We deeply believe that our latest C-S4PM-2504 exam torrent will be very useful for you to strength your ability, pass your exam and get your certification. Our study materials with high quality and high pass rate in order to help you get out of your harassment. So, act now! Use our C-S4PM-2504 Quiz prep.

### **SAP Certified Associate - Managing SAP S/4HANA Cloud Public Edition Projects Sample Questions (Q74-Q79):**

#### **NEW QUESTION # 74**

You are defining the testing strategy for your project.

What would you include in a Scope of Integration test? Note: There are 2 correct answers to this question.

- A. The functionality of end-to-end business processes**
- B. The connectivity between database and application servers
- C. The procedures for data migration
- D. The connectivity with other systems**

**Answer: A,D**

#### **NEW QUESTION # 75**

What are some purposes of using Business Driven Configuration Questionnaires (BDCQs) during the implementation of SAP S/4HANA Cloud Public Edition? Note: There are 2 correct answers to this question.

- A. To ensure the appropriate level of business context for the Fit-to-Standard workshop**
- B. To gather configuration values and validate solution fit**
- C. To suggest new features in the SAP S/4HANA Cloud, Public Edition solution
- D. To reduce the need for customer involvement

**Answer: A,B**

#### **NEW QUESTION # 76**

What can you find in the SAP Fiori apps reference library?

Note: There are 3 correct answers to this question.

- A. Shortcut to the Quicksizer tool to estimate hardware requirements
- B. Related app-specific solution design guidelines
- C. Installation and configuration requirements for selected apps
- D. Related app recommendations based on your usage profile
- E. Shortcut to the Maintenance Planner tool to establish the technical update path

**Answer: B,C,D**

#### **NEW QUESTION # 77**

Why does SAP recommend to perform regression testing during the upgrade window for SAP S/4HANA Cloud Public Edition?

- A. To confirm that the database schema changes have been implemented successfully
- B. To validate that all user permissions have been properly migrated to the new version
- C. To ensure that new features of the upgrade are working as specified in the requirements
- D. To verify existing functionality still works correctly after the upgrade

**Answer: D**

#### **NEW QUESTION # 78**

When estimating effort required for an SAP S/4HANA Cloud Public Edition implementation project, what can you use to validate your estimates? Note: There are 2 correct answers to this question.

- A. Existing WBS structures
- B. The Digital Discovery Assessment
- C. Integration scenarios via the Business Accelerator Hub
- D. Joule studio

**Answer: A,B**

Explanation:

Estimating effort for an SAP S/4HANA Cloud Public Edition implementation requires tools and references to ensure accuracy. Validation of these estimates leverages specific SAP accelerators and project management artifacts.

\* Option A: The Digital Discovery AssessmentCorrect. The Digital Discovery Assessment (DDA) provides insights into project scope, complexity, and requirements, serving as a baseline for effort estimation. The SAP S/4HANA Cloud Implementation Guide states, "The Digital Discovery Assessment is a key tool for validating effort estimates, as it outlines the project scope, integration needs, and timelines, enabling accurate resource planning."

\* Option B: Joule studioIncorrect. SAP Joule is a generative AI assistant for user support, not a tool for effort estimation. The SAP S/4HANA Cloud Study Guide notes, "SAP Joule provides digital assistance, not project management or estimation capabilities."

\* Option C: Integration scenarios via the Business Accelerator HubIncorrect. The Business Accelerator Hub provides integration content but is not used for effort estimation. The SAP Business Accelerator Hub Guide clarifies, "The Business Accelerator Hub supports integration planning, not effort estimation validation."

\* Option D: Existing WBS structuresCorrect. Work Breakdown Structures (WBS) from previous projects provide a reference for task durations and resource needs. The SAP Activate Methodology Guide explains, "Existing WBS structures from similar projects can be used to validate effort estimates, offering a proven framework for task and resource planning." Extract from Official Documentation:

\* SAP S/4HANA Cloud Implementation Guide (SAP Help Portal, <https://help.sap.com>): "The Digital Discovery Assessment provides a comprehensive view of project requirements, serving as a critical tool for validating effort estimates during SAP S/4HANA Cloud implementation planning."

\* SAP Activate Methodology Guide (SAP Community, <https://community.sap.com>): "Existing WBS structures from prior projects are valuable for validating effort estimates, providing a reference for task durations and resource requirements in SAP Activate projects." Additional Context:

The DDA and WBS structures are complementary accelerators in the SAP Activate methodology, with the DDA providing project-specific data and WBS offering historical context, ensuring robust and realistic effort estimates for cloud implementations.

:

SAP Help Portal: SAP S/4HANA Cloud Implementation Guide (<https://help.sap.com>).

SAP Community: SAP Activate Methodology Guide (<https://community.sap.com>).

SAP S/4HANA Cloud Study Guide: Details estimation tools.

SAP Business Accelerator Hub Guide: Clarifies integration scope.
