ZDTA Quiz Torrent - ZDTA Exam Guide & ZDTA Test Braindumps

Generally speaking, you can achieve your basic goal within a week with our ZDTA study guide. Besides, for new updates happened in this line, our experts continuously bring out new ideas in this ZDTA exam for you. The new supplemental updates will be sent to your mailbox if there is and be free. Because we promise to give free update of our ZDTA Learning Materials for one year to all our

customers.

Zscaler ZDTA Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">This section assesses Data Protection Officers on techniques to secure data across motion, SaaS, cloud, and endpoints using Zscaler's AI-driven data discovery and data protection technologies. It involves securing BYOD environments and understanding risk management to protect sensitive information.
Topic 2	<ul style="list-style-type: none">Identity Services: This section of the exam measures skills of Identity and Access Management Engineers and covers foundational identity services including authentication and authorization protocols such as SAML, SCIM, and OIDC. Candidates should understand identity administration tasks and how to manage policies and audit logs within the Zscaler platform.
Topic 3	<ul style="list-style-type: none">Cyberthreat Protection Services: This domain targets Cybersecurity Analysts and covers broad cybersecurity fundamentals and advanced threat protection capabilities. Candidates must know about malware protection, intrusion prevention systems, command and control channel detection, deception technologies, identity threat detection and response, browser isolation, and incident detection and response. Data Protection Services
Topic 4	<ul style="list-style-type: none">Platform Services: This section measures skills of Cloud Infrastructure Engineers and focuses on the suite of Zscaler platform services. Key topics include advanced device posture assessments, TLS inspection mechanics, and the application of policy frameworks governing internet, private access, and digital experience services.
Topic 5	<ul style="list-style-type: none">Connectivity Services: This domain evaluates Network Security Engineers on configuring and managing connectivity essentials like device posture assessment, trusted network definitions, browser access controls, and TLSSSL inspection deployment. It also includes applying policy frameworks focused on authentication and enforcement for internet access, private access, and digital experience.
Topic 6	<ul style="list-style-type: none">Zscaler Digital Experience: This section evaluates Network Performance Analysts on their knowledge of Zscaler Digital Experience (ZDX), including understanding the ZDX score, architectural overview, features, functionalities, and practical use cases to optimize digital user experiences.

Zscaler Digital Transformation Administrator Sample Questions (Q50-Q55):

NEW QUESTION # 50

What mechanism identifies the ZIA Service Edge node that the Zscaler Client Connector should connect to?

- A. The PAC file used in the Forwarding Profile
- B. The PAC file used in the Application Profile**
- C. The IP ranges included/excluded in the App Profile
- D. The Machine Key used in the Application Profile

Answer: B

Explanation:

The PAC file used in the Application Profile is the mechanism that identifies the ZIA Service Edge node that the Zscaler Client Connector should connect to. The PAC (Proxy Auto-Configuration) file contains rules that direct client traffic to the appropriate service edge based on IP ranges, location, or other criteria.

The study guide explains that the Application Profile's PAC file plays a key role in routing client connections to the nearest or optimal ZIA Service Edge node to ensure efficient traffic forwarding and policy enforcement.

NEW QUESTION # 51

Can URL Filtering make use of Cloud Browser Isolation?

- A. No. Cloud Browser Isolation is only a feature of Advanced Threat Defense.
- B. Yes. After blocking access to a site, the user can manually switch on isolation.
- C. No. Cloud Browser Isolation is a separate platform.
- **D. Yes. Isolate is a possible Action for URL Filtering.**

Answer: D

Explanation:

Yes, URL Filtering can make use of Cloud Browser Isolation. Specifically, "Isolate" is an available action in URL Filtering policies that enables users to access potentially risky or untrusted websites in an isolated environment, preventing any malicious content from reaching the user's device.

The study guide explains that integrating Cloud Browser Isolation into URL Filtering enhances security by isolating risky browsing activities directly from policy enforcement points.

NEW QUESTION # 52

How does a Zscaler administrator troubleshoot a certificate pinned application?

- A. They could look into the SaaS application analytics tab.
- **B. They could look at SSL logs for a failed client handshake.**
- C. They could inspect the ZIA Web Policy.
- D. They could reboot the endpoint device.

Answer: B

Explanation:

Certificate pinning prevents SSL interception by validating a server's certificate against known values. When ZIA performs SSL inspection, it substitutes the certificate with one signed by Zscaler's CA. This causes the handshake to fail for pinned applications. To troubleshoot, an administrator should review SSL logs to identify handshake failures, which indicate certificate pinning issues. Logs will show the TLS negotiation details, including any disruptions.

NEW QUESTION # 53

For a deployment using both ZIA and ZPA set of services, what is the best authentication solution?

- A. Use forms Authentication in ZIA and SAML in ZPA
- B. Use forms Authentication for both ZIA and ZPA
- **C. Configure Authentication using SAML on both ZIA and ZPA**
- D. Use forms Authentication in ZPA and SAML in ZIA

Answer: C

Explanation:

For a unified, seamless experience - and because ZPA only supports SAML while ZIA's recommended authentication is also SAML - you should configure SAML-based SSO on both ZIA and ZPA. This ensures one consistent identity flow and eliminates multiple credential prompts across the platforms.

NEW QUESTION # 54

In support of data privacy about TLS/SSL inspection, when you subscribe to ZIA, you enter into what kind of agreement?

- A. Zscaler Compliance Policy
- B. Acceptable Use Policy
- **C. Zscaler Data Processing Agreement**
- D. Zscaler Privacy Policy

Answer: C

Explanation:

When you sign up for Zscaler Internet Access - and enable TLS/SSL inspection - you enter into Zscaler's Data Processing Agreement, which governs how customer data (including decrypted TLS traffic) is handled in compliance with privacy laws.

NEW QUESTION # 55

.....

We hope you can feel that we sincerely hope to help you. We hope that after choosing our ZDTA study materials, you will be able to concentrate on learning our ZDTA learning guide without worry. It is our greatest honor that you can feel satisfied. Of course, we will value every user. We will never neglect any user. Our ZDTA Exam Braindumps will provide perfect service for everyone.
