learning materials are edited by experienced experts, therefore the quality and accuracy can be guaranteed. In

addition, EMEA-Advanced-Support exam braindumps contain most of the knowledge points for the exam, and you can master the major knowledge points well by practicing. In order to improve your confidence in EMEA-Advanced-Support Exam Materials, we are passing guarantee and money back guarantee. If you fail to pass the exam by using EMEA-Advanced-Support exam materials, we will give you a full refund.

## Fortinet EMEA Advanced Support Exam Sample Questions (Q50-Q55):

### NEW QUESTION # 50

Firewall is performing stateful inspection for TCP traffic between Client 10.0.0.21 and Server 172.16.1.200.

- A. Traffic is Asymmetric and not allowed by the Firewall
- **B. Three way handshake was not completed**
- C. Traffic should be allowed
- D. The ACK was not supposed to be sent to client 10.0.0.21

**Answer: B**

Explanation:

Stateful inspection requires a complete TCP three-way handshake (SYN, SYN-ACK, ACK) to establish a session in the firewall's state table. If the handshake is incomplete (e.g., missing ACK), the session is not established, and traffic is dropped. The question implies a stateful firewall scenario where traffic is blocked, likely due to an incomplete handshake. Asymmetric traffic (B) or incorrect ACK (A) are not indicated without further context, and C is incorrect if the handshake fails. Exact extract: "Stateful inspection ensures that a TCP three-way handshake is completed before allowing traffic... If the handshake is not completed, FortiGate drops the packets as invalid."

### NEW QUESTION # 51

Which FortiGate feature allows for dynamic routing protocol updates to be propagated through an IPsec VPN tunnel?

- A. Virtual Routing and Forwarding (VRF)
- B. Route-based VPN
- **C. Auto Discovery VPN (ADVPN)**
- D. Dynamic Routing Gateway

**Answer: C**

Explanation:

Auto Discovery VPN (ADVPN) in FortiGate enables dynamic routing protocols (e.g., OSPF, BGP) to propagate updates through IPsec VPN tunnels by automatically creating shortcut paths between spokes. This simplifies configuration and enhances scalability in hub-and-spoke topologies. Route-based VPN (D) supports routing but not dynamic discovery, VRF (C) is for segmentation, and Dynamic Routing Gateway (B) is not a standard Fortinet feature. Exact extract: "ADVPN allows dynamic routing protocols to be used over IPsec VPN tunnels, enabling spokes to discover and communicate directly via shortcuts, improving efficiency in hub-and-spoke setups."

### NEW QUESTION # 52

What happens when a FortiGate's CPU enters conserve mode?

- **A. Proxy-based inspection is disabled**
- B. Routing protocols are disabled
- C. New sessions are dropped
- D. All traffic is blocked

**Answer: A**

Explanation:

When a FortiGate's CPU enters conserve mode due to high load, proxy-based inspection (e.g., web filtering, DLP) is disabled to reduce resource usage, while flow-based inspection continues. Traffic isn't fully blocked (A), new sessions may still be processed (C), and routing protocols (D) are unaffected. Exact extract: "In conserve mode, FortiGate disables proxy-based inspection to reduce CPU and memory load, switching to flow-based inspection to maintain performance."

### NEW QUESTION # 53

What is the role of the FortiGate 'set srcintf' command in a firewall policy?

- A. Specifies the source interface for traffic matching
- B. Configures the source NAT interface
- C. Sets the source IP address range
- D. Defines the destination interface for traffic

**Answer: A**

Explanation:

The 'set srcintf' command in a FortiGate firewall policy specifies the source interface from which traffic originates, helping define the policy's scope. It does not set the destination interface (B), source IP range (C), or NAT interface (D). Exact extract: "The 'set srcintf' command in a firewall policy specifies the source interface for incoming traffic, allowing FortiGate to match packets based on their entry interface."

### NEW QUESTION # 54

Which protocol is used by FortiGate to synchronize session tables in an HA cluster?

- A. VRRP
- B. OSPF
- C. BGP
- D. FGCP

**Answer: D**

Explanation:

The FortiGate Cluster Protocol (FGCP) is used to synchronize session tables, configuration, and state information between HA cluster members to ensure seamless failover. VRRP (B) is for router redundancy, OSPF (C) and BGP (D) are routing protocols, not used for HA synchronization. Exact extract: "FGCP synchronizes session tables, configurations, and state information between FortiGate HA cluster members to ensure continuity during failover."

### NEW QUESTION # 55

.....

In order to protect the vital interests of each IT certification exams candidate, Braindumpsqa provides high-quality Fortinet EMEA-Advanced-Support Exam Training materials. This exam material is specially developed according to the needs of the candidates. It is researched by the IT experts of Braindumpsqa. Their struggle is not just to help you pass the exam, but also in order to let you have a better tomorrow.

**Reliable EMEA-Advanced-Support Test Materials:** [https://www.braindumpsqa.com/EMEA-Advanced-Support\\_braindumps.html](https://www.braindumpsqa.com/EMEA-Advanced-Support_braindumps.html)

The software creates a EMEA-Advanced-Support real practice test-like scenario where aspirants face actual EMEA-Advanced-Support exam questions, Top Quality Fortinet NSE EMEA-Advanced-Support Pdf Dumps, And with our EMEA-Advanced-Support exam questions, you will pass the EMEA-Advanced-Support exam without question, The comprehensive study content of our Braindumpsqa's EMEA-Advanced-Support dumps PDF is enough to cater all of your exam needs just at one spot, Some candidates prefer EMEA-Advanced-Support practice exams and some want real EMEA-Advanced-Support questions due to a shortage of time.

For example, Adobe applications have separate folders inside EMEA-Advanced-Support the 'Adobe' folder, If you are interested in making your software development shop a better one, read this book!

The software creates a EMEA-Advanced-Support real practice test-like scenario where aspirants face actual EMEA-Advanced-Support exam questions, Top Quality Fortinet NSE EMEA-Advanced-Support Pdf Dumps.
