

Quiz Palo Alto Networks - Fantastic PCNSE Certificate Exam

P.S. Free & New PCNSE dumps are available on Google Drive shared by ValidDumps: <https://drive.google.com/open?id=19Um0H6PujKmkdJ8gLQvghyPLFacSGrt4>

ValidDumps is a platform that will provide candidates with most effective PCNSE study materials to help them pass their PCNSE exam. It has been recognized by all of our customers, because it was compiled by many professional experts of our website. Not only did they pass their PCNSE Exam but also got a satisfactory score. These are due to the high quality of our PCNSE study torrent that leads to such a high pass rate as more than 98%. You will never feel disappointment about our PCNSE exam questions.

Exam Details and Topics

The certification test is delivered through the official exam administrator, Pearson VUE. The candidates for the test can expect 75 questions to be completed within 80 minutes. The questions cover different formats, including matching, scenario-based with graphics, and multiple choice. The PCNSE Exam is available in two languages: English and Japanese. The individuals should possess product competence as well as a good understanding of the unique areas of the product portfolio of Palo Alto Networks and know how to appropriately deploy at least one of them.

From our PCNSE free demo which allows you free download, you can see the validity of the questions and format of the PCNSE actual test. In addition, the price of the PCNSE dumps pdf is reasonable and affordable for all of you.

Palo Alto Networks Certified Network Security Engineer Exam Sample Questions (Q209-Q214):

NEW QUESTION # 209

A firewall engineer is investigating high dataplane CPU utilization. To decrease the load on this CPU, what should be reduced?

- A. The number of mapped User-ID groups
- B. The timeout value for admin sessions
- C. The number of permitted IP addresses on the management interface

- D. The amount of decrypted traffic

Answer: D

Explanation:

High dataplane CPU utilization is often related to the processing power required for handling decryption tasks. Decrypting traffic (e.g., SSL or TLS traffic) consumes significant CPU resources because the firewall needs to inspect and decrypt encrypted traffic to apply security policies.

Reducing the amount of decrypted traffic can help lower the load on the dataplane CPU.

NEW QUESTION # 210

Which three settings are defined within the Templates object of Panorama? (Choose three.)

- A. Security
- B. Interfaces
- C. Application Override
- D. Virtual Routers
- E. Setup

Answer: B,D,E

Explanation:

Template: network and device. Device Groups = Object and Policies

NEW QUESTION # 211

An administrator accidentally closed the commit window/screen before the commit was finished. Which two options could the administrator use to verify the progress or success of that commit task? (Choose two.)

Receive Time	Type	Severity	Event	Object	Description
06/16 08:41:43	general	Informational	general		User admin accessed Monitor tab
06/16 08:40:40	general	Informational	general		User admin logged in via Web from 192.168.55.1 using https
06/16 08:40:40	auth	Informational	auth-success		authenticated for user 'admin', From: 192.168.55.1.
06/16 08:40:06	general	Informational	general		LOGIN ON tty1 BY admin
06/16 08:39:43	general	Informational	general		User admin logged in via CLI from Console
06/16 08:39:42	auth	Informational	auth-success		authenticated for user 'admin', From: (null).
06/16 08:39:16	uri-filtering	Informational	upgrade-uri-database-success		PAN-DB was upgraded to version 20170615.40151.
06/16 08:34:15	uri-filtering	Informational	upgrade-uri-database-success		PAN-DB was upgraded to version 20170615.40150.
06/16 08:31:44	general	Informational	general		attempted to connect to Panorama Server: 192.168.55.5 Port: 3978 Retry: 0
06/16 08:31:40	ntpd	Informational	restart		restart synchronization performed
06/16 08:31:33	general	Informational	general		Commit job succeeded. Completion time=2017/06/16 05:31:33. JobId=29. User=admin

NEW QUESTION # 212

An administrator needs to assign a specific DNS server to an existing template variable. Where would the administrator go to edit a template variable at the device level?

- A. Variable CSV export under "Panorama > Templates"
- B. PDF Export under "Panorama > Templates"
- C. Manage variables under "Panorama > Templates"
- D. "Managed Devices > Device Association"

Answer: C

NEW QUESTION # 213

Support for which authentication method was added in PAN-OS 7.0?

- A. RADIUS
- B. Diameter
- C. TACACS+
- D. LDAP

Answer: C

Explanation:

Devices now support Terminal Access Controller Access-Control System Plus (TACACS+) protocol for authenticating administrative users. TACACS+ provides greater security than RADIUS insofar as it encrypts usernames and passwords (instead of just passwords), and is also more reliable (it uses TCP instead of UDP).
