

# Newest CMMC-CCP Latest Exam Camp - Pass CMMC-CCP Exam

---

## CMMC CCP Exam 1 Questions & Answers 2025/2026

What score is required to pass the CCP exam - ANSWERS500 out of 800

What is CMMC based on? - ANSWERSNIST 800-171 r2

Who provides the guidance regarding CUI policy and practice - ANSWERSNARA

License the Licensed Partner Publisher (LLP) coursework and provide the infrastructure, delivery and training - ANSWERSLicensed Training Providers (LTP)

Only source for CMMC approved training materials - ANSWERSLicensed Partner Publisher (LLP)

What does DIBCAC stand for - ANSWERSDefense Industrial Base Cybersecurity Contract Management Center

Are RPOs authorized to perform CMMC assessments? - ANSWERSNo, they can consult and help an OSC get prepared for CMMC. They are not authorized to perform the assessment.

What is an Organization Seeking Certification (OSC) - ANSWERSA member or prospective member of the Defense Industrial Base (DIB) involved in the handling and transmission of storage of Federal Contract Information (FCI) or Controlled Unclassified Information (CUI) who will need to adequately protect that information at a level commensurate with the risk

Can a CSPAO work for a company they acted as an RPO for - ANSWERSNo

BTW, DOWNLOAD part of Exam-Killer CMMC-CCP dumps from Cloud Storage: [https://drive.google.com/open?id=176-5gEjbV7\\_vC7-kxD2lAkn25mOBVnOf](https://drive.google.com/open?id=176-5gEjbV7_vC7-kxD2lAkn25mOBVnOf)

The Exam-Killer is a leading platform that has been helping the Certified CMMC Professional (CCP) Exam (CMMC-CCP) exam candidates in exam preparation and boosting their confidence to pass the final CMMC-CCP exam. The Exam-Killer is offering real, valid, and updated Certified CMMC Professional (CCP) Exam (CMMC-CCP) practice questions. These Certified CMMC Professional (CCP) Exam (CMMC-CCP) exam questions are verified by Cyber AB CMMC-CCP exam trainers. They work closely and check all Certified CMMC Professional (CCP) Exam (CMMC-CCP) exam dumps one by one and they ensure the best possible answers to Certified CMMC Professional (CCP) Exam (CMMC-CCP) exam dumps.

Exam-Killer is fully aware of the fact that preparing successfully for the Cyber AB CMMC-CCP exam in one go is a necessity because of the expensive registration fee. For applicants like you, success in the Certified CMMC Professional (CCP) Exam exam on the first attempt is crucial to saving money and time. Our Free Cyber AB CMMC-CCP Exam Questions will help you decide fast to buy the premium ones.

**CMMC-CCP Actual Tests & CMMC-CCP Download Demo**

As long as you spend less time on the game and spend more time on learning, the CMMC-CCP study materials can reduce your pressure so that users can feel relaxed and confident during the preparation and certification process on the CMMC-CCP exam. It is believed that many users have heard of the CMMC-CCP Latest preparation materials from their respective friends or news stories. Our CMMC-CCP exam questions are valid and reliable. So why don't you take this step and try on our CMMC-CCP study guide? You will not regret your wise choice.

## **Cyber AB Certified CMMC Professional (CCP) Exam Sample Questions (Q66-Q71):**

### **NEW QUESTION # 66**

Which statement BEST describes an assessor's evidence gathering activities?

- A. Test certain assessment objectives to determine findings.
- B. Use interviews for assessing a Level 2 practice.
- C. Test all practices or objectives for a Level 2 practice
- D. Use examinations, interviews, and tests to gather sufficient evidence.

### **Answer: D**

Explanation:

Under the CMMC Assessment Process (CAP) and CMMC 2.0 guidelines, assessors must gather objective evidence to validate that an organization meets the required security practices and processes. This evidence collection is performed through three primary assessment methods:

- \* Examination- Reviewing documents, records, system configurations, and other artifacts.
- \* Interviews- Speaking with personnel to verify processes, responsibilities, and understanding of security controls.
- \* Testing- Observing system behavior, performing technical validation, and executing controls in real-time to verify effectiveness.
- \* The CMMC Assessment Process (CAP) states that an assessor must use a combination of evidence-gathering methods (examinations, interviews, and tests) to determine compliance.
- \* CMMC 2.0 Level 2 (Aligned with NIST SP 800-171) requires assessors to verify not only that policies and procedures exist but also that they are implemented and effective.
- \* Solely relying on one method (like interviews in Option A) is insufficient.
- \* Testing all practices or objectives (Option B) is unnecessary, as assessors follow scoping guidance to determine which objectives need deeper examination.
- \* Testing only "certain" objectives (Option C) does not fully align with the requirement of gathering sufficient evidence from multiple methods.
- \* CMMC Assessment Process (CAP) Guide, Section 3.5 - Assessment Methods explicitly defines the use of examinations, interviews, and tests as the foundation of an effective assessment.
- \* CMMC 2.0 Level 2 Practices and NIST SP 800-171 require assessors to validate the presence, implementation, and effectiveness of security controls.
- \* CMMC Appendix E: Assessment Procedures states that an assessor should use multiple sources of evidence to determine compliance.

Why Option D is Correct: CMMC 2.0 and Official Documentation References Final Verification To ensure compliance with CMMC 2.0 guidelines and official documentation, an assessor must use examinations, interviews, and tests to gather evidence effectively, making Option D the correct answer.

### **NEW QUESTION # 67**

Which term describes the prevention of damage to, protection of, and restoration of computers and electronic communications systems/services, including information contained therein, to ensure its availability, integrity, authentication, confidentiality, and nonrepudiation?

- A. Information security
- B. Network security
- C. Data security
- D. Cybersecurity

### **Answer: D**

Explanation:

The term that describes "the prevention of damage to, protection of, and restoration of computers and electronic communication systems/services, including information contained therein, to ensure its availability, integrity, authentication, confidentiality, and nonrepudiation?"

repudiation" is Cybersecurity.

Step-by-Step Breakdown:#1. Cybersecurity Defined

\* Cybersecurity focuses on protecting networks, systems, and data from cyber threats.

\* It includes measures to ensure:

\* Availability (data is accessible when needed).

\* Integrity (data is accurate and unaltered).

\* Authentication (verifying users' identities).

\* Confidentiality (ensuring only authorized access).

\* Non-repudiation (preventing denial of actions).

\* The definition in the question aligns directly with cybersecurity principles, making it the best answer.

#2. Why the Other Answer Choices Are Incorrect:

\* (B) Data Security#

\* Data security focuses specifically on protecting stored information (e.g., encryption, access controls), but cybersecurity is broader—it includes networks, systems, and communication services.

\* (C) Network Security#

\* Network security is a subset of cybersecurity that focuses on protecting network infrastructure (e.g., firewalls, intrusion detection systems).

\* The definition in the question includes more than just networks, so cybersecurity is the better choice.

\* (D) Information Security#

\* Information security (InfoSec) is related but broader than cybersecurity.

\* InfoSec covers physical and organizational security (e.g., policies, procedures) in addition to digital protections.

\* CMMC and NIST SP 800-171 define cybersecurity as the protection of systems, networks, and data from cyber threats.

\* DoD Cybersecurity Definitions (aligned with NIST) confirm that cybersecurity is the term that best fits the definition in the question.

Final Validation from CMMC Documentation:

## NEW QUESTION # 68

An OSC receives an email with "CUI//SP-PRVCY//FED Only" in the body of the message. Which organization's website should the OSC go to identify what this marking means?

- A. DoD Contractors FAQ page
- B. DoD 239.7601 Definitions page
- C. CMMC-AB
- D. NARA

**Answer: D**

## NEW QUESTION # 69

An assessment is being conducted at a remote client site. For the duration of the assessment, the client has provided a designated hoteling space in their secure facility which consists of a desk with access to a shared printer. After noticing that the desk does not lock, a locked cabinet is requested but the client does not have one available. At the end of the day, the client provides a printout copy of an important network diagram. The diagram is clearly marked and contains CUI. What should be done NEXT to protect the document?

- A. Put it in the unlocked desk drawer for review the following morning.
- B. Take a picture with the personal phone before securely shredding it.
- C. Take it with them to review in the evening.
- D. Leave it on the desk for review the following day.

**Answer: B**

Explanation:

Understanding CUI Handling and Storage Requirements Controlled Unclassified Information (CUI) must be protected from unauthorized access and properly stored per CMMC 2.0 Level 2 requirements and NIST SP 800-171 controls. Key requirements include:

NIST SP 800-171 (Requirement 3.8.3)- CUI must be physically protected when not in use.

NIST SP 800-171 (Requirement 3.1.3)- CUI access should be restricted to authorized personnel only.

DoD CUI Program Guidance- If proper storage (e.g., locked cabinets or controlled access areas) is unavailable, CUI should be returned to an authorized individual or secure facility.

A). Take it with them to review in the evening # Incorrect

CUI should never be removed from a secure facility unless explicitly authorized and handled in accordance with security policies (e.g., encrypted electronic transport, secure physical storage).

B). Leave it on the desk for review the following day # Incorrect

Leaving CUI unattended on an open desk violates CUI physical protection requirements.

C). Put it in the unlocked desk drawer for review the following morning # Incorrect An unlocked drawer does not meet CUI physical security storage requirements.

D). Take a picture with the personal phone before securely shredding it # Incorrect Storing CUI on an unauthorized personal device is a serious security violation and unauthorized reproduction of CUI is prohibited.

Why None of the Provided Answers Are Fully Correct

What Should Be Done Instead? # Return the document to the client for secure storage.

Since no secure storage option is available, the document must be returned to the client, who should store it in an approved secure location (e.g., a locked cabinet or classified storage area).

The assessment team should not retain CUI unless they have an approved method of safeguarding it.

NIST SP 800-171 (Requirement 3.8.3 - Media Protection)

Requires CUI to be physically secured when not in use.

DFARS 252.204-7012 (Safeguarding Covered Defense Information and Cyber Incident Reporting) Establishes CUI storage and handling protections.

CMMC 2.0 Level 2 (Advanced) Requirements

Requires organizations to implement physical security controls to protect CUI.

DoD CUI Program Guidelines

Clearly state that CUI must be stored in locked cabinets or controlled-access areas when not actively in use.

CMMC 2.0 References Supporting This Answer

Final Answer # None of the provided answers fully comply with CUI protection requirements. The best course of action is to return the document to the client for secure storage.

## NEW QUESTION # 70

Prior to conducting a CMMC Assessment, the contractor must specify the CMMC Assessment scope by categorizing all assets. Which two asset categories are always assessed against CMMC practices?

- A. Security Protection Assets and Contractor Risk Managed Assets
- B. CUI Assets and Specialized Assets
- **C. Security Protection Assets and CUI Assets**
- D. Specialized Assets and Contractor Risk Managed Assets

**Answer: C**

Explanation:

Understanding CMMC Asset Scoping Requirements Before conducting a CMMC Level 2 Assessment, an organization seeking certification (OSC) must define the assessment scope by categorizing all assets. This ensures that only relevant systems are assessed against CMMC practices, reducing unnecessary compliance burdens.

According to the CMMC Scoping Guide for Level 2, there are four asset categories:

CUI Assets- Assets that process, store, or transmit controlled unclassified information (CUI).

Security Protection Assets (SPA)- Assets that provide security functions (e.g., firewalls, intrusion detection systems, identity management systems).

Contractor Risk Managed Assets (CRMA)- Assets that do not directly store/process CUI but interact with CUI environments (e.g., BYOD devices, personal computers used for remote access).

Specialized Assets- Unique systems such as Operational Technology (OT), IoT, and Government Furnished Equipment (GFE), which may require limited CMMC assessment.

Which Asset Categories Are Always Assessed? # 1. CUI Assets (ALWAYS ASSESSED) These are the primary focus of CMMC Level 2 since they handle CUI.

All 10 NIST SP 800-171 controls apply to these assets.

# 2. Security Protection Assets (SPA) (ALWAYS ASSESSED)

Security tools that protect CUI assets are always included in the assessment.

Examples include firewalls, antivirus, endpoint detection and response (EDR) tools, and identity management systems.

(A) CUI Assets and Specialized Assets #

CUI Assets are assessed, but Specialized Assets are only assessed in a limited manner, depending on their role in CUI security.

(C) Specialized Assets and Contractor Risk Managed Assets #

Specialized Assets and CRMAs are typically not fully assessed against CMMC controls unless they directly impact CUI security.

(D) Security Protection Assets and Contractor Risk Managed Assets #

SPAs are always assessed, but CRMAs are not necessarily assessed unless they directly impact CUI.

The CMMC Scoping Guide (Level 2) clearly states that CUI Assets and Security Protection Assets are always assessed against CMMC practices.

Why the Other Answer Choices Are Incorrect: Final Validation from CMMC Documentation: Thus, the correct answer is:

B). Security Protection Assets and CUI Assets.

## NEW QUESTION # 71

.....

If I tell you, you can get international certification by using CMMC-CCP preparation materials for twenty to thirty hours. You must be very surprised. However, you must believe that this is true! You can ask anyone who has used CMMC-CCP Actual Exam. We can receive numerous warm feedbacks every day. Our reputation is really good. After you have learned about the achievements of CMMC-CCP study questions, you will definitely choose us!

**CMMC-CCP Actual Tests:** <https://www.exam-killer.com/CMMC-CCP-valid-questions.html>

Moreover CMMC-CCP exam dumps are famous for high quality, and you can pass the exam just one time, We strive to use the simplest language to make the learners understand our CMMC-CCP exam reference and the most intuitive method to express the complicated and obscure concepts, Our CMMC-CCP exam dumps materials completely satisfy your demands, The moment you money has been transferred to our account, and our system will send our CMMC-CCP Exam Cram Sheet training dumps to your mail boxes so that you can download CMMC-CCP Exam Cram Sheet exam questions directly.

Sometimes, you may worry about too much on the CMMC-CCP exam and doubt a lot on the CMMC-CCP exam questions, Understanding the Support Center, Moreover CMMC-CCP exam dumps are famous for high quality, and you can pass the exam just one time.

## CMMC-CCP - Certified CMMC Professional (CCP) Exam –Reliable Latest Exam Camp

We strive to use the simplest language to make the learners understand our CMMC-CCP Exam Reference and the most intuitive method to express the complicated and obscure concepts.

Our CMMC-CCP exam dumps materials completely satisfy your demands, The moment you money has been transferred to our account, and our system will send our CMMC-CCP Exam Cram Sheet training dumps to your mail boxes so that you can download CMMC-CCP Exam Cram Sheet exam questions directly.

When prepare for the Cyber AB CMMC CMMC-CCP pass4sure exam test, you may do thankless thing, such as, buy some wrong pieces wasting your time and hard earned money.
